PARTY FROCK

Those who love the youthful charm of the bertha collar welcome its triumphant reentry into the fashlonable limelight. For it has returned, to the accompaniment of flattering acclaim from some of the most famous French designers. In this frock the bertha is given a modern air by its interpretation in a downward slanting V-point. This gives piquant contrast to the long, slender lines of the bodice, derived from the princess silliouette. So that the princess lines are not too severe, the bodice ends in a bow-a charming touch. This and the collar keep the freek definitely slenderizing, despite the fulness of the two-tiered kirt. Altogether, this is an extremely charming trock for informal -winter dances, as well as summer affairs. Long sleeves are also provided

Do not be tempted by the price of cheap teas. Only fine teas will give continued enjoyment

YOUR BUILDINGS Trom

FIRE AND WEATHER

Rib-Roll Galvanized roofing shields property from lightning and fire. Wooden roofs are easy

proy. In 1927 in Ontario alone, \$1,814,760 worth

of property was destroyed by fire caused by spontaneous combustion and by embers fall-

ing on inflammable roofs. Rib-Roll is abso-

lutely fire-proof and water-tight. It protects

your crops from dampness that is conducive to spontaneous ignition. Handsome; perman-

ont; easy to lay on any roof. Has seven ribs

to nail; others give less security.

Take steps now to protect your livestock, crops and buildings. Write for a free sample of Rib-

and have a Well Ventilated Born
