Our quotations are always consistent with the quality of workmanship we execute on every printing order. We exercise the same care in printing circulars, or any of our printing orders, as we do in printing the newspaper that you are now holding in your hand.

The importance of good printing cannot be overestimated. It is to a circular, booklet or handbill what clothes are to the business man. Shabby printing wreaks as much ill as shabby clothes. They both fail to make a good impression.

We are all set to do some splendid Christmas job printing, and have some very good ideas on the subject. Just come and talk it over with us.

We can do good printing reasonably for you on any other of your requirements" also. Hand us your work and forget your printing troubles.
