EDEN MILLS

On Friday night a well attended meeting was held in the Town Hall. Captain Philpott addressed the audience in the interests of the C. C. F. Many points, of his address were favorably received. On Sunday Anniversary Services were

held in the United Church, which was filled to capacity both morning and week-end with her mother, Mrs. S. Mc- evening. Rev. Mr. Ireland, of Calstorville, took charge of the services, preach-Several from here attended the funeral ing thoughtful and inspiring sermons. The choir was well sustained, rendering ably assisted by Mr. Price and Mrs. Ireland, of Caistorville, who also sang on Sunday, to start work again with the a duett. At the evening service the choir were requested to again sing one Mr. and Mrs. Leslie Webb and family of the anthems of the morning service, spent Sunday with the latter's mother which was worthy of repetition. Also Miss Sharpe, of Caistorville, and Mrs. is an able singer. The services throughout were attended with much interest

> On Monday evening the ladies of the congregation held an oyster supper in the Town Hall, which was well attended. No effort was spared in making this a memorable event. The tables were laden with delicacies in abundance. followed the play, "Wild Flower of the Hills," a southern story, well presented Church. The attention and order was

commendable. Rev. and Mrs. Ireland were guests of Mr. and Mrs. T. H. Webb. Many friends of Mrs. J. Wright. St. will regret to learn that she was taken to Guelph General Hospital, where the cast was removed, her thigh again set

and a new cast put on. She is resting more comfortably. Mrs. N. S. Marshall motored to Milton on Tuesday to attend a reception held by her sister, Mrs. Nelson Pickett.

BRITAIN 10,000 YEARS AGO

The fact that our ancestors of about

10.000 years ago kept pet dogs was revealed when Mr. Alexander Keiller described to the International Congress of Prehistoric Sciences, recently held in London, the results of his excavations on Windmill Hills, near Avebury, Wiltshire. The people of those days had sheep, goats, pigs, and oxen in enormous quan-The oxen were exceptionally numerous, he said, all of one breed, and of a type small in stature, but with long horns. Some curious combs made of red deer antiers were found. They were used apparently for combing coarse hair skins. Similar combs are in use today among the Eskimos. Pins and awis of bone were in profusion, and there was also an exceptionally fine burnisher, only the second of its kind ever found in

contests, etc. Fourteen years ago, Mr. A. M. Chaloner, Brant Street, lost a gold watch on a farm at Gilbert Plains, Man. The watch had been presented to him on the occasion of his marriage, and he prized the time-piece very highly. On Saturday night he received the watch from his brother, who stated that while men were engaged picking up stones on the farm it had been found. The watch was in good condition, and when he received it he wound it up, and it is in good running order.—Gazette.

From the standpoint of actual quantity of forage crop seeds brought into Mrs. R. B. Erwin, Miss Marjorie Erwin, Canada, timothy stands at the top, although this is one crop that can be produced especially well within the Do-Holmes, of Bobcaygeon, were visitors at minion, and has shown itself well adapted to parts of Alberta, Mr. G. M. Stewart, Miss Muir, who has spent the summer Dominion Seed Branch, points out in "Scientific Agriculture." During the years 1925 to 1931, Canada imported an average quantity of timothy seed in excess of 7,000,000 lbs. This influx of timothy has been reasonably constant and has shown no tendency to decrease during the period. In fact, the contrary appears to be the case, for over 8,000,000_ ths. were imported in 1930 and 9,000,000 in 1931: Over 10,000,000 lbs. of this seed are used annually in Canada. Recent tariff arrangement by which a duty of cents per pound was put on timothy seed imports into Canada have stimulated the Canadian timothy seed-growing industry and will be of great benefit.

Second to timothy in quantity imported is red clover seed. The average amount brought in during the last seven years has been 1,600,000 lbs. In 1927 the amount imported was over 3,000,000 lbs. and in 1930 well over 2,000,000 lbs. The consumption of this seed is heavy in Canada although it is not much used on the prairies. In 1929 Canada used over 5,000,000, Ths. and in 1930 just under 4.000,000 Tbs. It is pleasing to note, however, that during 1931, this crop did particularly well within Canada and a quantity was exported to the British Isles, I BE WELLE BE WELLE BY where it has met with recognition as very desirable seed, and the foundation has thus been laid for further export

Canada is self-supporting in so far as alfalfa is concerned, although nearly 5.000,000 lbs. were imported in 1929. while 200,000 lbs. were exported in 1930. During past years, however, considerable alfalfa has been exported in excess of mports: The apparent consumption in Canada was slightly over 1.000.000 lbs. in 1929 and 4,250,000 in 1930. No other seeds are imported in quantity.

YOUR TEN SENSES

and we have heard of a sixth, proverbially counted as missing.

Every normal person claims five senses,

Of the five senses-hearing, smell, sight, taste and touch—sight is a triple sense. It includes perception of light, form and color. Touch also includes several varieties, shape, tickle sense, sense of vibration and sense of pressure. Taste, smell and hearing are simple. incomplicated senses.

Of the five other senses listed, one is a temperature sense, which enables you o tell hot from cold by means of nerve endings in the skin. There is the sensation from muscles, joints and tendons which enables you to sense movements of the body, or position of the arms and

The third is a sense of upright position, supplied by a levelling mechanism close to the inner ear. This enables you to keep your balance.

Pain is a sense by itself; and the last of the five "new" senses is one not perceived consciously, but which affects such automatic actions as breathing or the heart-beat.
