Reminds the Farm's Age
The other day we heard the owner of an attractive farm refer to a billboard or advertising sign on his premises. He explained that many such signs have been erected in the past and would not permit his property to be defaced as long as he could get along without them. His policy should be adopted by every farmer. For the billboard not only defaces rural property but reduces the value of it. Milton reformer.

A Michigan motorist, who had been enjoying Toronto Exhibition, and including his good Canadian high-way privileges he was enjoying, was speeding to his death on Tuesday afternoon at 51 miles per hour, crashing into the front of a car. The latest local exhibitor of horses at the C. N. E. was Mr. Robert Kerr. He has the past week, won eleven prizes for his horses. He won the first prize in the two-year-old stallion class. A quick-witted business man from a neighboring town treated himself to a new car a few weeks ago. This car was guaranteed to do fifty or over, but the usual exhibition of the manufacturer's "Not to be driven over 25 miles per hour for the first 1,000 miles." He found, when on a business trip, on Tuesday that the 1,000 miles had been run off, and decided to "try her out" on the new cement of the manufacturing plant. The new car ran great, she just as well as the old one, and she was making fifty and a little over. He was making fifty and a little over. He was making fifty and a little over.
