

PAGE SIX

HE WILL SUCCEED
 He will succeed who gives his best
 To every task and every test.
 He will succeed who, day by day,
 Plods steadily along his way.
 For him the lights of fame shall burn
 Who never grows too wild to learn,
 Who rises with the morning sun,
 Intent on bettering what he's done.
 Who asks no favors from the past,
 Believing yesterday should last.
 He will succeed who understands
 Life has no place for idle hands.
 Who rightly all life's history reads,
 Big men have always done big deeds.
 He will succeed who truly knows
 That merit often slowly grows.
 He will succeed who'll work and wait,
 And seek the knowledge of the great;
 He will succeed, whatever his birth,
 Who has the pluck to prove his worth.
 —M. J. Ryan.

Recipes for New and Novel Dishes; Household Ideas and Suggestions

(By Betty Barclay)

COOL SUMMER BEVERAGES
 There is more than one way to slake a summer thirst in these modern days of good refrigeration, countless ingredients and handy markets. Yet one of the simplest and most delightful of beverages is plain iced coffee. Iced coffee costs less than a cent a glass and it can be made in a jiffy. Also, it has many delicious variations. Here are recipes for two:

COFFEE SHAKE

Half fill a shaker with clear, freshly-made coffee, add a few drops of vanilla, four tablespoons of crushed ice, one or two tablespoons of powdered sugar and heavy cream or evaporated milk to taste. Shake vigorously till foamy, serve in tall slender glasses, topping each with a spoonful of whipped cream and a halved maraschino cherry.

ICED MOCHA CHOCOLATE

Melt 2 squares unsweetened chocolate in 1-cup strong coffee infusion, stirring until blended. Add dash of salt and 3 tablespoons sugar and boil 4 minutes, stirring constantly. Place over hot water and add 3 cups milk, stirring constantly. When hot, beat with rotary egg beater until light and frothy. Cool. Pour over cracked ice in six tall glasses. Top each glass with 1 tablespoon sweetened whipped cream.

ORANGE FRUIT CUP

(Serves 4)
 3 oranges
 1 grapefruit
 2 tablespoons powdered sugar
 Mint sprigs
 Segment oranges and grapefruit, and mix with sugar. Serve very cold in cocktail glasses, garnished with mint. Variations: Use maraschino cherries, strawberries or other berries for garnish in place of mint.

CHEESE AND ORANGE BISCUITS

Are you interested in something unusual for guests or even for the family alone? Here are two biscuit recipes that are surely entitled to the term "unusual":

CHEESE BISCUITS

1 cup special cake flour, sifted
 1/2 teaspoon baking powder
 1/4 teaspoon salt
 1 tablespoon butter or other shortening
 1/2-cup grated cheese
 1/2 cup milk and water, equal parts
 Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening and cheese. Add liquid gradually until soft dough is formed. Roll 1/2 inch thick on slightly floured board. Cut with floured biscuit cutter. Bake in hot oven (450 degrees F.) 15 minutes. Makes 12 biscuits.

ORANGE BISCUITS

2 cups special cake flour, sifted
 4 teaspoons baking powder
 1/2 teaspoon salt
 2 tablespoons sugar
 4 tablespoons butter or other shortening
 1 tablespoon grated orange rind
 1/2 cup milk (about)
 12 cubes, cut sugar
 1/2 cup orange juice
 Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Cut in shortening and orange rind. Add milk gradually until soft dough is formed. Roll 1/2 inch thick on biscuit cutter. Cut on top of each biscuit place 1/2 cube sugar dipped in orange juice. Bake in hot oven (400 degrees F.) 15 minutes. Makes twenty-four 1 1/2-inch biscuits.

The Terror of Asthma comes like a thief in the night with its dreadful throbbing, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of the remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living and if the remedy be used persistently the disease is put permanently to rest. Take no substitute.

THE OLD MAN OF THE BIG CLOCK TOWER

attend many more such functions. Sure, I signed the register with all the other hundreds of folk, but I didn't sign my name as "The Old Man."
 "I asked the editor if he would try and secure a copy of the history of Nassagaweya, written 50 years ago by Joshua Norriah, for my enlightenment, and if he gets it, I'll brush up a bit on Nassagaweya. That little gold booklet, with Ebenezer history, was a reminder of the other booklet. Of course I secured my copy of the Ebenezer history. I would not let any opportunity like that pass me by and there seemed to be many others who appreciated the opportunity of having this record of Ebenezer, which was compiled by my good friend, John Marshall, and his wife. And excuse me for saying so, but they certainly made a complete record of Ebenezer that you younger folk will appreciate in later years if you have a copy.
 The century of worship at Ebenezer that has been observed, is fittingly marked in the observance of the event this week. But let me just quote one paragraph from this historical volume. It sums the whole matter up in words much better than mine. It's the concluding chapter of the history of the church: "In conclusion, if there are any people who have reason to be thankful, it is the people of Ebenezer, for behind them is a whole century of concentrated effort. And the faith of our fathers should encourage us with confidence that the same power, which led them, will lead us into a promising future in the service of the Master."
 There you have it, and in fancy I think I can hear a chorus of "Amen."

The Old Man

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

HARDY ROSES IN BLOOM IN JUNE

Most of the hardy roses that flower in June only bloom once, therefore they should not be planted in a formal rose garden. They are perhaps better classed as flowering shrubs and have a place as the boundary of a formal garden or amongst shrubbery. As these roses can be left undisturbed for years the ground should be well and deeply dug and well rotted manure mixed with the soil before planting. The plants can be put in either in spring or fall and if they are on their own roots they will spread by suckers and make fine clumps in a few years. They need very little care, except weeding, and are not susceptible to disease or insect pests. The varieties mentioned here are hardy at the Experimental Farm, Ottawa, without protection.
 Harrison's Yellow is the well-known yellow rose so often seen in old gardens. Seedlings of this originated at the Experimental Farm, Ottawa, have proved equally hardy. Orinda is one of the best and has cream-colored flowers. Scotch roses have dainty flowers and make very attractive bushes. One that blooms all summer is Stanwell's Perpetual. Two varieties originated at the Experimental Farm which belong to this class have been named Huron and Iroquois.
 Betty Bland, which has reddish bark and pink flowers and very few thorns, is a seedling originated by Mr. Skinner, Rogers, Manitoba.
 Rugosa hybrids are very useful roses for Canadian conditions. The species rubra and alba are beautiful in flower and in fruit. Many of the hybrids do not set seed, but have finer flowers than in the species. Agnes and Grace, two varieties originated by the late Dr. Wm. Saunders, have amber-colored flowers. F. J. Grootendorst is a perpetual bloomer. It winter-kills a little at Ottawa and there is a pink form also. Hansa and Slosser's de Heij are red. Blanc Double de Coubert and Souvenir de Philippeon Cochet are white and have a long blooming season.
 Rubrose variety Carmeretta is a large growing shrub with reddish foliage and clusters of pink flowers. This was originated at the Experimental Farm, Ottawa, and is very hardy.
 Two species that should be grown where space permits are R. rubrifolia with red leaves and clusters of small red blossoms. R. spinosissima altaica has a large single cream flower.

FANS IN COLD WEATHER

The Chinese have a saying that on a cold day it is easy to borrow a fan. It is a quaint way of stating the fact that people can generally obtain that which they do not need. A rich man can always borrow money. One to whom five dollars would seem a godsend may have to do without it. The people who have charming homes and a wide circle of friends are often embarrassed by their numerous dinner invitations. A young fellow in a hall bedroom in a cheap boarding house, starves for congenial society and perhaps, because he cannot get it, ends by picking up the most undesirable associates.
 Some of you give your most expensive gifts to somebody who already has so much that you have to rack your brains to think of anything acceptable. When you invite anyone to dinner, it is sure to be some one who is always being invited somewhere, and who would almost welcome a quiet evening at home for a change. Why not concentrate on the acquaintance to whom a gift or a dinner invitation is an event? Why insist on offering fans in cold weather?

SLATS' DIARY
BY BOSS PARQUHAR

Friday—well ma got 1/2 sore at pa agen tonite. when he started down town to go to lodge meeting why she stop at the drug store and get sum thing for the ants we got a round here and pa replied and sed o yeah we I am not a going to get nothing for the ants and if they cant get a long on what we all redgy got why they can hunt summers else.
 Saturday—well are base Ball game went fluey today on acct. of it rained all the afternoon. ma sed I shut not ought to grubste because we need rain to make things grow like Spinnage and patatas and corn but we aint got no Vegetables on are baseball dimonds witch needs rain to grow.
 Sunday—Joe Clutch's muther & law has left and went home since he traded in his sedan and went and bought a ford with a rumble seat. Pa says mebbey Joe aint so crazy after all.
 Monday—The Flatter has had his garden plowed under and is not a going to have none on acct. of his wife broke her rist the other day when she fell off a ladder while she was Washing the windows.
 Tuesday—Annabel Mulch is home on a visit after making 2 very successful marriages and is getting flumoney frum both of them. Pa figgers that about 2 more yrs of mrrying and she can retire frum the Market.
 Wednesday—Doc Smith told pa a cuple months ago to be careful and not get wet. but pa says if it keeps on a getting hotter like it has been he is going to throw Cauchus to the 4 minds and take a nice bath sum Saturday.
 Thursday—The police cum down to Joe Hixes house tonight and balled him out for throwing trash in the St. but he finely explained that what he had thired in the St. was not trash. It was his wife. so every thing is all rite now.

TROUT FISHING IN JASPER PARK

So successful has been the Canadian Government's effort in the stocking of lakes in the National Parks that were previously barren of fish that on June 1, the Medicine Lake-Maligne Lake system in Jasper National Park, Alberta, was thrown open to the visiting angler with every promise of excellent fishing. Brook trout, the sportiest of fish, have been established in thousands in the beautiful lake system of the Maligne River and the experiment has proved such a marked success that it has been decided to permit fishing in these lake this summer.
 During the summers of 1925 and 1926 extensive investigations made under the direction of the Biological Board of Canada revealed that neither Medicine nor Maligne Lakes, the two largest and most beautiful bodies of water in Jasper Park, contained fish, although in excellent condition. Accordingly in the spring of 1927 about 250,000 eastern brook trout fry were distributed in these lakes. Due to the absence of natural enemies, the mortality among the fry proved negligible, with a consequent rapid growth. Following an interval of sixteen months, a visit to the lakes by park officials disclosed fish measuring from fifteen to twenty inches in length inhabiting the waters. The maximum weight of these specimens averaged one-and-three-quarter pounds, and although not yet a year and a half old they had already commenced to spawn.
 During the winter of 1929-30, the spawning trout in Beaver Lake, located about one mile up a creek at the south of Medicine Lake, were so plentiful that they covered the bottom over an area of several hundred square feet. In September, 1931, fingerlings of 1930 were so plentiful in Maligne Lake that in the southern portion the splashes made by the young fish on the surface had the appearance of heavy rain. In from three to four hours with one rod and using barbless hooks, over one hundred pounds of fish were caught and returned unharmed to the lake.
 The fishing season in Jasper Park for eastern brook trout extends from June 1 to October 31, inclusive. Regulations provide that not more than 15 fish with a combined weight of 30 pounds may be taken in a day by one person. With fish running up to five pounds, the daily take will naturally be reduced below 15. No fishing license is required to fish the waters of any National Park in Canada.
 Jasper Park contains an area of 4,200 wild game sanctuaries in the world. The town of Jasper, in which the administration building is located, is reached by motor road from Edmonton, the capital city of Alberta. Excellent accommodation is available both in the town of Jasper and at Jasper Park Lodge, situated on Lac Beauvert.

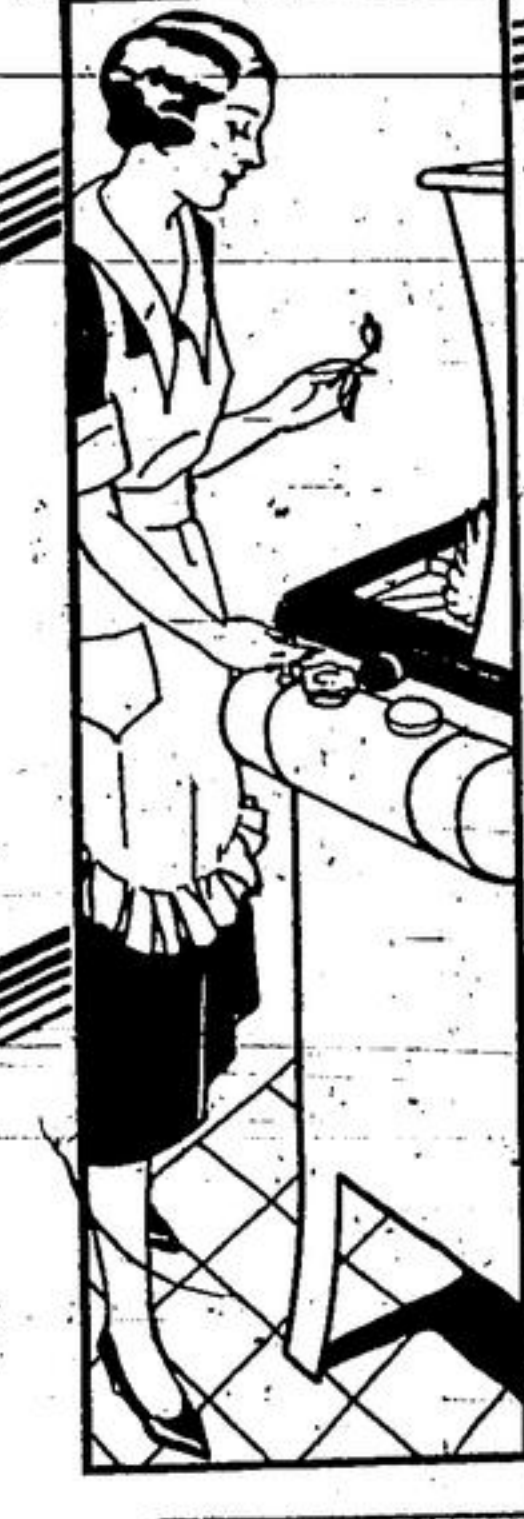

"Bring Dora too—we'll play tennis"

All Ruth's friends in the city felt sorry for her when she married Dick and settled down in a small town thirty miles out.
 They soon found, however, that Ruth had lawns and flowers which made city apartments seem very stuffy indeed. Now they welcome a chance to run out and Ruth is never lonely.
 The telephone is the connecting link. It is quick, easy to use and costs only a few cents to call the city.

Low evening rates on Station-to-Station Calls begin 7:00 p.m. Still lower night rates at 8:30 p.m.

Now... Instant-Gas Cooking for Homes Beyond the Gas Mains

JUST light a match, turn a valve... your new Coleman Instant-Gas lights instantly... right at the burner! It has no preheater. No waiting. Put on your pots and pans and start cooking "right now". That's modern gas service! The finest stove you ever saw for homes out beyond the gas mains. Economical to operate... makes and burns its own gas from regular untreated motor fuel.

Your dealer will be glad to show you all the many new, modern, up-to-the-minute improvements on these dandy new stoves. There's a model just "made to order" for your cooking requirements... at a price that will fit your purse.
 Let him demonstrate the new Coleman Instant-Gas. See for yourself what a stove it is!
