

At her late residence, Eden Hill, Ontario, on Saturday, August 7th, 1897, Elizabeth Ann Wilson, widow of the late George Benk Mitchell, in her 74th year.

At her late residence, Eden Hill, Ontario, on Saturday, August 7th, 1897, Elizabeth Ann Wilson, widow of the late George Benk Mitchell, in her 74th year.

IN MEMORIAM
In loving memory of our dear son and dear brother, Allan Alexander McLean, who passed away August 13th, 1897.

LOCALS

The rains of the week will be very beneficial for the root crops.
Public toilets at the Y. M. C. A. have been repainted and put into neat condition again.

Mr. Allan Smith, Lake Avenue, has a giant Scotch thistle on his premises, that measures 7 feet 8 inches in height, over eight feet across, and at one time had 316 buds and blooms.

Beneath the roof of the combined Coliseum, Horse Palace and Live Stock Pavilion at the Canadian National Exhibition is a floor space area of slightly more than twenty-four and a half acres.

On Saturday evening, about seven o'clock, a car from Illinois, ran off the shoulder of the highway, just east of the sixth line, Quebec. No damage was done and the car was soon back on the road.

The cost of staging the Canadian National Exhibition is one million dollars each year. The exhibitors expend huge sums which, together with the amount disbursed by the Exhibition, make a staggering total.

HAVE YOU EVER SAVED A LIFE?

Years of training and years of experience lie behind the deft strokes of the great surgeon's knife, as he performs a delicate operation. Life and death are in the balance. Loved ones tremble in apprehension. Finally, after anxious hours—success! The supreme ability of one man in a million has saved another life.

Most of us can never save a life that way. The surgeon's skill is not ours. But by preventing accidents on streets and highways, every one of us, whether we are drivers or pedestrians, can just as surely save lives and safeguard our fellow men against crippling or fatal injuries. We can teach our children the enduring principles of safe driving and safe walking—of safe living. We can correct the unsafe practices of our own driving and walking. We can uphold the authority of our public officials in impartial and effective law enforcement. We can help in organized efforts to spread the gospel of traffic safety to everybody. And most of all, we can resolve in our own minds to perform no act dangerous to others or ourselves.

Great skill and long training are not needed for this kind of life saving. What we do need—all of us—is a new realization that "I AM my brother's keeper." Will you accept your personal share of this great responsibility? Will you help to stem the tide of blood and death that promises to sweep Ontario's streets and highways?

PROSPERITY NOT WANTED
Why won't you advertise? The representative of a newspaper asked the proprietor of a small store.

Cutting the Corners
By Foul Tip
Two smart twin-killings were pulled by both squads in Saturday's tilt.

The longest hit of the day went to Mooney, when he spaced out a ringing triple in the third.

Bus Morton made a nice catch of Ward's line-drive in the sixth; and looked good on McMann's foul hit in the seventh.

Waterhouse pulled another sensational running catch on Hoare's drive in the seventh.

Harry Woods, smart Georgetown second-sacker, who broke his ankle some weeks back, was again in the line-up.

Extra base hits went to Mooney, with a three bagger, Lindsay, Guthrie and Chaplin, doubles.

Hitters for Acton were: Bus Morton, 2; Norm Morton, 3; Walters, 2; Guthrie, 2; Mooney, 3; and Lindsay, Waterhouse and Anderson, one apiece.

For Georgetown, Andy Ritchie gathered three; and Walters, Ward, Chaplin and McMann, one.

Beaumont's big bat was missed by Georgetown.

Guthrie stole third in the eighth. This boy is playing great ball.

"Minute" Walters covered first with plenty of confidence.

Terry was on his holidays, so Guthrie patrolled left field.

Burlington pulled a surprise by setting Milton down, 5 to 1.

"Pat" Walters twirled nice ball up until the fifth. He used his head effectively in the third to nip a threatening rally.

Well, the boys turned back their old rivals and will now meet Burlington in the finals.

Burlington, after losing all League games to Milton, came through with their second straight over Milton, last night, by a 4 to 3 score.

The Lakesiders field a smart team and should prove a big drawing card.

The locals are trying to arrange for the first game to be played here on Saturday, so look for an announcement elsewhere in this edition.

It is something new for Milton not to be represented in the Q.B.A.A. play-downs.

Tough luck neighbors.

We call Acton to win the group with two straight. Come out and do some cheering.

The locals are confident and rarin' to go.

Bobby Anderson made some great pegs to second last evening.

Lindsay made a beautiful pick-up in the second to retire Lindsay.

Bus Morton and Lindsay caught Alcott napping in the first and pilfered third.

That was a nice peg to the plate by Morton in the third. His throw to first in the fourth had plenty behind it, too.

Terry pulled a couple of nice catches. He gathered in A. Ritchie's hot in the fifth, and made a beautiful shoestring catch to retire Bill Ritchie in the eighth.

This boy Gordon is developing into a nice pitcher.

Bill Waterhouse stole third in the fifth.

Bryden, Georgetown left fielder made a nice throw to the plate in the sixth, but was a little late to get the runner.

A. Ritchie made a smart play in the seventh on a hot ground ball.

Earth flew in all directions as the crimson-faced would-be golfer attempted to strike the ball.

"My word," he blurted out to his caddy, "the worms will think there is an earthquake."

"I don't know," replied the caddy, "the worms round here are crafty. I'll bet most of them are hiding underneath the ball for safety."

My first is in marriage, my second in wood; My third is in hills, and the sentence reads; My fourth is in nation, but never in realm; My fifth is in rudder, yet not found in helm.

My sixth may be seen in one or in two, And my seventh not in rod, but always in blue; My eighth is never in thought, but in mind, And my ninth is always in front and behind.

My tenth not in parents, you'll find it in bees, My eleventh not in folds, but always in gleats; My twelfth and my thirteenth are in all the clouds.

My fourteenth in cloak, but not in a shroud, My next you will see in the clear running creek, My next not in hunt, but always in sack; My last not in lug, but in each care, My whole can be read each week in the "Press".

The name of a person, who tells of thy glory And trials of her toiling, she writes a good story.

GARDEN SLUGS CAN CREATE MUCH DAMAGE
Garden slugs are always most abundant in wet seasons or in moist situations. They emerge at night, hiding during the day beneath the soil, and they feed chiefly on the under-surfaces of the leaves of beans, lettuce, cabbage, cauliflower and such like plants.

In the Prairie Provinces, slugs are controlled by the use of the regular cutworm bait, made in the proportion of 25 pounds of bran, 1/2 pound of Paris green, 1 quart of molasses and about 2 1/2 gallons of water.

Another method recommended is to spray the plants with Bordeaux mixture. In the Prairie Provinces, slugs are controlled by the use of the regular cutworm bait, made in the proportion of 25 pounds of bran, 1/2 pound of Paris green, 1 quart of molasses and about 2 1/2 gallons of water.

In British Columbia, the plants are dusted with dehydrated copper sulphate and hydrated lime in proportion of 1 part of the former to 10 parts of the latter. This dust must be applied after dark, using it in the case of market gardens at the rate of 50 pounds per acre, or 10 pounds per 2,500 lineal feet of row. The use of salt and lime (1-10) dusted over the soil beneath the plants and along borders is also recommended.

TESTS FOR TRAM CONDUCTORS
A stiff test awaits those who wish to become tram conductors in Sydney, Australia. They have to "get by" a psychologist. The authorities have decreed that the extra men who will be required during the holiday season must possess qualities above the average.

NOISY MACHINE
A Scotsman who was playing his bagpipes in a city street, was summoned to appear at an English police court on a charge of breach of the peace.
