For the strangest part of this queer old world is that like will join with like; And who walks with love for his fellowman an answering love will strike.

"If you walk in honer then honest men will meet you along the way: But if you are false you will find men false wherever you chance to stray. For good breeds good and bad breeds bad, we are met by the traits we show; Love will find a friend at the stranger's

door where hate will find a foe.

For each of us builds the world he knows which, only himself can spoil: And an hour of hate or an hour of shame can ruin a life of toll: And though to the utmost ends of the earth your duty may bld you fare. If you go with truth and a friendly heart

YOUR CHILDREN AND OTHER DRIVERS

· In these days when "safety first" trying to gain the ascendancy over "safety last," much would be gained if we could all think of other children and automobiles as we think of our own. . If we would drive past other little tots as carefully as we drive past our children. and other drivers would do the same. thousands of lives would be saved each year. Unfortunately, a child to most of us is merely a little pest who insists upon running in front of our car-that is unless he is our own child. The other fellow thinks of our child as we think itself in this particular gift, but always of his. That is why we number our in new power for Christ (1 Cor. 12: 6-10. deaths by thousands instead of by twos 30; ch. 4: 31; 0: 17-22). and threes.
