General Lesson Title—Paul Before His Judges

Scripture Material—Acts 24: 1 to 26: 22 (24-27; 28, 19-29 printed).

The Text Explained

The following is the outline of facts connecting Lesson 7 with the present lesson: After an exceedingly tumultuous hearing before the Sanhedrin, and the discovery of plot to murder Paul...

Lesson Theme

Faithful to the Vision—Nowhere in Paul's many appeals to himself before Jewish courts and Roman tribunals does he ever make the main theme of his being a Christian. His accusers usually charge him with being a Jew who has turned to the new faith...

She "CLOCKS" the Telephone

THIS YOUNG LADY'S JOB is to "clock" the telephone service. She sits there with her declimeter stop watch and measures to tenths of a second the time taken to complete a call.

Other "clockers" record the errors made, the speed with which "trouble" is repaired, all the items of telephone efficiency.

If speed and efficiency are not constantly on the climb these are the people who find it first and then there is a grand hunt to know what's gone wrong.

It is a good game. It gets results. That is why your telephone serves you better this year than it did last year, and next year will serve you better than now. That is why it has contributed its share to Canadian progress.

FOR EXAMPLE, seven years ago the average interval from the time you lifted your telephone receiver until the operator answered was 5.1 seconds. Today the clock finds the interval cut to 3.6 seconds. That means it is still less.

Seven years ago there were 95 slow calls in every 1,000. Today there are only 33 in every thousand.

The number of errors of all kinds has been reduced from 40 in every 1,000 calls to 16, which is over ninety-eight per cent perfect.

FIVE YEARS AGO you ran 27 wrongs in every 1,000 calls of getting the wrong number. That is down now to 13 chances in 1,000, or nearly 99 times out of the 100 right.

There are only two chances in a thousand now that you will be cut off. There were five chances in a thousand, five years ago.

There used to be eight times in a thousand calls when you would break in on somebody else's conversation. Now there are only two such double connections per thousand.

THERE ARE "CLOCKERS" at work in other directions too and here are some of the things they have recorded.

The time taken to repair "trouble" on a line now has been cut to one-third of the time taken five years ago.

The time taken to install a new telephone used to be three hours and forty-five minutes. It has been cut now to one hour and forty-five minutes. That means something in hours saved, with 139,000 telephones installed in Ontario and Quebec this year.

PRETTY GOOD results. But the clocker isn't satisfied. Nobody in the telephone business is ever satisfied with today's mark. The system tomorrow must always be better to keep pace with the Canada of tomorrow.

Published by The Bell Telephone Company of Canada to tell you something about the telephone business of the people in this country.

JOINT-EASE FOR Stiff, Swollen Joints RHEUMATIC OR OTHERWISE Says: "When Joint-Ease Gets In—Joint-Agony Gets Out"

It was a high-class pharmacist who saw prescription after prescription fall to him hundreds of his customers to get rid of rheumatic swellings and stiff, inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make craky swollen, tormented joints work with just a much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists in the millions of people who suffer from all kinds of joint trouble.

Swollen, twinged, inflamed, stiff, pain-ridden joints are rapidly cured by Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists in the millions of people who suffer from all kinds of joint trouble.

Fisherman Wrecked

Peter was a deep sea fisherman who came to Ontario, married and became a commercial fisherman. He was a winter worker and was more trying than among the logs and ice than he was working harder because there were two people dependent on him. Anyway, he caught a severe cold and cough that wouldn't go away, but he fought on, at home, for over a year. He said the doctor finally gave up and said he would have to take him home. He died in the hospital. He was a fisherman and a father.
