

**DIED**

**WATTS**—At her home, Sudbury, Ontario, Rachael Annie Graham, beloved wife of Robert Watts.

**KENNEY**—At the Guelph General Hospital, on Tuesday, April 25, 1933, Rachael Marion Douglas, beloved wife of Lloyd Kenney.

**SAYERS**—At the home, Church Street, Acton, Ontario, on Sunday, April 23, 1933, Morris Kennedy Sayers, beloved husband of Agnes McLeod, in his 78th year.

**ALLAN**—Suddenly, at the home, lot 20, 5th line, Ramona Township, on Saturday, April 22, 1933, Murray Alexander Allan, only son of James and Bella Allan, in his third year.

**This and that**

—Monday's the first of May.

—Quite a little snow flurry yesterday.

—The trout-fishing season opens on Monday.

—The trees are commencing to come out in bud.

—The crocuses are in bloom and brighten many a corner.

—The fall—wheat looks particularly green and healthy these days.

—The children are back to school again after the Easter vacation.

—There's the odd flake of snow drifting about in the air these days.

—The garden plots are being plowed or dug and made ready for planting.

—The rake, the shovel and the hoe are being worked long hours these days.

—The start of the race for the first potatoes from the garden has commenced.

—Who is He? What is His Weight? This week's picture is the last in the series.

—There is still the chilly day occasionally to remind us that summer is not at hand yet.

—Fatterson's Meat Market has a new delivery rig, neatly painted and of modern design.

—Several new awnings have been erected on the store fronts on Mill Street the past few weeks.

—The Auditors' Reports for Acton for 1932 will be ready for distribution by the Clerk the latter part of next week.

—Mr. Tony Seynuck has repainted his store and dwelling on Mill Street, next the Baptist Church, and made quite an improvement.

—It will require some guessing to get this week's character. He was just leaving J. K. Gardiner's camera, when the likeness was made.

—This is the last week of **THE FREE PRESS** local contest. Be sure to have your final coupon guesses registered before next Thursday.

—Mr. E. J. Hassard has erected a neat new electric sign in front of his store on Mill Street. It is of the neon-tube type, and very attractive.

—Results of the contest on local characters cannot be announced until May 11. Have you kept account of your guesses, to see how accurate you have been?

—One of the new water heating units being installed by the Hydro is on display at the local Hydro office. It is attractively lighted each night by colored lighting.

—Mr. C. McLaughlin brought a parsnip to **THE FREE PRESS** the other day. The vegetable was about eleven inches in length but it had a slender root of over a yard in length.

—The excavations for the foundations of a new house on Brock Avenue were commenced this week. J. B. Mackenzie & Son will erect a neat cottage on their lot on this street during this season.

—At the Stratford Musical Festival, last week, C. McArthur, of Rockwood, came second in Class 33, for junior baritone or bass under 21 years; and Peggy Mooreland, of Burlington, first for violin solo, under 17 years.

**SMILES**

A man from Manhattan was peering into the depths of the Grand Canyon.

"Do you know," said the guide, "that it took millions of years for this great abyss to be carved out."

The man from Manhattan was tremendously impressed. "You don't tell me," he commented. "Why, I didn't know it was a government job."

Don Bradman, the Australian cricket champion tells this one:

At a village match in England the local butcher was batting when a ball, bumped up and hit him on the head, from which the wicket-keeper made a catch.

"Out!" yelled the umpire.

"But it's off my head, not my bat," protested the player.

"I don't know where it is," replied the umpire, "but I know the sound of wood, so hoist you go."

A little girl was crossing the Atlantic with her mother. It was her first ocean voyage. The sea was as smooth as the proverbial mill pond for the first three days, then the ship began rolling and pitching heavily.

The child could not understand what had happened. "Mamma," she cried, "what's the matter? Are we on a detour?"

**COUNTY COUNCIL MAKES GRANTS OF \$75 TO THE FALL FAIRS**

(Continued from Page One)

that this Council give a grant of \$75 each to Acton, Georgetown and Milton by October 1.

The report of the Standing Committee was read and considered in Committee of the Whole. Mr. Cleave in the chair. The Good Roads Committee reported they had found it impossible to comply with the suggested half mill for road maintenance, but the estimates, as submitted, were six-tenths instead of half a mill, items as follows:

Brushing (already spent) .....	\$ 400.00
Ditching .....	1,500.00
Grading .....	500.00
Dredging .....	4,160.00
Culvert Repairing .....	700.00
Bridge Repairs .....	300.00
Resurfacing gravel and stone .....	15,438.00
Oil and Calcium .....	Nil
Snow Roads .....	700.00
Tarring and concrete repairs .....	1,150.00
Truck Maintenance .....	450.00
Miscellaneous .....	500.00
Robates to Towns .....	3,388.00
Office, including Engineer's salary .....	2,800.00
Interest and Committee Fees .....	2,000.00
Total .....	\$36,038.00

Last year's total was \$50,000.00.

It was requested that the engineer be asked to bring in an estimated cost of constructing 10 feet of concrete road, 8-10 of a mile, at Glenwilliams.

The Finance Committee recommended that the following accounts be passed:

County Buildings .....	\$ 65.74
Special Communications .....	1,289.54
Education .....	3,949.52
Printing .....	127.10
Finance .....	660.60
Old Age Pensions .....	1,092.77
Carried .....	\$7,175.37

By-law No. 655 was read a first and second time, the blanks filled in and passed by members of the Council, fixing the reduction in official salaries.

The salaries were as follows: Warden, \$300, per annum; Clerk, \$2,000.00; Jail Supt., \$100; the Mayor, \$200; Town Key, \$750; County Engineer, \$2,000; Car Allowance for engineer, \$500; Members of the Council, \$5 per day, 10c mileage one way; Caretaker of the County Buildings, \$200. By-law to be effective from and after April 1, 1933.

It was moved by Mr. Readhead, seconded by Mr. Harold Cleave, that Mr. George Currie, Esquire, be elected to the Good Roads Committee to fill the vacancy left by Mr. George Cleave.

Mr. Currie thanked the Council for his election, but asserted that personally he was still in favor of a three-man Good Roads Committee.

The meeting adjourned, to meet at the call of the Warden.

**THE WORLD EGG TRADE**

In 1900 fifteen countries participated in the egg import trade of Great Britain. By 1930 this number was increased to twenty-eight, says S. C. Barry, Department of Agriculture, Ottawa, Germany, the second largest importing country, drew her 1930 imports of 220 million dozen from thirty-one different countries. There are in the entire world approximately eighty-five countries and dependencies. Of these, sixty-two appear in the international egg trade figures of 1930. Of those that did not appear in trade figures all but three in South America and one in Central America were in Africa and Asia.

The most notable developments of the past decade have been the tendency on the part of Great Britain and Germany, the two largest importers, to produce more of their own requirements, and the trend towards greater production and exports in the Southern Hemisphere, principally to South Africa, Australia, and Argentina. These countries are favorably situated to export to the Northern Hemisphere by reason of the fact that their flush spring production comes during our winter months.

With increasing production and increasing export competition additional outlets are necessary in order to maintain a well-balanced international trade. As eggs are now being used in practically all civilized countries, the most practical way to broaden demand is by offering a dependable, graded product to consumers.

Within the past ten years legislation affecting the egg trade has been introduced by a number of the more important countries. For the most part this legislation has not been such as to identify quality to consumers and in this way increase consumption. It is contended that a broader application and appreciation of grading by all countries would be in the interests of the poultry industry and of the international egg trade.

**EXPORT OUTLOOK BRIGHTER**

"A revival of interest in good weights of good quality cattle for prospective export is probably the feature in a rather quiet market situation," states the Market Intelligence Service of the Dominion Live Stock Branch in a review of the cattle market situation.

"During the week ending January 12, 456 cattle were loaded on the S. S. Manchester Commerce for Birkenhead, England, and it is understood that regular weekly shipments are being arranged for, expansion in the numbers going forward being contingent upon the improvement in the relation between the home and export markets in the matter of returns. There appears now to be much more life to the market, despite its unsettled condition. Demand on shipping accounts is showing a little better tone and these things are having a stimulating effect on the situation generally."

**MOVE TO ADVANCE PRICES**

(Continued from Page One)

a new orientation. There should be a constructive effort to moderate the network of restrictions of all sorts by which commerce is at present hampered, such as excessive tariffs, quotas, exchange restrictions, etc.

"Central banks should, by concerted action, provide an adequate expansion of credit and every means should be used to get the credit thus created into circulation. Enterprise must be stimulated by creating conditions favorable to business recovery, and Governments can contribute by the development of appropriate programmes of capital expenditure.

"The ultimate re-establishment of equilibrium in the international exchange also should be contemplated. We must, when circumstances permit, re-establish an international monetary standard which will operate successfully without depressing prices and avoid the repetition of the mistakes which have produced such disastrous results in the past. In this connection the question of silver, which is of such importance in trade with the Orient, was discussed and proposals were tentatively suggested for the improvement of its status."

**APPLE ORCHARD FERTILIZERS**

Unlike field crops which have an annual habit of growth and must develop their root, stem, branch, and sometimes fruit all in a single season, the apple tree has a permanently established root system, trunk, and superstructure. Its widely ramifying roots penetrate to a considerable depth and are thus able to draw their supplies of plant food from an extensive soil area.

As the result of lengthy and extensive search, says Dr. Frank T. Shutt, Dominion Chemist, it has been found that fruit spur growth and fruit production are influenced in a marked degree by the supply of nitrogen available in the soil. The practice of applying nitrogen in the form of nitrate of soda at rates varying from 5 to 8 pounds per tree (200 to 300 pounds per acre) about three weeks before blossoming time is becoming general in the orchards of the Annapolis Valley in Nova Scotia.

However, the continued use of a nitrogenous fertilizer alone for the apple crop may result in too great a growth of wood and it would appear to be a safer plan to apply a complete fertilizer, supplying phosphoric acid and potash in addition to the nitrogen. If the trees are making fairly satisfactory growth, the following fertilizer mixture may be found to meet the needs of the crops: Nitrate of soda, 150 pounds per acre; superphosphate, 300 pounds per acre; muriate of potash, 500 pounds per acre. If the trees are not making a good growth, the above rate might be "doubled" for a time until a vigorous growth is obtained. When apple trees are grown in sod without any cultivation, double the amount of nitrogen advised above may be used to advantage.

**SOME TEMPERANCE JOYS**

(Selected)

When Moses destroyed the golden calf, business he did not stop to ask how much money there was invested in it.

Don't patronize "wet" papers. They did their best to bring this calamity upon Ontario, and may be depended on to help continue it.

Mr. Ferguson said he would "direct the flow of liquor." It will be some flow to bring in over 300 millions of dollars in five years, not including the receipts from the sale of permits. Blowing up the O. T. A. dam has been a dear job in more ways than one.

The method of our Government in promoting "true temperance" and "better moral conditions" reminds one of the plea of Rastus before the magistrate. "Look here, Rastus, if you were not going to steal hirkens what were you doing in that hen house?"

Rastus—"Judge, Ah was jest testin' mah will power."

"The ultimate goal is the Kingdom of Heaven on earth."—Stanley Baldwin.

**Entered into Rest**

(Continued from Page One)

funeral service was conducted by Rev. H. L. Bennie, of Knox Church, Acton. Interment was made in Erin Cemetery. The pallbearers were Messrs. Roy and Frank McIntosh, W. M. Cooper, W. A. Worden, B. Mullin and J. R. Anderson. Among the friends and relatives from a distance were Mr. and Mrs. Wm. Graham, Detroit, Mich.; Miss Bella Graham, Sudbury; Mr. and Mrs. R. McIntosh, Oshawa; Mrs. Jos. Graham, Mr. and Mrs. W. H. Graham, Toronto; Mr. and Mrs. Riley, Newmarket; Mr. Farries and family, Guelph.

**Announcement**

J. A. Willoughby, Realtor, Kent Bldg., Toronto, Mich.; Miss Bella Graham, Sudbury; Mr. and Mrs. R. McIntosh, Oshawa; Mrs. Jos. Graham, Mr. and Mrs. W. H. Graham, Toronto; Mr. and Mrs. Riley, Newmarket; Mr. Farries and family, Guelph.

**INFLUENCE**

It is a stern fact to realize that the well-being and happiness of every home is terribly dependent on each of its members. One false note destroys the chime. When the prodigal closes the home door behind him, he shakes the very roof tree. It is not his empty chair he leaves behind; he leaves also bowed heads, broken hearts and embittered lives.—E. Garrett.
