Milton Station Burglarized Some time during Tuesday night early Wednesday morning, burglars forced their way into the office of the Canadian Pacific Railway station at Milton, and not finding any money, contented themselves with stealing tickets. C. P. R. detectives and Provincial Constable Cookman, of Milton, are investigating. This is the first time in history that this station has been burglarized, as the company has always had a night operator on duty until a few months ago.

Fergus Also Mixing Time

According to the following news despatch from Fergus, a vote of the electors on daylight saving time in that community is not an effective way of settling this vexed question. The item reads: "The factory and office employees of Beatty Bros., Ltd., will commence working on daylight saving time, Monday, July 4, and will continue on this time .. until September 3. The town, of course, has definitely decided to-remain on standard time all summer. A petition, presented some time ago at a session of the Town Council was not considered because the matter had already been voted upon at the annual elections."

was felt this was in keeping with the trend of prices generally and the Directors did not want anyone deterred from attending Acton's popular fair on account of the admission. Inquiries for concessions at the fair indicate that the midway may have to be lengthened to full length of the Park to accommodate the number who desire to attend. The Directors are very enthusiastic and indications point that the 1932 Fair will be an outstanding event.
