and Family

Dear Friends It is with feelings of regret indeed that we are assembled here to-night to say farewell to you from our neighbrhood. During your several years' stay in our midst you have made yourselves useful in the U. P. O. organization and in advancing the interests calculated for the betterment of the life of the com-

munity. You have willingly taken your share of the citizenship duties; you have both, with members of your family, accepted and faithfully discharged the duties of officers in various organizations connected with community life, and have indeed proven yourselves an asset to this district and neighbors of true worth. We regret that you have found I necessary to remove from our midst. But we feel that we cannot let this opportunity pass without in some tangible way expressing our appreciation of these many virtues you have shown and tendering you a little memento that you may take with you into the new surroundings

as symbolic of the best wishes of this community. We would therefore ask you to accept these chairs and this rug as little tokens of the esteem in which you are held by the members of the U. P. O. and your neighbors. And as these articles find a place in the new home among the new aurroundlugs, may they always remind you of the warmness of the friendships which you formed and comented during your residence in this district.
