THURSDAY, APRIL 4, 1929

COMING HOME AGAIN There's joy in salling outward. Though we leave upon the pier, With faces gifeved and wistful, out very dearest deur, As the a shall roll between us-

cor perhaps a whole round year There's Joy in climbing mountains, In fording rushing brooks, In poking into places We've read about in books in meeting stranger people With unfamiliar looks

But the joy of Joy is cans. Untouched by any pain, When we take the home-bound steamer And catch the home-bound train; To r 's nothing half so, pleasant As coming home again.

Health Service of the Canadian Medical Association TUBERCULOSIS

It is an accepted fact that bovine tuberculosis is transmitted to human be- had two sons. ings during the years of childhood. This use of milk coming from tubercular pecially full in reference to Christ. cattle. To what extent this is a practical danger depends upon the amount of tuberculosis that exists amongst cattle, because upon that figure would depend

Public Health Journal, there appeared | V. 2.-The scraphim were messengers an article on The Prevalence and Ex- of Jehovah. They covered their face, tent of Bovine Tuberculosis in Canada. so as not to gaze on the blinding glory. This article presented a summary of the of God; their body, with a sense of data collected through certain measures | modesty and awe; and their speeding which revealed the presence or absence wings implied ready obedience. of tuberculosis in some six million cattle. V. 3.—"Jehovah of hosts" is the Lord during a number of years, from various of heaven's armies, the God "of Sabaoth." sources throughout the Dominion. The V. 4 .- "The house means the sanctuary conclusion reads: "It would, therefore, of the temple. The smoke symbolized appear to be justifiable to estimate that the divine anger against the people's bovine tuberculosis infection in Canada, sins at the present time, does not exceed five per cent." The actual percentage. based on the six million cattle, was ap- his people are. proximately four per cent. It is evident that if approximately nearly four out of every hundred cattle truth effectively. have tuberculosis, there is a very real danger in the transmission of boyme tuberculosis to children in this country,

practical one that continues day by day teurization of milk destroys all diseaseproducing germs, including the tuberculosis germ. We may use pasteurized milk and feed it to children, with full

It is not a theoretical danger, but

confidence that the danger of bovine tuberculosis has been overcome. Through pasteurization, we have it in our power to prevent immediately the occurrence of even one more case of bavine tuberculosis which attacks little children, destroying some and crippling a weak and wicked ruler, who was utterto use such a powerful means for pro-

tection from disease. Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter. 

## TWENTY YEARS AGO

Thursday, April 8, 1909 The pretty little catkins are bursting years of understanding both Syria and Low fares on the railways till Monday, Easter holiday.

The snowdrops and crocuses are in bloom again. The frogs commenced their spring conga Monday evening. Mr. Wm. Fryer has moved to the McPherson Parm on the second line. A garter anake was killed by one of the school boys near the G. T. R. trucks

newly acquired residence on Park Avenue The school closes this evening for It is said that at least three new automobiles will be brought to town by

citizens this spring. Mr. W. A. Storey is having the brick barn at his residence remodelled for an automobile garage. A cement floor is being laid.

Mr. Donald Duff shipped his saw mill cutfit to Thornloe, New Ontario on Saturday. Mr. Duff accompanied by Messrs. Wesley Kennedy, Robert Clark and Wm. Wismer left on Monday and Messrs, Jos. - The committee who were in charge

Lodge of Oddfellows are well pleased with the result of their function last Friday night. The programme included solos by Misses Hazel Agnew and Lena Haywood, quartettes by Misses Lena Haywood, Emma Burt, Lottle and Hazel Mason, ductt by Misses J. McDonald and E. Near, readings by Miss Nellie Willlams and Mr. Jack McPherson. The instrumentalists were, Misses Leichman, Thompson and Speight and Messes. J. C. Hill and A Leichman, Mr. R. M. McDonald occupied the chair.

## Thomas Flanagan Spots Nickel

nickel is an old German name for the evil spirit that had bothered the ourly Saxon miners—wan discovered hidden in the copper ore. This troublesome nickel in the ore proved to be more valuable than the copper and to-day Sudbury nickel in known and used the world over.

One use of nickel that touches daily life closely is an alloy with zinc and copper for the contact springs inside telephones. When a telephone user lifts the receiver off the hook these aprings make contact and complete the path to the operator's signal lamp. In the large picture above we see a group of men at work in a cupola of the International Nickel Co. at Sudbury. The young lady, at the right in the Northern Electric factory at Montreal, is inspecting telephone apparatus parts which have been plated with nickel for protection against runt,

THE BOY WHO DIDN'T LIKE MILK

table with a scowling face. "I don't see why I have to drink milk," he grumbled I wish there were no cows; then we wouldn't have any milk to drink." "Jerry you ought to be ashamed of scurself to be saying and wishing such hings," said his mother, "Don't you know that you need to drink milk in order to grow up to be a large and often heard that you wanted to be as big and strong as he. "I don't like ntilk, and I don't want
