ACTON BUSINESS MEN DO BUSINESS IN THE OPEN

Every Business Man in Acton knows that he must face the music if the goods he sells you, or the work he does for you, is not right. He knows he has no back door through which to vanish, neither can he hide behind a battery of unqualified clerks. He personally meets his patrons face to face and any displeasure will be quickly rectified by him.

His business is not done over long distances. He is a member of the community which he serves. No high pressure methods are used to secure your business. He prepares to meet your present requirements with the object of securing your permanent good will. Furthermore, on this page you will find a list of men who are specialists in their own lines, and whether you want a spool of thread or a car fender repaired you can do just as well in all cases and better in many in Acton.

If your Acton Merchant has not in stock the particular article you desire, he will gladly get it for you. The old stock excuse that local merchants do not carry certain goods, can not be made to apply to Acton.

Residents of Acton should make every conceivable effort to buy when and where possible in Acton. If this plan were carried out, both customer and merchant would benefit. The customer would benefit because he would have secured a quality article at a price just as low as he would have paid out of town. Your merchant would have made a reasonable profit.

Acton as a whole would benefit because more money would be in circulation as a result.

The success or failure of any community rests with its citizens. The buying public can create and maintain prosperity if they will keep their money in circulation in their own community. It is a fact that money spent outside Acton helps to build up some other district and the converse is also true that Dollars Spent in Acton Will Build Up Acton.
