Held at Toronto on Monday, to the necessity of appointing a Magistrate in one of the four municipalities. Alleged Theft at Glenwilliams
On September 28 the warehouse, owned by Joseph Beaumont at Glenwilliams was destroyed by fire, causing loss of \$4,000. It was at first believed that the fire was of an incendiary nature, but investigation made by Provincial Constable Cookman and Chief of Police Marshall, of Georgetown, have led the authorities to believe otherwise. This week Provincial Constable Cookman and Chief Marshall arrested Jack Norton, aged 33 years, of Glenwilliams, who, two other young men, is alleged to have broken into the Beaumont warehouse on the night of the fire, and it is alleged, the fire started as a result of the three young men stealing gas. Norton was lodged in the county jail at Milton to await trial.

The Johnston-Sayers Wedding
A quiet but pretty wedding was solemnized at Knox Mansie, Willow Street, Acton, when Margaret Jean, elder daughter of Mr. and Mrs. Henry Sayers, Acton, became the bride of Mr. Gordon L. Johnston, son of Mrs. Charlotte McDonald, of Hamilton, Rev. H. L. Bennie, M. A., officiating. The bride couple were unattended. The bride looked charming in a gown of purple blue georgette, trimmed with lace. Following the wedding ceremony, a bridal breakfast was served at the home of the bride's parents, when about twenty of the immediate relatives of the bride and groom were present. Later Mr. and Mrs. Johnston left by motor on a honeymoon trip to Timmins, the bride traveling in a green coat, trimmed with hat and carried a green bag with hat and accessories to match. Upon their return Mr. and Mrs. Johnston will reside in Hamilton.

Barn Burned in Eramosa
Fire, believed to have started from an overturned lantern, totally destroyed the barn on the farm of George Weatherstone, second line of Eramosa Township, Saturday night. The barn, one of the largest in the district, was burned to the ground, with all contents, except live stock, and the blaze attracted hundreds of persons for miles around. The flames illuminated the sky vividly, and the red reflection brought crowds from many points. Cars were parked from the farm, four miles from Four Corners, as far as Speedside. While it is not definitely known just how the fire started, it was believed by some that a lantern overturned and exploded. Mr. Weatherstone endeavored to fight the flames before they gained headway, and was badly burned about the arms in the attempt. Fortunately the wind was blowing in a favorable direction, and other farm buildings and the house were saved, because of this. Horses and other live stock were safely removed before they were endangered by the blaze, but the season's crop and all other contents of the barn were destroyed. The barn alone was valued at over \$5,000 to \$6,000, but the extent of the loss in connection with the crop and equipment is not yet estimated. The farm was formerly the old George Armstrong homestead.

Acton Public Utilities Commission, Town Hall 2.80

R. L. Wallace, streets and walks, Ritchie & Agar, work for Town Hall 60.00
George Lanis, gravelling streets 79.75
Acton Press Presses, printing and advertising 9.60
\$530.77

The report was adopted, with the amount owing to J. E. Watson to be deducted from his taxes owing the municipality.

A couple of residents were present to inquire if anything definite was being done regarding the unemployment situation and the building of the highway from Acton to Milton. The Reeve pointed out that to the present nothing had been definitely settled. Another one had been informed that he could not secure employment in Acton as he lived just outside the corporation. The Council assured him that he would be considered in the same light as all the applicants and given consideration with all other unemployed.

The fire by-law, defining the fire limits in Acton was reviewed, at the request of a Councillor. The matter had always been a contentious one. The Clerk was instructed to make inquiry regarding the regulations in other municipalities.

A letter from Dr. H. K. Anderson, M. P., outlined the suggestions that he had made to the departments regarding unemployment works in the County. Among other things he had suggested that the highway work from Acton to Milton be undertaken by the Millon. Mr. MacCauley, had told the Member that this work was slated for next year. He pointed out, however, that some preliminary work might be undertaken this fall.

A letter from the Secretary of the Canadian Legion requested permission to hold their annual Poppy Day campaign. Details concerning the administration of this fund were supplied the Council.

Another letter from the Legion requested that the Council continue the service on Remembrance Day, this year on November 11, that has always been held.

The Clerk was instructed to inform the Legion that permission was gladly given for the holding of the Poppy Day campaign, and its observance were left over for a future meeting.

The matter of unemployment relief was then discussed by the Council in preparation for winter. It was generally agreed that any men who refused employment at reasonable wages could be granted no relief.

The Council decided that immediate action should be taken and considered it advisable to form a central committee to deal with relief measures. The Clerk was instructed to write the ministers of the town, the heads of the ladies organizations, the Canadian Legion and other fraternal societies, asking them to send two representatives to a meeting to be held in the Council Chamber on Friday evening at eight o'clock. Representatives of the industrial institutions of the town were also requested to be present. It was felt that a general meeting would be too unwieldy to handle the matter, but citizens from all parts of the community with their various views could be assembled in this manner for the initial meeting.

The matter of purchasing potatoes at current prices and arranging for storing of them in a suitable place was left in the hands of Chief McPherson. Arrangements were also made for getting a supply of wood for relief measures throughout the winter.

Fire Chief McDonald asked that the Municipal Officers go over the hydrant about town, the engine old and all the outlets tested before the cold weather sets in. This was agreed to be done.

At the special meeting of the Council last week to consider tenders for the pump house heating, the work was awarded to P. How, for the sum of \$312.00. The work was to be started immediately.

THE EVENING MEAL DIGEST

A young man whose knowledge of cards was extremely visionary, was roped in to complete a bridge four. After a few moments he committed his first mistake by throwing away a king on a trick already taken by his opponent's ace. "Good heavens!" bellowed the young man's partner, "a king doesn't usually beat an ace, you know." "I know," stammered the beginner, "but I thought I'd let it have a try."

A. Moore, Trumanburg, N. Y. Two brothers, Rev. Dr. W. H. Moore, of Thvera, N. Y.; and I. P. Moore, High River, N. Y.; were not able to attend. Thirty slates were present: Mrs. W. J. SOLDIERS—OLD AND NEW

Being the Trito Observations of a Citizen on Visiting Two Local Encampments

Walking near the Arena last Thursday evening, I heard sounds coming from that place which made me enter to see what was going on there. On the inside I found Sgt. Jack Alger had a squad of young lads, putting them through the first movement of rifle drill. They were very apt recruits and during a week period I heard the instructor say "That was good. You are doing very well."

Being an old "sawd," I was interested enough to stay an hour or so to see and hear all I could. The drilling continued for about an hour, when Capt. Barber came in and informed the lads that the Commanding Officer, Major Cousens, would be along in a short while to inspect them.

He came and stood by while the sergeant gave his squad more rifle drill and moved them around in platoon drill. With the C. O. was a Major Thompson, and a Mr. M. B. Coleman. I learned that Mr. Thompson was a platoon officer here. With the drill finished, the men sat down to tables with their officers and enjoyed a feast of coffee, pie, cake and ice cream.

During the evening there were talked out empty speeches. The first speaker, Capt. Barber, spoke of the last General Inspection, when the General pointed out some slight faults. He said that some of these had been overcome, and showed how, by attention to small details, the Acton platoon would compare favorably with any other in the Regiment. He was pleased to notice the absence of gambling and profanity.

Major Cousens addressed the lads along the same lines and said that, although the uniforms were not new, boots blacked and well polished, and equipment well bunkered, worked wonders, and made a good impression on an inspecting officer. He said there were two things to be observed in the making of a regiment—when at work, work well; when at play, play well. Do not look upon us as officers, we are also your friends. If you cannot see any difficulty or trouble, either in your military duties, or your civilian life, do not be afraid to come to us. We will help you.

At one point of the proceedings, we set the radio working, and appropriately enough, the song we heard was "Oh, Canada! We Stand on Guard for Thee." That is what these lads are doing, standing on guard for Canada, for while there may be a great deal of peace talk, munitions are all being prepared for war.

And so we leave the soldier in the making, and visit the old soldier at the old rink. There were 35 or 40 met last Friday evening at the old rink. Why do they meet? Their opening song was "The Canadian! We Stand on Guard for Thee." That is partly why they meet once a month.

They are still on guard. Last Friday they studied and discussed the unemployment situation. They appointed a committee of influential comrades to interview the Good Roads Commission to urge them to construct the Milton-Acton highway. They discussed ways of means of relieving distress, and the ways of relieving distress, and the ways of relieving distress.

"Good heavens!" bellowed the young man's partner, "a king doesn't usually beat an ace, you know."

Two brothers, Rev. Dr. W. H. Moore, of Thvera, N. Y.; and I. P. Moore, High River, N. Y.; were not able to attend. Thirty slates were present: Mrs. W. J. Brown; slates were present: Mrs. W. J. Brown; slates were present: Mrs. W. J. Brown; slates were present: Mrs. W. J. Brown.

News of Acton and the District

To Formulate Relief Plans
In an effort to formulate plans to cope with relief measures throughout the winter, the Council has taken the initiative and called citizens from all walks of life together for a round-table conference to-morrow night in the Council Chamber. That there will be need of such work is a forgone conclusion. While the first meeting is necessarily confined to make for a working committee, it need not undoubtedly give everyone a chance to serve in some way. Citizens are all anxious to serve within their limited means, and the best way will be to lend unselfish support to a central organization. Moral and practical support will both undoubtedly be appreciated by those who shoulder the responsibility. If you have been called upon to appear as a representative at that meeting, do not shrink your responsibility.

Malcolm Muir's Death Found Accidental
Malcolm Muir's death was caused by his falling from a week-bound freight train, and was purely accidental, a coroner's jury decided at Rockwood last "Tuesday" night, following an inquest into the circumstances surrounding the death of the transient. The proceedings were brief, three-quarters of an hour sufficing for the hearing of all the evidence, and the deliberations of the jury. Only four witnesses were heard—a relation of the dead man, the Rockwood station agent, Constable Lloyd Menzies, and the physician who performed the autopsy. The verdict was as follows: "We, the jury, after hearing the evidence, find that Malcolm Muir, on October 3, came to his death by falling from a week-bound C. N. E. train, about two miles west of Rockwood. We are of the opinion that his death was purely accidental, and that no blame can be attached to anyone."

Trains on Local Line Delayed
When the rear train of Canadian National Railway train No. 37, on its way from Toronto to Goderich, was mischieved when going into the siding at Shakespeare, about 8:30 o'clock Saturday night, it left the track, ripping up more than 100 feet, and delayed the Chicago-Montreal, No. 30, more than two hours. Number 20 meets No. 37 at Shakespeare, and it was about three-quarters of a mile away when the accident occurred. The car which was flagged and was being used to haul lumber and was from Stratford visited the scene and got the truck back on the siding track. Number 37 was going about six miles an hour at the time into the siding to allow No. 20 to pass. Shakespeare is about six miles east of Stratford, on the Toronto-Detroit. Superintendent W. E. Weegar is investigating to determine the cause.
