Miss Grace Lamb has returned from visiting in Detroit. Mr. George Murray was home from Toronto over the holiday. Mr. Otto Clark, of Hamilton, called on Acton friends one day last week. Mrs. R. E. McKinney, Toronto, spent a day with Mrs. Geo. Murray during the week. Miss Beth Harrison, of Toronto, visited last week with Mrs. D. C. Russell and Miss Jessie Russell. Misses Ruth and Marjorie Gibson are visiting with relatives in Hamilton and Grimsby this week. Miss Corinne MacDonald, of Hamilton, visited at the home of Mr. and Mrs. E. H. Vincent on New Year's Day. Mr. and Mrs. Harold Wambrough and Bobbie, of Toronto, spent New Year's with his mother, Mrs. R. H. Wambrough. Little Miss Mary Jane Williams, of Brantford, spent Christmas holidays at the home of Mr. and Mrs. L. O. Johnson. Mrs. F. B. Silwood, of Calgary, and Mr. Charles Selwood, of Ottawa, spent New Year's in Guelph, with Mr. and Mrs. H. S. Nicklin. Mr. G. A. Dills was in Atlanta, Georgia, last week, attending to funeral arrangements for his brother, Park J. Dills, who passed away on Wednesday of last week. Miss Belle Stephenson left yesterday to visit for the winter months with her sister, Mrs. Chayne, at Lakeland, Florida. She anticipates returning to Acton in May. Mrs. Prudence Cook and Miss Kay Cook, of Toronto, visited with Acton friends over the holiday week-end. Mrs. Cook remained for several days this week. Friends are pleased to learn that Mr. Alex. McDonald is improving satisfactorily following an operation in Guelph General Hospital, and all wish him a speedy recovery. Mr. and Mrs. M. O. Overholt and Merle, of Toronto; Mr. and Mrs. R. L. Johnston and Mr. and Mrs. Roy Johnston and Verena spent New Year's at the home of Mr. and Mrs. L. O. Johnson. Many friends are indeed pleased to learn that Mr. John Donaldson was successfully recovered from his recent serious operation to be able to return home yesterday from the hospital in Guelph. All hope that his progress will continue toward restored health.

CARD OF THANKS For the splendid support accorded me in my candidature for Erin Township Council, I express my hearty appreciation. To one and all a Happy New Year. ARTHUR SWACKHAMER.

CARD OF THANKS The wife, sisters and brother of the late Park J. Dills appreciate sincerely the kindnesses that were shown and the sympathy manifested in so many ways at the time of their bereavement. They will ever remain deep in our cherished memories.

CARD OF THANKS I wish to convey to the Electors of the Township of Requeing my sincere appreciation for support in electing me member for 1938 Council. To the best of my ability I will endeavor to merit the confidence placed in me. With the season's greetings. G. W. MURRAY.

CANADIAN SILVER MINING INDUSTRY Silver mining in Canada is not a distinct mining industry, as silver or silver-bearing minerals usually occur in association with other metals of economic value; with lead and zinc; with cobalt, nickel and arsenic; with lead and placer gold; in copper-gold and nickel-copper ores, and at Great Bear Lake, Northwest Territories, with uranium and radium. Silver-lead-zinc mining is a very important industry in British Columbia, and to a lesser extent in the Yukon Territory. Some years ago the mining of silver-lead-zinc ores in Eastern Canada attained a position of considerable importance in the provinces of Ontario, Quebec and Nova Scotia, and a revival in the mining of these ores has been recorded in both Quebec and Nova Scotia during 1935 and 1936. In addition to its recovery from silver-zinc ores, silver is now produced in large quantities from the copper-gold-silver ores of the Flin Flon mine on the Manitoba-Saskatchewan boundary. Zinc concentrates are also produced from copper-gold-silver ores in British Columbia, and the metal also occurs in commercial quantities with copper-gold-silver ores in Quebec. Primary production of silver, lead, zinc, cadmium, cobalt and arsenic in Canada during 1936 was: silver 18,354,487 fine ounces valued at \$8,271,804; lead 282,180,900 pounds valued at \$14,593,199; zinc, 233,182,738 pounds valued at \$11,054,007; cadmium, 199,318 pounds, valued at \$699,625; cobalt, 287,561 pounds at \$204,678; and arsenic, 1,263,409 pounds at \$42,481, according to a report issued by the Dominion Bureau of Statistics. All-time high records were established in the production of lead and zinc, while cadmium reached a new high in both quantity produced and value of output. Silver production showed an increase of ten per cent. over 1936 but the lower average annual price for the metal resulted in a 23 per cent. decrease in the value of output. The quantity of cobalt produced was the largest since 1923.

Acton Beats Twice and Loses Once

was at full strength as the period ended, with I. Marzo still resting. The period ended with Acton 7, Guelph 22. Acton had 4 penalties; Guelph 6. The final center found Acton playing a man short, and they were pushing the play even then. Couling made a nice try, Greer saving. At 3:00 minutes, just after Marzo's return, he and Gemmill started mixing it again, Gemmill getting the major, and Marzo the minor in the hoosgow. At 4:30 Mooney got another score for Acton. At 4:50 Enns was off for tripping. At this period, Shirk knew he was in a hockey match, and was turning back shot after shot. At 5:10 N. Morton got No. 9 for Acton, unassisted, a beautiful goal. At 5:05 Mooney got No. 10 for Acton, from N. Morton. With Guelph at full strength again, Acton still kept playing in their territory, though Greer was forced to save several. At 5:50 Sloan concluded the Guelph scoring, on a pass from Enns. Mooney got a nasty crack on the head from Enns, but play went on. The ice was getting quite sticky, and golf shots were numerous. At 17:00 minutes Walters and Pipher were banished. At this stage of the game almost anything went, and there were lots of threats, but no damage. With but 20 seconds to go, Terry got No. 11 for Acton, on a pass from I. Marzo. Thus ended one of the wildest games seen in Acton in many days. Final score: Acton 11; Guelph 22. Penalties for the entire game, Acton 7; Guelph 12. The line-up: Guelph—Goal, Shirk; defence, Couling and Brill; centre, Kaiser; wings, Pipher and Gemmill; alternates, McParlane, Enns, Sloan, Kelly; sub goal, Painsbock. Acton—Goal, Greer; defence, Gibbons and Walters; centre, N. Morton; wings, Mooney and E. Marzo; alternates, I. Marzo, Terry, B. Morton; Kenntner; sub goal, Woods. Referee—Talbot, Preston. ACTON 6 - GUELPH 2 The Acton Intermediate took Guelph into camp right in the Royal City to the tune of 6-2 on Monday night. Right from the start Referee Pelbaum, of Kitchener gave notice that rough stuff would not be tolerated, when he banished Couling, of Guelph, and, seconds later, Bayliss, a junior, playing for Acton. There was a very poor crowd on hand, most of them being from Acton. Some substitutions had been made in the Acton line-up, as olds and injuries kept three players off, juniors being put in the gap, and they acquitted themselves exceptionally well indeed. Guelph got the puck at the face-off, and play was carried up and down. Norm Morton got Acton's first chance at Shirk, who was equal to the occasion. Pipher was sent to the cooler, and almost immediately Bayliss followed. I Marzo shot a nice one across the goal mouth, the made the fans gasp. Norm Morton had his poke check working pretty well and broke up those Guelph rushes. Gemmill had a nice shot at Woods, and then Guelph ganged the Acton goalie, who was too much for them. Terry came back nicely after a rush, to save a shot on Woods. At 7:30 Mooney bulged the twine behind Shirk, the Guelph goalie, for a nice try, that the net minder could not save. N. Morton and Mooney combined in a nice rush, and Guelph were lucky that the shot hit the goal mouth, the Acton seemed to have the best of the play in this frame. At 14:00 Guelph tied up the score, Pipher getting the goal, Gemmill and Enns being in with assists. Shirk was down flat on the ice, but Acton could not get the puck to work right, and could not score. Mooney got his second counter of the night on a pass from Norm Morton, at 16:30. The visitors also made a couple more nice tries, but no luck. Woods was putting up a good exhibition in the Acton net, saving nicely on a try by Gemmill. Marzo made a nice play in breaking up a Guelph rush. Kelly was banished to the cooler, Acton took advantage of the extra man, and at 19:00 Norm Morton beat Shirk, on a pass from Bob Marshall. The period ended, Acton 3, Guelph 1. Three penalties were handed out, two to Guelph, one to Acton. The second period found Acton turning on the heat, carrying the play to Guelph. Shirk knew he was in a hockey match, and no mistake. He was doing some good net minding. After about three minutes of play, Bus Morton and Sloan were banished for loving tactics. At 5:50 Pipher got his second goal when he pulled Woods from his citadel. Norm Morton was banished for slashing, and Guelph tried turning on the heat, but no results. Enns had a nice shot, but Woods was doing a real job. At 12:00 Bus Morton got No. 4 for Acton, when he took a pass from Gibbons, that beat Shirk. Enns was banished for holding, and then Acton turned it on. Shirk was a busy boy when Acton had the advantage. Brill was banished for tripping. Acton were all up except Gibbons, when two Guelph players broke away, and he certainly took them both out nicely. At 18:30 Norm Morton got No. 5 for Acton, unassisted. Woods made a nice save when he dived out to get the puck. The period ended with Acton 2 goals; Guelph 3. Acton had two penalties; Guelph three. At the beginning of the third period, Guelph forced the play to the breaks, and seemed to be waiting for the breaks. Woods made a beautiful stop on a try by Enns; also on a shot by Gemmill. At

CANADA'S BEST

A year-end Canadian Press poll of sports writers throughout Canada has left Byl. Apps, centre star of Toronto Maple Leaf's Hockey Team, with the proud distinction of being "Canada's outstanding athlete for 1937." Apps, a native of Paris, Ontario, was a star in track, football, baseball and amateur hockey before turning professional with Toronto a year ago. 3:20 Norm Morton got what proved to be the final goal of the game, in a pass from Gibbons. Guelph did not seem to be able to take advantage when breaks came their way. Acton were able to overtake them and secure that hunk of rubber. Shirk was lucky on a shot by Bus Morton. The referee warned that there was to be no rough stuff. Tyler made a nice try. Marzo made a great lone rush, but could not score. Guelph carried the play to the Acton end. Bayliss took the puck out nicely. Bayliss was banished, and with a man short, Acton still dominated play. Pipher was banished for holding, and both teams were a man short. Marzo made another try, but was unlucky. Woods made a stop that robbed Sloan most of what looked labelled for a sure one. Guelph made a three-man rush, and then shot wide. Shirk made a neat on a shot by Bus Morton, and a minute later Woods stopped one from Enns. Acton was penalized when Guelph objected to them taking too long to change a player with the game in progress. Tyler being sent to the coop. Woods made a dandy stop on Gemmill. There were two penalties for Acton; one for Guelph. The teams lined up: Acton—Goal, Woods; defence, Gibbons and Marzo; centre, Terry; wings, R. Morton and Marshall; alternates, N. Morton, Mooney, Tyler, Bayliss; sub goal, Greer. Guelph—Goal, Shirk; defence, Couling, Brill; centre, Kaiser; wings, Pipher, Gemmill; alternates, Kelly, Kaiser, Sloan and McParlane. Referee—Pelbaum, Kitchener. PRESTON 4-ACTON 2 The Acton Intermediate A's took their first defeat last night, right on the home ice, at the hands of the best of Preston squad. Preston led at every stage of the game, and deserved their 4-2 on the night's play. Acton was weak around the goal and failed on plenty of scoring chances to get the needed tallies. There was a fair crowd and as fine an ice surface as has been seen this winter. The game was clean throughout. Debruke got the first goal of the game at 4:27 on an assist from Smith. Woods had no chance to save the score when they were both in on him. Preston showed an improved game from when Acton beat them in Preston. Norm Morton drew a penalty for tripping. E. Marzo broke here, but Walker beat him. Goad earned a real for charging Walters. Kenntner was close on a long hard drive. And a scramble almost netted a goal for Acton. Tait went off for slashing. Acton failed to score from a scramble. Knack was right in, but Woods saved the score. Walker saved when Gibbons was right in. The period ended 1-0 for Preston. Mooney was close in at the opening of the second period, but Walker beat him. And a scramble failed to net Acton a goal. Goad's long shot nearly fooled Woods. Preston got the second goal when Goad scored at 5:40 from a rebound. Norm Morton drew a penalty. Mooney and Walters had no luck on their effort. Walker beat Terry when he was right in. Tait went to the cooler for boarding. I. Marzo came within inches, but Walker smothered the effort. Acton had plenty of shots but failed to click. At 12:30 Mooney finally got one past Walker on a pass from Norm Morton. Debruke was beaten by Woods on his effort. Bus Morton and Knack drew penalties for high sticks. Terry and E. Marzo missed on a nice chance. Knack drew another rest for putting E. Marzo to the boards. Acton put plenty of rubber at Walker, but the visiting goals were good and Snith and Knack's hard combination to beat. Snith and Knack broke when Acton was pushing the play and scored a nice goal at 19:45. Acton was caught flatfooted

THE TRUE MAN

The-true man is never satisfied with the things that he is doing; in the way that he is doing them; but is ever aiming at something higher and bigger. He knows that he must fulfil his destiny by this effort to widen and deepen his life. Utilize your spare moments; those crumbs of time dropped from even the busiest hours; to chart out your future. Don't wait to settle what you are going to do or to be. Begin now. Learn to measure coming events by their shadows, and keep saying to yourself over and over again: "Where shall I be, what shall I be doing next week, next month, next year?" To-day is the time to tread down a pathway for to-morrow. Don't worry if the path is narrow at the start. A few steps resolute on your part will soon widen it and clear the way for you to proceed.—Geoffrey Rhoades.

I envy musicians because they 'doodle' thousands of people at one time when as a physician I can only attend to one patient.—Lord Border.

The Greatest Ice Show of All Time! "Gay Blades" WILL APPEAR AT Galt Arena Gardens January 7th--8th TWO NIGHTS ONLY This Show is headed by Carl Schaefer and Maribel Vensan and an All Star Cast of Professional Skaters. It played an entire week in New York. 1000 SEATS AT \$1.00 1400 SEATS AT \$1.50 200 SEATS AT \$2.00 144 SEATS AT \$2.50 Mail Orders will receive prompt attention. Address all inquiries to The Galt Arena, Galt, Ontario.

King Winter Takes a Wood-Chopping Job

Here is what King Winter does when he gets really sore. The photo, made in an Oklahoma city street after a recent sleet storm, shows a few of the trees that were badly damaged. Weight of the accumulated ice on the limbs sheered off from the trunks and ruined many of the city's beautiful shade trees.

LONDON'S GREAT PORT London is the world's greatest port as well as being the world's largest city. Trade to the value of approximately over two billion of dollars passed through the port during the year 1935 and this trade did not include coastwise traffic and trans-shipment under bond. Latest figures show that 37.7 per cent. of the trade of Great Britain passes through the port of London, according to the Industrial Department of the Canadian National Railways. 42.5 per cent. of the imports come to London and 30.2 per cent. of the exports go through its portals. The Port of London has acquired strategic importance in the case of certain imports. For instance, 93 per cent. of all the tea consumed in Great Britain enters through the port, and over 60 per cent. of the meat. The port accounts for 60 per cent. of the sugar, and 40 per cent. of the raw wool. By reason of geographical situation London is the natural port for the importation of goods from the continent of Europe, from the Far East, Africa and Australasia.

INTERESTED Some New York blackmailers wrote to a prominent bank manager saying that they would kidnap his wife unless he sent them \$50,000 immediately. The letter misquoted to a laborer of the same name, who replied: "I haven't a dollar, but I am deeply interested in your proposition."

Super-Liner Planned to Cross Atlantic in 84 Hours

This is an artist's drawing of what may be the super-liner of the future. This stream-lined vessel, suggested by executives of French and British steamship companies, is designed to cross the Atlantic in 84 hours. Its speed would be 37 knots an hour with turbo-electric power equipment, and a glassed-in super-structure. Note smoke ducts at the rear of the vessel adding to the general stream-line, instead of on top. The liner is designed for a length of 1,350 feet.
