Various Interesting Items of News

A Surprise Party
A surprise party, with an attendance of thirty or forty was held on Monday evening last at the home of Mr. and Mrs. Angus McDonald. During the evening cards were played and the Barre Players' Orchestra supplied the music for the dancing. This orchestra is comprised of Messrs. Jas. Davis, Earl Scott and Harry Smeihurst, and Andrew McDonald was floor manager. A bounteous lunch was served and an enjoyable evening spent.

Triple Motor Mix-up
A motor accident at Burlington Beach, involving three cars and resulting in injury to six persons, was investigated by Chief Lee Smith. Albert Lake, of Hamilton, and A. L. Watt, of Indian Point, will face charges of reckless driving, as a result, Lake's car got out of control, police say, skidded off the road and hit a tree. Six passengers received injuries, as follows: Ivy Langley, 19, bruises on arm and leg; Gladys Greenwell, 19, shock; L. Crampton, 19, hip bruises; J. Young, shoulder hurt; T. Ashthrope, scalp wound; Fred Ethen-den, bruised left leg. While the wrecking car was moving Lake's car, another car, said to be driven by A. L. Watt, hit the wrecker, sending it into a telephone pole. Watt's car shot off into the rear of a third, owned by Walter Voight, of Youngstown, Ohio. All three cars were badly damaged and police blame Watt for ignoring signals to slow down while the wrecker was moving Lake's car.

UNITED STATES OFF GOLD STANDARD
(Continued from Page One)
exchange. Later it would be re-valued on a basis in natural relation to other currencies.

The President's daring stroke brought quick approval from congressional leaders favoring inflation. Stocks and commodity prices rose sharply.

Senate administration leaders moved quickly to give Mr. Roosevelt his power to take what further steps he regards necessary to carry on his new battle to check the course of deflation in the United States.

They completed the draft of a sweeping bill giving President Roosevelt power to accept \$100,000,000 in silver from any foreign nation on payment on its debts. The silver would be accepted at a price not exceeding 50 cents an ounce.

The measure, which is to be presented as an amendment to the pending farm bill, also empowers the President to re-value the gold dollar on his own initiative or in agreement with foreign nations, and to issue greenbacks.

The President's bold course was revealed as an aftermath of the White House conference with Byrnes and Thomas.

It was the culmination of an inflationist drive in Congress which reached considerable proportions and then suddenly collapsed upon word from the White House that President Roosevelt was prepared to act in his own way.

BUSINESS
Two rival commercial travellers were journeying to the same village to solicit trade from its only merchant. The village was off the main line, being reached from a junction about a half mile distant. The only conveyance to the village for travellers' sample trunks was a hand propelled cart. On arrival at the junction one of the travellers hustled out and hired the cart ahead of his rival. Unable to obtain any other means of conveying his samples, the other traveller in desperation prevailed upon the local undertaker, who lived nearby, to convey his trunks to the village in a hearse. On the way they passed the push cart and its attendant. On arrival at the merchant's store the first traveller was surprised to meet his friend leaving the store with the information that the order had been secured.

"How did you get here ahead of me?" asked the disgruntled salesman.

"Oh!" said the other, "I passed you in a hearse on the road in. I was inside with my samples."

"You were, eh?" was the reply in a disgusted tone, "Well I'll be darned, and I lifted my hat, too!"

WHERE LOBSTERS COME FROM
Rapid growth of trade in live lobsters, or "lobsters shipped in shell," has been one of the prominent fisheries developments on Canada's Atlantic coast in comparatively recent seasons, and in the four-year period, 1929-1932, shipments averaged 128,350 hundredweights annually.

In 1932 the shipments from the four Atlantic provinces, which border the world's lobster-producing area, totalled 134,810 hundredweights.

Most of these live lobsters are sold in the United States market, although there is, of course, an important measure for domestic consumption.

The Province of Nova Scotia is much the largest exporter of live lobsters, and in 1932 its shipments were somewhat larger in the aggregate than in 1931, or 98,240 hundredweights as compared with 96,790. The Province of New Brunswick also does a large business, although its shipments in 1932 were only 32,400 hundredweights as against a slightly more than 39,000 in the preceding year. Quebec and Prince Edward Island ship on a smaller scale than the two provinces.

BARR'S

DEATH BRANDS 'BARGAIN' TIRES

Beware of the "bargain" tire. It is the costliest you can buy. It has been branded by death — "unsafe"! The "bargain" tire may look good. But when quality is lowered to reduce price — look out! Such tires are not built to stand modern driving strain. A blow-out or skid at high speed may bring injury, death — to yourself and others.

Goodyear knows what it costs to build a safe tire. Goodyear has all the facilities for maintaining quality and keeping price at the lowest possible level. Goodyear is giving you better tires today for less money than ever before.

Stick to tires that are backed by this good name. Buy Goodyear Tires. Don't buy little known makes at "bargain" prices. Spend a few cents more — for real value and service — above all, for safety. Don't gamble with death!

The Goodyear dealer is a good dealer — he will safeguard you and your family at surprisingly low cost.

GOODYEAR
MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

WHY GAMBLE WITH A SECOND-CHOICE TIRE WHEN GOODYEARS COST NO MORE?
