WHEN MOTHER LOOKS I 'member such a lot of things That happened long ugo, When me an' Jim was six years old,-An' now we're ten or so. But those that I remember best-The ones I 'most can see-Are the things that used to happen When mother looked at me.

One time in church, when me an' Jim Was snickerin' out loud-The minister was prayin', an' The people's heads was bowed-We had the biggest kind of joke About a bumblebee But things got quiet rather quick When mother looked at me.

And then there's some times I've had such lots of fun A-goin' in swimmin' with the boys Down there by Jones' run. But when I get back home again-Just bout in time for tea-There's a kind of a differ'nt feeling comes When mother looks at me.

That time when I was awful sick . An' the doctor blook his head. An' ev'ry time pa come around His eyes was wet an' ved. I 'member her hands on my face How soft they used to be-Somehow the pain seemed easter When mother looked at me.

It's funny how it makes you feel-I ain't afraid of her. She's bout the nicest person You'll find most anywhere; But the queerest cort of feeling. As queer as queer can be. Makes everything seem different When mother looks at me.

-Letchworth Smith.

form of big Brother Hillings. SOME LATER INFORMATION ON SELF-FEEDING HOGS

The practice of self-feeding the meal ration from the time the plus are weanquet. Mr. MacVannel has been represmaller number of select hogs being produced than when a similar meal ration liberty to consume all the meal or grain which they desire and all pigs in the lot have an count opportunity, to do so. On the other hand, trough fed pigs receive their feed at stated intervals during the day and, as there is often much said Jake. "Pull of tricks as a monkey cus individuals obtain more than their ing. The occasion was sponsored by the associated farmers' organizations of presentation was malle by the chairman, conducive to growth of frame, and

It is usually accepted that a ration of good variety which contains about 21 per cent, of protein is about right for in his tenure of office. young weaned pigs, and also that the protein should be gradually decreased about 15 per cent is fed during the finishing period. As a matter of fact, these figures appear to be somewhat lower than is re-

quired for the maximum growth and development of bacon hogs which are finished when about 200 pounds in weight. A test recently at the Central Experimental Parm, at Ottawa, in which if ration of meal and milk which contained 24.5 per cent, of protein for weaned pigs and this gradually decreased to 22.6 per cent. for the pigs when finished was decidedly superior to a ration containing 20 per cent, for weaned pigs and the glad hand to his successor. Mr. gradually reduced to 15 per cent. These were self-fed.

The self-fed hogs on the higher protein ration attained an average weight tablishment as a tuberculin free area.
of 217 pounds when slightly over aix By this our guest this evening will be judge, sternly. Take printing for instance. You may buy it cheaper, but you get the cheaper kind, and there is nothing so cheap in effect and results as cheap printing. Some of it is absolutely worthless. 'Considering the small proportionate amount that you spend for printing, you can afford only the lest that you can buy; anything less chengs it from an investment to an ex-Bellse.

. Then you want the good kind of printing just reach for your telephone and call 17 lo We gladly go into details on your printing requirements and all we ask is that you give the home office the first opp climity. We'll stand the comparison test with every point taken into considera-
