TOLLERS

God give them peace and plenty and bless the homes they keep...

The tollers at the furnace, the tollers in the field...

A few there are who toll not and have do bouts with care...

God bless the nation's tollers and let their dreams come true...

THE SUNDAY SCHOOL LESSON

THE SUNDAY SCHOOL LESSON FOR SUNDAY, SEPTEMBER 11

ISRAEL JOURNEYING TOWARD CANAAN

Golden Text.—Come thou with us, and we will do thee good.—Numbers 10: 29.

Lesson Text.—Numbers 10: 11-13, 29-36. Read Num. 10: 11-36.

Time.—1490 B. C. Place.—Wilderness of Paran.

Exposition.—I. From Sinai to Paran, 1113.

Israel had been by Sinai about eleven months. (Ex. 19: 1), most uneventful months for Israel...

II. Moses' Invitation to Hobab, 29-32. As Israel started for "the promised land," Hobab started to go back to the land from which he came...

III. The journey to Paran, 33-36. The journey to Paran was a journey of faith...

IV. The journey to Paran, 37-40. The journey to Paran was a journey of faith...

V. The journey to Paran, 41-44. The journey to Paran was a journey of faith...

VI. The journey to Paran, 45-48. The journey to Paran was a journey of faith...

XXXII. The journey to Paran, 149-152. The journey to Paran was a journey of faith...

XXXIII. The journey to Paran, 153-156. The journey to Paran was a journey of faith...

XXXIV. The journey to Paran, 157-160. The journey to Paran was a journey of faith...

THE RESULTS OF FERTILIZER EXPERIMENTS

For ten years crop fertility experiments have been conducted at the Central Experimental Farm, Ottawa...

1. Where soil is relatively high in fertility commercial fertilizers may not produce profitable increases in crop yield...

2. Where manure is abundant its application to the soil is the most economical means of maintaining and building up soil fertility...

3. If manure is limited it may be supplemented with commercial fertilizers to excellent advantage...

4. Where no manure is available soil fertility may be maintained by the use of commercial fertilizers alone...

5. The shop owner or merchant who finds fault with the way the other fellow is doing business, quite frequently is the man who himself is constantly doing things opposite to what he is best for the community...

6. A community where merchants refuse to trade with one another is a weak spot. Yet there are places like this...

7. The money left at home would be utilized by home folks over and over again. Once it is transferred from the locality to a larger centre, it is lost to the pool, perhaps never to return...

8. A community where merchants refuse to trade with one another is a weak spot. Yet there are places like this...

9. The money left at home would be utilized by home folks over and over again. Once it is transferred from the locality to a larger centre, it is lost to the pool, perhaps never to return...

TO THE HEIGHT OF LAND AND BEYOND IN NORTHERN QUEBEC

Missionaries, explorers and traders journeying north from the St. Lawrence to Lake Mistassini and Hudson Bay...

A rail journey of 284 miles northward from Quebec, or a little over 300 miles from Montreal, takes the traveller to the starting point where the canoe is launched for a trip that leads over north to Lake Mistassini or if desired on to Hudson Bay...

Lakes, streams and but two short portages take one over the first ten miles of the trip north from the railway, then the Bureau Lakes, whose water level is maintained by the Gouin dam on the St. Maurice River, afford a connected chain of lake and waterways without portages for the next sixty miles...

Beyond this lakeland the route passes through a heavily wooded country where there are charming lakes that are not too large to cross in windy weather, and where all but the easiest rapids are passed by portage trails. Campsites are usually located at these portages owing to the heavy forest growth...

S'creams, ponds, portages and all the essentials of an enjoyable canoe trip are found in journeying north to the height-of-land across which a portage trail leads to Lake Obatagamau, with its multitude of islands, long crooked points and intricate bays. A few miles onward Lake Chicougamau is reached and beyond is Lake Makonichi, then a few short portages are made the canoe glides into Lake Mistassini...

TO CLEAN IT, OF COURSE

"Mummy, why does it rain?" "To make things grow. To give us apples, pears, corn, flowers."

"Then why does it rain on the pavement?"

TO CLEAN IT, OF COURSE

Proud to show visitors our spotless factories

YOU like to know that the foods you eat are made under sanitary conditions. That's why we are always delighted to have people see "where Kellogg's Corn Flakes are made."

We have thousands of visitors, every year, who take home with them a picture of sunlit kitchens, gleaming machinery, employees in fresh white uniforms... of cleanliness and care for quality. If you ever come to London, Ontario, we hope you'll stop and see us.

You'll know then why W. K. Kellogg makes this unconditional guarantee: "If you don't think Kellogg's the best and freshest corn flakes you ever tasted, return the empty red-and-green package and we will cheerfully refund your money
