Here did the Indian savage roam, Unchallenged, every forest glade. And his white man's era dawn And his own tribul glory fade; Here Cartler halled his "Mount Royal" And dreamed of cities yet unborn To be through years of toll and strife Out of primeaval fastness torn;

Here carly traders, enger-eyed. Met scourge und death, felled Btablished their quarters, looking toward An age of commerce yet to be. Thus has their vision been fulfilled.

Thus have their early dreams come To-day this regal building stands On that old trail which once they knew. Cartler's "Mount Royal" nobly reigns Over a nation's cities fair And joins the commerce of the world On land, on sea, and in the air. Ours is the heritage they wrought, O may we hold is sacredly, And with a vision clear un theira Utrive to achieve our destiny!

HORSES GAINING GROUND IN

### Pack Animals Remain Man's Greatest Vriend Where Travel in Rocky Mountains is Concerned

While the automobile may be gaining ground on the horze in the cities where demand for rapid transportation is shunting Old Dobbin off the streets, that situation does not apply in the great National Parks in the Canadian Rockies, where the horse is not only holding lils own in the matter of numhers, but increasing each year. Jasper National Park, which is Canada's greatest national playground, there are 4,400 square miles of territory, most of which is traverzed only by saddle trails where the surest footed mountain pony is the only means of transporting the O'er the red streamer that heralds the camper's equipment. Automobile highways have been built through those sections of the Park which are contiguous Musical Cherub, soar singing, away! . to Jamer Park Lodge, the Canadian Na- Then, when the gloaming comes, tional Railways' summer chalet in the Low in the meadow blooms, beyond the end of these highways are some of the famed spots of the territory. HOW LONG DOES IT TAKE TO DREAM

It is not unusual to hear one cay that he has been dreaming about something all night, when possibly his dream loccupied only a short time. Many attempts have been made to measure the time occupied in a dream, and records annear from time to time in the papers, showing that often claborate ones occupy but a few seconds. The following incident is told by a gentleman, who vanches for its accuracy:

clerk in verifying some long columns of figures that had been copied from one book to another. The humbers, reprecenting unounts in dollars and cents, were composed of six or seven figures. The clerk would read, for instance, Pourteen, one forty-two, twelve," making the amount of \$14,142.12, and the gen- stirring constantly to prevent lumping. he could keep lils eyes open.

THE SMART BOLERO

The bolero, in addition to its flattering lines, is one of the smartest of the season's many modes. An interesting innovation is shown here; the blouse being made up in a figured silk or velvet, while the skirt is a plain color of the same material. It is made in one-piece, however. The botero fronts are cut in one with the collar and are faced and rolled to form revers. Pleats in the attached lowerfront sections are stitched down part way. The applied back is attached to the front of the girdle at the underarm seams. The swathed hipline is achieved by the girdle, which may be finished with a smart buckle

### THE OTHER PELLOW'S MOTIVE

The study of motives, our own and other people's, is one of the most important things in life. It is no vacant curiosity that leads us to consider and to discuss why our neighbor did such and such a thing, took the step that brought him fortune and success, or made the mistake that has ruined his life almost irretrievably. Our own actions are so bound up with the actions of

Will It Help Business To Mark Time?

> By 1934 Ontario and Quebec will need a million telephones and the Bell Telephone Company wants new money to provide them.

> The company does not want any money from Parliament. It only wants permission to try to sell new shares to investors.

The investors will supply the money if they are allowed to. If they are not allowed to, the telephone system must' mark time.

In 48 years the telephone company has never suggested nor received a government grant; it only asks freedom to take further part in Canada's progress.

COMPANY OF CANADA

# WHAT IS A BARGAIN?

In this community are hundreds of individuals and families on the watch for an advertisement which will offer them what they want at an advantageous price.

Call them bargain-hunters if you will, but thrifty shoppers would be the better designation. Thrift is a commendable trait and merchants should eater to it.

One family wants a new rug--the need is not urgent. Another family is looking forward to buying dining-room furniture -- it may not be for a twelve month.

One man is thinking of buying himself a watch. One woman a shopping bag; another an umbrella.

All can be made to buy earlier---by advertising. Advertising can make the desire so keen that the bargain is forgotten in the fever for immediate possession.

# A Note To Merchants

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you-at a time of your naming.
