

FACE BOOK

Deaths of Births, Marriages and Deaths are listed in this column without charge.

SOBERVILLE—At Acton, on Wednesday, October 19, 1933, to Mrs. and Mr. George R. Somerville, a daughter.

COOPER—Suddenly, at Kitchener, on Wednesday, October 18, 1933, Mary, last surviving daughter of the late Alan Cooper, of Glen Williams.

This and that

—Values worth talking about are told about in the ads.

—Oakville this year reports an increase in population of 44.

—The frosts have been quite heavy on several nights lately.

—The first snow falls of the year in this district came this week.

—Soon be time to replace the screen doors with the winter outfits.

—The coal and wood supplies for the winter are being gathered now.

—Farmers still report that the soil is not moist enough for ploughing yet.

—The bon-fires of fallen leaves are giving the kiddies some real fun these days.

—Seems as if there have been plenty of showers but not sufficient rain in any of them.

—J. B. Mackenzie & Son are continuing building operation on the house on Brock Avenue.

—The buyer's market is now. More than ever it pays to scrutinize the advertised offerings.

—Quite a number of local ball fans attended the Southampton-Pictou game in Guelph yesterday.

—"Delighted" is what everyone says when they view THE PRIZE GREETING CARD line this year.

—Mr. H. N. Farmer's new building is nearing completion and will be ready for occupancy in a few weeks.

—Acton merchants offer real shopping attractions. They tell about their offerings through advertising.

—The annual Halloween Frolic will be held in Acton on Tuesday, October 31. Watch for the list of events.

—A real Halloween party, with treats, fun and contests, is planned for Acton by the Business Men's Association.

—Oakville Council has decided not to give relief to applicants who have not resided in the town for a year previously.

—A good deal of fun is being had with the boys' rugby games. Some sore joints are also being massaged back to normal.

—Fergus population decreased by 40 last year. There were 41 births and 10 deaths in the municipality during the year.

—Southampton rather walked away with the final game in the Intermediate Baseball Championship yesterday afternoon in Guelph. The score was 8-2.

—An American car left the highway on Tuesday night, just east of Acton. When it struck the ditch it turned turtle and was badly smashed. The occupant escaped with an injured knee.

—Many citizens here enjoyed thoroughly the numbers by Miss Ruth Gibson on Monday evening, broadcast from Station CKOC, in Hamilton. Miss Gibson's voice adapted itself well to the radio.

—J. Nicol & Son, the monument dealers of Acton, won the special first prize for a manufacturer's exhibit at the Fair. They had a neat and attractive showing of their various products.

—The "Royal Scot" crack British train, will be in Kitchener on November 8, and it is quite likely will pass through here on the C. N. R. on its return eastward. It will be in Kitchener from 2.30 until 3.30 p. m.

—Among the prizes offered to school children for essays, written on the significance of the poppy and Remembrance Day, the name of J. P. Sarnow is donating a prize was inadvertently omitted from the Legion report last week.

—Brampton Man Dies After Long Journey William Hutchinson, Brampton, died at the home of his brother, Dr. F. S. Hutchinson, on Saturday, just as he completed a train journey from Winnipeg. William Hutchinson, who was in his 59th year, became seriously ill as the train neared Toronto. He went to Brampton immediately and died at the home of his brother. He was born near Alton, Peel County, son of the late William Hutchinson, and spent the greater part of his life in and about Brampton. He was a member of the Baptist Church, and a Liberal. Surviving are two brothers, Dr. Hutchinson, Brampton; and George, of Cheltenham; and three sisters, Mrs. R. Murray, London, Man.; Miss Hattie, of Toronto; and Mrs. Charles Wilkinson, Brampton.

—A NEW GAS DISCOVERED new gas discovered in the Rhu-Ma-Ma area, near Hamilton. Try Rhu-Ma-Ma Gas, Drugist.

Entered Into Rest

WILLIAM BUSBY, Oakville

William Busby, member of Oakville Board of Education for more than 40 years, and prominent jeweller, there, died suddenly on Monday, in his 82nd year. Two years ago he completed a quarter of a century as Chairman of the Board. He was born at Ashley, Northampton, England, and came to Oakville with his parents when he was 15 years of age. He was a member of Oakville Citizens' Band half a century ago and was an Elder in St. John's United Church. He was also a member of the I. O. F. Mr. Busby is survived by his widow, a son, Allen; two daughters, Irene and Mary, at home; three sisters, Mrs. A. J. Conder, Oakville; Mrs. Hillmer, Southampton, Ontario; Mrs. Mitchell, Toronto; two brothers, John Toronto; and Fred, Nanaimo, B. C.

HENRY DAVENPORT, Niasagawya

Death came suddenly to one of Niasagawya's best known and most highly respected citizens in the person of Henry Davenport, who passed away very suddenly at his home on Thursday. He had not been ill prior to his death and his passing came as a great shock to his family and to his many friends throughout this entire district. A native of Lancashire, England, the late Mr. Davenport was in his seventy-sixth year. He had been a resident of Niasagawya Township for the past fifty-two years, most of which he spent as a farmer. He was well-known all over the district. Just three years ago, with his wife, he celebrated their golden wedding anniversary. Surviving are his wife, formerly Miss Spauld Louise Martin; four sons, J. H., of Guelph; Fred, of Windsor; Edwin C., at home; and Lawrence, of Owen Sound; and four daughters, Mrs. Chas. Hardy, of Port Huron, Mich.; Mrs. B. Ripley, of Toronto; Mrs. R. M. Finley, of Guelph; and Mrs. L. McMillan, of Niasagawya. The funeral took place on Sunday afternoon, with a private service at the residence at six-forty-five o'clock, followed by a public service at St. John's Church, Niasagawya, at two-thirty o'clock. Interment took place at St. John's Church Cemetery.

ROBERT P. SHANKS, Rivers, Man.

A large crowd of friends and relatives attended the funeral of the late Robert P. Shanks, who died Friday, September 29, at his son's farm, near Rivers, at the age of 85 years. Burial took place at Upland Cemetery, Dr. Scott, Oak River, conducting the services. The late Mr. Shanks was born at Pollockshaw, near Glasgow, Scotland, on September 5, 1848. He worked in the flax mill owned by his father until he lost his arm in an accident when a lad of 16. He came to Canada in 1857, and lived in the vicinity of Acton, Ontario. He attended the Academy at Georgetown, where he got his teacher's certificate. He married Maria Rutledge in 1859. Taught in Ontario until 1887. He came West in the spring of 1888. Of four children, three girls and one boy, three girls predeceased him. His wife, who died in 1929, is buried at Upland, with his youngest daughter, Mrs. Henderson. Mr. Shanks also taught at Little Saskatchewan, Wheatland, and Upland schools, and was superannuated in 1903. His son, J. R. W. Shanks, farms about five miles from Rivers. The pallbearers were: Thomas Shanks, Pettapiece; Albert Shanks, Lothair; Ivan Shanks, Lothair; Alvin Shanks, Rivers; Mervyn Henderson, Rivers; and Floyd Spinks—Winnipeg Free Press.

NOW STERILIZE NARCISUS BULBS

A recent discovery by scientists at the Canadian Government laboratory of plant pathology here will prove of great interest to horticulturists. They have found that narcissus bulbs can be sterilized effectively against their most destructive parasites, the bulb nematode and the larvae of the bulb fly. Up to the present, ordinary immersion treatments experimented with by pathologists, the world over have had little effect, owing to the failure of the disinfectant to reach the deeply penetrated parts of the bulbs invaded by the parasites. This problem has now been solved. An investigation of the deadly properties of solutions against nematodes and their influence upon bulb growth led to the selection of a silver nitrate solution as a promising disinfectant, but, owing to the instability of silver nitrate in the presence of chlorides and other substances in tap water and in the dirt clinging to bulbs, its use had no commercial possibilities. However, when silver salt was combined with potassium cyanide, in the ratio of one to three by weight, an effective solution of satisfactory stability was obtained. Percolated into the narcissus bulbs by an emulsification process, the solution destroyed the bulb nematodes and bulb fly larvae without significant injury to bulb growth under greenhouse conditions, and with no evidence of injury in the field tests to the foliage or bloom. The discovery is of great value to commercial growers everywhere.

In recent years great progress has been made in the growing of flowering Fraser Valley district of British Columbia; so much so that considerable quantities are annually being exported. The bulbs grown in British Columbia are equal to the best imported from other countries.

Happiness is increased, not by the enlargement of the possessions, but of the heart; and days lengthened, not by the crowding of emotions, but the economy of them.—John Ruskin.

EIGHT SUGAR REFINERIES

Sugar refining is a considerable industry in Canada. Eight refineries operate in the Dominion, one at Dartmouth, Nova Scotia; one at Saint John, New Brunswick; two at Montreal; one at Chatham and one at Wallaceburg, Ontario; one at Raymond, Alberta, and one at Vancouver, British Columbia. The value of production from these eight refineries in 1932 was \$41,022,589. Practically all the output finds a ready market in Canada. Last year the exports of sugar from the Dominion amounted to 9,483,000 pounds valued at \$428,337. A large part of the sugar produced in Canada is made from beets, the factories in Ontario and Alberta depend wholly on locally grown crops.

FAITHFUL UNTO DEATH

Some of duty and a great courage inspired William Thirwell Routledge, to stick to his job even unto death while he was making a tour of inspection for the Auckland, New Zealand, Acclimatization Society. His spine was broken when his car skidded and turned over. Routledge was paralyzed, but he resolved to carry on in spite of his terrible injuries. He said that he had reports to make to the society and that they were not written. Fearing he could not live many minutes, he insisted on dictating them, and not until this task was completed would he allow people to lift him on to a stretcher. He died in a hospital.

FASTURE AND HAY GRASSES

Such grasses as red top, which have a creeping root system and grow from early spring to late fall, if the weather is favorable, are especially fitted for pasture, as they stand tramping and provide green food the whole season. On the other hand, they are not good for hay, as most of the leaves are rather close to the ground. Timothy and similar grasses are less adapted for pasturing, as their bunchy growth and shallow root system make them liable to be uprooted, or at least injured by tramping. But of this type of grass furnishes excellent hay. To obtain a heavy yield it is not sufficient to choose grasses which are heavy producers when grown alone. They must be adapted to the soil and climate and be able to thrive together and make the best possible use of every inch of ground.

REALLY THOUGHTFUL

Gunn, the big-game hunter, was telling his stay-at-home wife, all about his encounter with the Bengal tiger, and how he had finally shot it. "Yes," he wound up, "it was a case of the tiger or myself." She looked up at him proudly. "I am so glad it was the tiger," she sweetly replied, "otherwise we wouldn't have had this lovely rug."

The heavy demand of Japan and Italy was the outstanding feature in the world's consumption of wool in 1932.
