THURSDAY EVENING, DECEMBER 5, 1929

In the six months T7,676 Canadians who went to the United States intending to reside there perreturning to Canada.

## Sixty Years of Journalism

John Redpath Dougall, M. A., LL.D., is celebrating his diamond Anniversary of editorship of the active association with a journal is permitted. To editor of a journal. It is estimated during these years that Mr. Dougall has contributed twelve hundred million impressions for good. Surely a record for any editor to be proud of and surely a sense of duty well performed will rest with this dean of Canadian journalism on this occasion. May he be spared many more years in which to continue his good work and may a small weekly tender its hearty congratulations on this occasion.

## Higher Duties and Responsibilities

Hon. Chas. A. Dunning has received the appointment of Minister of Finance to succeed Hon. Jus. Robb. Mr. Dunning's capabilities seem to be appreciated and recognized. He will also hold the new duties will be heavy ones is generally con- as the previous one. ceded. That he succeeds a man who was most proficient in the performance of his duties and had able of ever advancing and performing the heavier to the conduct of the Board. burden he has been called upon to accept. He has established public confidence by the past performances. In the new and greater activity in the service of his country he has been called to fulfill, he will undoubtedly measure up.

The People Have Spoken The School Board election is over and the people have demonstrated that they can make the business of public bodies their business and that they desire their transactions conducted with public confidence. It wasn't exactly a clean sweep for either factions but it was a very clear mandate on how the rate payers desire their business conducted. Mr. Mc -Donald who headed the poll very clearly made it understood that he would show courtesy to rate payers and public. Mr. Beswick who came second was the outstanding trustee throughout the year opposed to secreey of the Board's activities and Mrs. Havill who seemed last year to favor secrecy and not to favor the Press came third and polled two hundred votes less than a year ago when six candidates were in the field whereas only five were on the ballot this year and was elected by a majority of only twenty over Mr. Blow who won in his own sub-division but was bested by the "plumpers" in the division of his nearest opponent in her sub division. Mr. Agnew another member of last year's Board was considerably behind all the other candidates. We in no way look upon the election as a victory. The FREE PRESS as a newspaper in the community has been simply trying to do what was the Brampton Conservator last week celebrat- forty and fifty users of gas. Star. considered a duty. Our position was as clearly put ed its fifty-sixth birthday. A double page spread as we knew how. We are satisfied with the an- gave a synopsis and views of this splendidly equipswer given by the supreme judges in the matter ped plant at Brampton. May the coming years see of conduct of public publicess. We trust our relada continuance of the growth and prosperity of the tionships with the Board will be more cordial and Conservator that has in the past characterized is co-operative than has characterized the past year's under the capable management of the Messrs activities. We shall continue to do our best to give Charters. to the ratepayers the news they feel they are entitled to know concerning the conduct of their afelected body.

## Hydro Power For Farmers

An extension-of-1,157 -miles-of-rural electric power lines have been made by the Ontario Hydro Electric Power Commission in the Province this year, at a cost of \$2,650,000. There are now over 5.000 miles of power lines in the farming district of Ontario serving thousands of consumers. many farms in the province electricity, is used for lighting bouses and farm buildings, for cooking, ironing, washing and cleaning in the home and for doing a variety of jobs in the farm buildings, even Mrs, Ellott, on the occasion of her 87th a fall recently. to milking the cows.

An Advantageous Separation The co-operative movement being undertaken by the Ontario Liquor Board and the Department Highways in their effort to curb the drunken driver some cars at the C. N. R. station on should be productive of some good towards stopping this ever-increasing menace to the safety of the general public. To the publicity seeker the new innoviation of posting at the Highway Depart- He retired for the night feeling as well ment office of a list of names of offenders, whose cases call for suspension of license, may be a means answer, having passed away in his alsen. of securing rather undesirable notoriety. But the average individual will not desire his name to be added to this list. Mr. Henry the minister of Highways proposes that the press co-operate in this move ment, and may refer to the names on the list. Evidently it is anticipated that it will not have effect in licated and arrested by Chief Buith, healthful operation of the digestive procurbing drunken drivers for some time as the news The accused was found gullty on three cess. As a vermituge it can be relied or article says that the list will be added to day by The offences were committed during the day. The driving and liquor permits never were advantageous when in the same company. The sep-

## Hogs-Steers-Sheep Say: "The Purina Pound Is Cheapest"

TT'S not what we say about Purina Chows that 1 counts—it's what the animals say. Through 2,413 feeding records from all leading hog raising centers, 90,247 hogs shout, "Purina makes pork at \$6.50 per hundred," while 19,890 steers add, "and makes beef at \$10.08." At the same time 33,399 sheep say, "\$9.98 per cwt. gain." No wonder Purina feeders are making money-more money than by any other plan of feeding. No wonder we became enthusiastic about Purina and decided to become the local authorized distributor of the Checkerboard line.

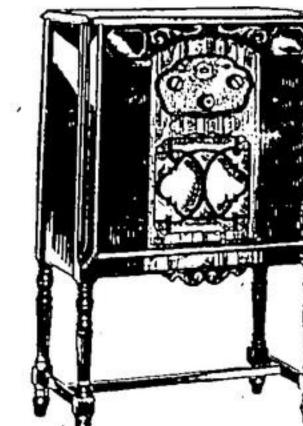

You'll be an enthusiastic booster, too, once you've fed Puring to your poultry and live stock. Why not phone us for a supply-or drop in.
