> The following address was then read by Miss Muriel Crossman: To Ethel and Fred: 45

Dear Friends: We, the members of the U. F. Y. P. O. are gathered here to-night to extend to your our sincerest congratulations upon your coming marriage, and to wish you most cordially a long life of prosperity, happiness and the richest of God's blessings. Having lived among us since child-

hood, you have endeared yourselves to us all. You have been loyal and faithful workers in our club. We would like to show our appreciation of your work and express our love and esteem for you, so we ask you to accept these gifts. May you be long spared to use them and may they bring back to you the happy relationship we have had together

in our club. United we wish you joy in your new life.

Signed on behalf of the membersof the U. F. Y. P. O.

R. L. Davidson, ... Arthur McKeown, Muriel Crossman.

A chair and dennery were presented by Walter Linham, Tush. Foster, Velma Murray and Flora Sayers. Both Fred and Ethel thanked the U. F. Y. P. O. in a few well chosen words. Everyone joined in singing "For They are Jolly

Good Fellows."

RICH AND POOR By Arthur B. Rhinow

DOES THE SIZE OF SEED-PIECE AFFECT THE PERCENTAGE OF VIRUS DISEASES IN POTATOES?

During the past eight years experi ments have been conducted by the Division of Botany of the Dominion Experimental Farms to determine whether or not the size of seed-piece affect the percentage of virus diseases in potatoes. The sizes used were whole tubers weighing 3, 2, 1 and 1/2 ounces and cut sets weighing 1%, 1 and 16 ounces. The results clearly demonstrated that whole tubers consistently produced larger and stronger plants than cut sets and the size of the plant increased in direct proportion to the weight of the Yields were comparatively small seed-pieces weighing one ounce and less a disadvantage not consistent Mrs. L. Elliott, Norval Station, narrow- economy nor good farming practice. In the case of Irish Cobblers virus diseases No. 7 Provincial Highway in Norval, she did not increase with the use of small lost control of her car. The car plunged seed-pieces. With Green Mountains, into the race of the Norval Mills, and however, mosaic increased very slightly

In considering the use of culls-for seed lagers, and the car was hauled from the purposes, it must be regarded as an exwater little the worse-for the misadven- pedient to follow when certified seed is

not available. Besides the question of freedom from disease, the farmer must be sure that the seed represents a good yielding strain. These qualities of course are certain to be found in Certified Seed.

RECORD BREAKING

The last year or two has been period of making records and breaking them. Look at the endurance records in aviation, for example. A record is established before somebody breaks it.

What do you think of having the same idea in character building? a rule, you know, there is no idea of breaking records where character is concerned. Many a young man, if remonstrated with because of some line of indignantly that he is not any worse than other fellows in his set. Not much

It is a good thing to find out what

EXAMPLE COUNTS MOST

Young people with brothers and sisters still younger feel a big responsibility for them, and it is right that they should. The way they discharge that responsibility, however, is often mistaken. When John hears his younger brother replying 204,403.37. rudely to a neighbor, he at once takes the youngster in hand. He calls him names, insults him, and threatens him with something worse if he does not mind his manners. Of course he makes has just been extremely rude to him. Alice a liar.

BANK OF MONTREAL RE-PORTS CONDITION OF MARKED STRENGTH

Total Assets are \$748,612,481, to Meet Payment of Liabilities to the Public of \$672,310,882, Leaving an Excess of Assets of \$76,301,599-Holdings of Government and Other Bonds, \$228,901,146.

The semi-annual statement of the Bank of Montreal, as of April 30 makes a very strong exhibit. The outstanding features are represented by an increase in the holdings of securities, a gain in iquid assets to an amount equal to 57.34 per cent. of liabilities to the publicvidence that the bank is in a position to meet increase in the requirements of its many-customers.

The statement, in easily understandable form, appears elsewhere in this issue and affords an opportunity of obtaining comprehensive view of the Bank's

Total assets are reported at \$748,612,-481, compared with \$786,897,706 a year ago. Of this amount quickly available, or liquid, assets, are \$385,483,225. Included among these liquid assets is cash in vaults and in Central Gold Reserve amounting to \$78,491,119, equal to 11.67% of public liabilities.

Increase in Bond Holdings The most important change in liquid issets is represented by an increase in government and other bonds and debentures to a total of \$228,901,148. These are recognized as gilt-edged securities, the greater pertion of which mature at early dates. Included among them are Dominion and Provincial government securities of a value of \$174.730,246, up. from \$149,229,626 a year ago. Call loans outside of Canada are \$20,262,324 and are secured by bonds, stocks, and other negotiable securities of greater value than the loans and represent moneys quickly available without any disturbing effect

on conditions in Canada. Call loans in Canada secured by bonds and stocks of greater value at current quotations than the loans stand at \$5,-645,610, as compared with \$11,347,487

at the same date last year. The total of current loans made to manufacturers, farmers, merchants and others, is reported at \$336.572,388. Deposits have held up remarkably well under prevailing conditions. Total de-

posits are reported at \$626,7011,081. Total assests of \$748.612.481 are available to meet payment of liabilities to the public of \$672,310,882, which leaves an excess of assets over these liabilities of \$76,301,599.

Profit and Loss Account The profits for the six months amounted to \$2,589,292.70 as compared with \$2,771.753.71 for the corresponding period last year. The profits were distributed as follows: Dividends, \$2,100,-000.00; provision for taxes; Dominion Government, \$228,316.28, and reservation for bank premises, \$100,000.00, leaving a balance of \$100,976.42. This when added to the balance carried forward at the end of the fiscal year brought the total at the credit of profit and loss to \$1 .-

The shows that no less than 3,646,536 caps older brother who enjoins courtesy, while were made in that year, of which 3,119,making use of the rudest expressions he 904 were cloth, 453,816 of other material can think of, may be sure that the including those made for advertising younger boy will carry with him not his purposes, and 72,816 were uniform caps. precept....but his example. The older There ware also 6,038,484 hats for men sister who informs little Alice that if and women made in the year under reshe tells any more wrong stories, she view; the majority, of course, for women, will be given to the ragman to carry for a hat is a garment, if it may be so away, is doing her part toward making called, that men do not change as often as ladies. Among the hats for women those made of wool or felt top the list with 131,645 dozen, followed by those of straw to the number of 121.987 dozen: of velvet, 35,280 dozen, and of fur felt 28,051 dozen. The most popular hat among men is the fur felt, of which there were 61,906 dozen produced; the straw variety was next with 61.144 dozen and the wool or felt third with 29,319 dozen. The men's velour hat, fairly popular in some European centres, is in very small demand among Canadians, for the total output in the Dominion in the year

under review was only 92 dozen. There are 153 establishments engaged in the production of hats and caps, the value of the output of which in 1930 was \$14,224,789. A total of 4,207 persons were employed in the industry. Of the 153 establishments 71 were in Ontario; 65 in Quebec; eight in Manitoba; three in Alberta; three in New Brunswick; three in British Columbia, and one in Nova Scotia.

MARTYR TO MODE

Doctor-"Have you any idea how your wife caught this terrible cold?" Husband-'T think it was on account of her coat."

"To thin, eh?" "No; it was last winter's one, and she didn't wear it."

ATTEMPTING TOO MUCH

Do not attempt so many things that you are unable to make a success of any. It is better to belong to one worthwhile organization and give it loyal support than to belong to a dozen and hardly count in any one of them. Do not be so eager to have a good time that you rush from one thing to another, without giving yourself a chance to learn

Should be Discontented

HAT man or woman who is completely contented is in a sorry state. Every man, woman and child should have aspirations-desires for something higher and better than is now possessed. It is Godlike to be discontented.

> Poverty of mind and estate is a manifestation of contentedness.

Laborers, if they were properly discontented, would raise the character and quality of their work and would receive higher pay.

Men and women in salaried jobs doing manual or clerical work, are unlikely to receive promotion if they exhibit contentedness.

Those who go farthest and highest in the world's estimation are they who have the creative impulse, plus initiative; they are those who strive to possess or reach what is beyond them.

Things beyond us are made known to us by and in advertisements. Advertisers dangle in front of us electric refrigerators, electric laborsaving domestic mechanisms, personal charm and beauty, the pleasures of travel, fine furniture and furnishings, the vigor and benefits of better health cultural occupations and recreations, higher-paid employment, and the ways and means by which we can make our time and labor give us more money and more leisure.

Advertisements are designed to stir us out of bovine content by putting pictures before uspictures of the imagination. These pictures create longings in us, and longings find a way of translating themselves into purpose, ambition and resolution.

those younger than 70 who say they are completely content merely say that they have collapsed mentally and physically. - . -Ideals change, desires change, objectives

change, but never should any of us be contented.

And we'll never be contented if we keep reading

who have reached their seventieth birthday, but

Perhaps contentment is permissible in those

Pictureful, pressureful advertisements! Let us

all be grateful for and to them.

OT the news, not the stories, not the information, not the entertaining and educational articles, contained in newspapers and magazines are the pushers of us toward something better and higher; it is the advertisements in them. They are urgent and narrow-purposed, and are vivid. They are deliberately devised to make us do something.

ADVERTISEMENTS ARE THE FOES OF CONTENTED MEN AND WOMEN
