#### WHEN TO WATER A HORSE

The practice of inexperienced horsemen in watering their horses after feed is a dangerous one because the digestive fluids are interfered with and sickness is often the result. "Water before feeding (in a quantity depending on the warmth of the horse) and again before going to work, when only a moderate drink will suffice," is the dictum of the Horse Division, Dominion Department of Agriculture.

Either I will find a way, or I will make one.—Sir Philip Sidney.

### Letters to the Editor

The Free Press welcomes letters to its columns on matters of general interest to its readers, but does not necessarily endorse the opinion expressed. All letters must be signed, but may be published over the name of so desired and specified in the letter. Communications should not be over 500 words in length and must be received not later than Tuesday at noon to insure publication in that week's issue.

#### EUROPE'S HINT TO THE GRAPE INDUSTRY

A new lead in the development of temperance work and one which, in the interest of our grape growers, Ontario's Minister of Agriculture would do well to explore, was opened up in Paris during the third week of April. The occasion was the meeting of the First International Conference on the non-alcoholic use of fruits. The gathering lasted several days. Three hundred members were in attendance. Twenty-two governments were represented, as well as the International Labor Office and the International Agricultural Institute. The President of the Republic of France was Honorary-President of the gathering. The Minister of Agriculture, M. Quelelle, gave the opening address, and M. Benelion, Minister of Health, closed the conference with an impressive speech.

The new movement won this widespread recognition and active government co-operation, though promoted by temperance workers, because it suggests a promising remedy for the distress of the over-developed wine culture in which France is so deeply interested. It promises better health to humanity through improved alimentation due to more extensive use of fruit and fruit juices in diet, and it proposes a practical and constructive method for combating alcoholism.

The programme was varied and extensive. Four addresses dealt with the international wine crisis. A very valuable presentation on the hygienic and therapeutic value of fruits and fruit drinks was made by Prof. Labbe, of the Academy of Medicine. The economic possibilities of the movement were extensively explored. The technical problems of manufacture occupied a day's discussion with experts from Germany and from the Pasteur Institute participating. A day and a half was spent on methods of propaganda—reaching the press, using the schools, organizing grape days, etc. The value of fruit juices as a substitute for alcoholic drinks was prominently featured and reports from trial stations afforded encouragement, both as to popular appreciation and economic advantage. A splendid array of fruits from Europe, from America, from the Argentine and the Colonies, together with machinery and samples of the finished product, was on exhibition and attracted many visitors.

Instead of loading her wines with brandy, as she is now doing, to the detriment of her youth and the impairment of her health and national well-being, Canada might well take a lesson from this intelligent, constructive and forward-looking movement begotten of distressing European experience. She might at least devise some adequate method of distributing her limited fruit product and, if need be, of acquainting her people with its varied and healthful uses.

A. J. IRWIN,  
From the Office of the Ontario Prohibition Union, 1207 Bay Street, Toronto.

#### OAKVILLE

The garage on the Dundas highway, west of Sixteen, has been purchased by Roy Brundage, of Erin, and will be taken over at once.

The firemen had a run to the residence of Mrs. John Laing, on Sunday evening, and to Miss McDermott's on Monday forenoon. The fire in both cases was quickly extinguished with but light damage.

At a recent meeting of the Library Board it was decided to reduce the rate of the library tax to twenty-five per cent. in order to co-operate in the general effort to reduce expenditures and this year's tax rate.

Mr. and Mrs. Thomas C. Ingram announce the engagement of their only daughter, Beale Margaret, to Leonard F. Willis, eldest son of Mr. and Mrs. William Willis, of Oakville, the marriage to take place early in June.

Capt. and Mrs. Frank Pullen have returned from their pleasure and business trip to England and Sweden. Capt. Pullen speaks well of the improved condition of affairs in the Mother Country, where optimism is in the air everywhere.—Star.

#### PERFECTLY ALL RIGHT

"It ain't sanitary," protested the traveller, "to have your horse built over the hog pen that way."

"Well I dunno," replied the native. "We ain't lost a hog in fifteen years!"

### Various Interesting Items of News

**Roadster and Truck Collide**  
A motor mix-up occurred at the seventh line corner yesterday, when Fred V. Elliott, going east, and driving a roadster, ran into a Koch Transport truck from Waterloo. It is said that the transport was on the wrong side of the road when the accident occurred. The roadster was rather badly smashed up but none of the occupants were injured.

**Canadian Cattle Situation**  
Promise of better markets for practically all live stock, products and by-products, during the present year is indicated by the Annual Market Review, just issued by the Department of Agriculture. The British Isles now offer a definite market for Canadian bacon and have removed restrictions which hampered the sale of Canadian cattle in England and Scotland. The recent improvement in British exchange has been beneficial to Canadian producers, and during the first quarter of 1933 exports of both cattle and bacon have exceeded those of the same period a year ago. The practice adopted by the Canadian government of branding superior beef with red and blue brands which may be identified by the consumer has had a notable effect in improving the home market for better quality animals. In 1932 the consumption of branded beef rose to 21,748,768 pounds compared with 17,249,748 the previous year. Although the provinces of Alberta and Saskatchewan are usually associated with the chief cattle-raising areas of Canada, statistics disclose that marketings of cattle in Ontario exceed those of any other province by a large margin.

**Canadian Manufacturing Industries**  
The gross value of products manufactured in Canada in 1931 was \$2,698,461,852, according to a report just issued by the Canadian Government Bureau of Statistics. In the year under review there were 24,500 manufacturing establishments in the Dominion of which 10,140 were located in Ontario; 7,505 in Quebec; 1,636 in British Columbia and Yukon; 1,449 in Nova Scotia; 955 in Manitoba; 886 in Alberta; 872 in New Brunswick; 768 in Saskatchewan and 290 in Prince Edward Island. These plants represented a capital investment of \$4,961,312,408 in fixed and working capital and furnished employment to 557,426 persons. The manufacturing industries of Canada are concentrated largely in the Province of Ontario and Quebec, although the western provinces are beginning to assume increasing importance. Ontario is the dominant manufacturing province in Canada. In 1931, with 41.4 per cent. of the total number of establishments, it employed 46.1 per cent. of the capital, 48.4 per cent. of the number of employees and produced 48.6 per cent. of the entire output. The pulp and paper industry exceeded all others in the gross value of production with an aggregate value of products placed at \$215,674,246. The other nine leading industries in order of their importance were: central electric stations; slaughtering and meat packing; non-ferrous metal smelting; flour and feed mills; butter and cheese; electric apparatus and supplies; petroleum products; tobacco, cigars and cigarettes, and railway rolling stock.

**Legion Parade at Streetsville**  
Zone 13, of the Canadian Legion, comprising posts from Streetsville, Brampton, Georgetown, Acton, Milton, Long Branch, Port Credit, Burlington and Oakville, paraded 500 strong to the United Church at Streetsville on Sunday. Hon. T. L. Kennedy, Minister of Agriculture, reviewed the veterans at Peel-Park, where the parade was formed, accompanied by Capt. W. C. C. Innes, Port Credit, former Commander of the Zone. After a march through the village, led by the Lorne Rifles Regimental Band, under A. H. Perrott, the Legionnaires formed a hollow square about the cenotaph, where a speech was placed by Dr. H. R. Adams, Long Branch, Zone Commander. Rev. Capt. Frank Vipond, Toronto, formerly of Streetsville, conducted a brief prayer service, and the Last Post and Reveille were blown by Harry Mitchell, Port Credit, bugler, who sounded the "Cease Fire" when the Armistice was signed. At the United Church, Rev. A. E. Baker, New Toronto, was the speaker, visualizing a new order to spring from the trials of those who passed through the depression. He protested the fact that so many men who gave of their best in defence of the Empire were walking the streets to-day in the ranks of the unemployed. He urged the men to be as strenuously against things detrimental to human brotherhood as they had been against the Germans. Assisting in the service were Rev. Mr. Vipond, Toronto; Rev. R. J. W. Perry, Rev. G. H. Purchase, pastor of the United Church; Rev. R. K. Cameron, Streetsville, and Rev. H. A. Spencer, Clarkson. The committee in charge of arrangements for the parade, under the Streetsville Great War Veterans' Club, were: C. F. McArthur, W. Davis, W. Arch, Leonard Pope, F. J. Elderfield, Dr. D. V. Reed.

**Canadian Cattle Situation**  
The regular meeting of the Club was held on Tuesday evening, and a first turn-out was on hand. The meeting opened with all the boys taking part in a short run. Much business was then discussed. A vote of thanks was extended to the general public for turning out and encouraging the Club by their presence at the euche and dance, which was a success financially and socially. The programme for the future months was outlined to the boys, and good times were in store for all. During the course of the evening congratulations were extended to the two successful members of the Club, in the local contest, H. Norton winning the Gold Seal Congolein Rug, and G. Ramsden, The Free Press Sketch Contest. They also congratulated Mrs. Fields, winner of the "Lucky Draw," No. 78, at the euche and dance. Every member of the Club is asked to be on hand Thursday evening (to-night) at the Park, with equipment for running.

**Oakville School Salaries**  
All teachers in Oakville Public and High Schools will suffer reductions in salary next year, it was decided at a special meeting of the Board of Education, held Monday night, with Rev. Canon D. Russell Smith in the chair. The teachers volunteered a reduction of ten per cent. in their salaries last February, and the reductions decided on by the Board will include the voluntary reduction. All High School teachers will be re-engaged next year at a reduction in salary of fifteen per cent., which is in effect the voluntary reduction; plus an additional five per cent. In the Public Schools all teachers receiving in excess of one thousand will suffer a similar cut, while those drawing less than that will not be asked to accept any further cut beyond the voluntary one already made. The High School caretaker will receive twenty per cent. less next year, it was decided, while the various caretakers in the Public Schools will have their salaries reduced by fifteen per cent. As a further economy measure, all School and High School telephones will be discontinued at the end of the year.

**Nurses' Graduation at Guelph**

### News of Acton and the District

**In Halton-Wentworth League**  
The opening games in the Halton-Wentworth Baseball League, were played on Saturday and resulted in Kilbride winning from Palermo by 7-5; Oriskany beat Flamboro Centre, 10-3; and Bronte trimmed Campbellville by a score of 9-6. Games are played each week throughout the season in this League.

**Sold Export Cattle**  
The Rimber, Albert Record last week told of the purchase of 20 head of well bred Shorthorn cattle from Mr. F. W. Plank, for shipment to Glasgow, Scotland. These cattle were considered to be the best purchased by the drovers of that section this year. Many friends here will remember Mr. Plank, who was born and learned his first farming in this district.

**Eddie Cantor Picture Coming to Gregory Theatre**  
"The Kid from Spain," Eddie Cantor's third and best starring vehicle for Samuel Goldwyn, comes to the Gregory Theatre on Monday night, and presents the pop-eyed comedian in what he sincerely believes is his greatest offering to the cause of amusement. This picture continues Cantor's plans with Goldwyn of one film a year. Last year there was "Fanny Days" and the season before, "Whoopie!" but, successful as those were, Eddie believes he has more than topped them with "The Kid from Spain." In other words, this is Eddie's annual screen song-and-dance comedy. It is the story of a button-eyed lad, who, getting kicked out of school with his roommate for suspicious goings-on in a girls' dormitory, gets involved in a bank robbery and escapes to Mexico, disguised as a prominent bullfighter, there accepting the acclaim due to the man he is impersonating until forced to go into a real bullfight.

**\$20 Monthly Buys A Home**  
In Four Years and Eleven Months  
WITH CASH PAYMENT OF \$250

It's just as easy to collect a deed for a fine New Home as it is to collect rental receipts, by our plan. The foundation for this New Home has been erected on Brock Avenue, Acton. You make the selection of the home to go on this foundation—a Five Roomed House, complete with water and modern electric wiring. You pay a cash payment of \$250 and \$20.00 per month, and in four years and eleven months the Home is YOURS. Instead of a bunch of rent receipts you own Your Own Home.

A Bathroom may be added to these plans at slight additional cost. If you want to cease collecting rent receipts and have your Own Home, see us now, while building costs are low. We will gladly explain how this plan quickly secures your home. A new building has no immediate repair maintenance.
