## BORN

**SCHLESLEY**—At Guelph on Sunday, July 31st, 1938, to Mr. and Mrs. Patrick Kelly (nee Isabelle Grills), a daughter,

## DIED

**UNSWOOD**—At Guelph General Hospital, on Monday, August 1st, 1938, William Unsworth, beloved husband of Mary MacKenzie, in his 78th year.

## IN MEMORIAM

**MARSHALL**—In loving memory of our darling son, who passed on, August 6th, 1937.

A little lamb too sweet and pure—  
Upon this earth to roam;  
An angel came—  
And took our darling home.

MOTHER

**SACARSKIS**—In loving memory of my dear mother, Annie Sacarski, who passed away, August 6th, 1937.

God knew that she was suffering,  
That the hills were hard to climb,  
So she had to leave us side,  
And whisper, "Please be thine."  
Away in the beautiful hills of God,  
By the Valley of Rest so fair,  
Sometime, some day, we know, not when,  
We'll meet our loved one again,  
Safely missed by our daughter and  
son-in-law.

MARY and BILL

*Ode and that*

August, the eighth month of 1938.

The Safety Lane comes to Acton next Monday.

Labor Day is the next public holiday of the summer.

The last month of the long summer school vacation.

A favorite topic everywhere these days is the weather.

Indications all point to a bumper year for Acton Fair this year.

Holiday traffic seemed to be heavy on every highway during the week-end.

The raspberry crop has lingered well, in spite of early indications of a short crop.

Tell us about your visitors. It helps make the personal column personally interesting.

Fair Directors are busy these days arranging final details for the 1938 Acton Fair.

As a result of the repeated heavy rains, vegetable growth has taken on a new impetus.

All employees of the Mason Knitting Company are enjoying the annual vacation this week.

Norman McDonald, of Dolly Varden, won a beautiful quilt in a draw put on by Milton Anglican Women's Missionary Society.

The Arena performance at Acton Fair this year has a program outlined that will surpass anything previously presented.

The traffic guide at Main and Mill Streets is being replaced as the painted lines wear off too quickly and are not satisfactory.

For speeding at 40 miles per hour in Acton Park, a motorist paid a fine of \$10 and costs. The speed limit is 15 miles per hour.

A very interesting exhibit of redica has been in The Park Press window. They were forwarded to Mr. N. F. Moore from Miss Ruth Nelson, at Kitimat, B.C., for the exhibit at Acton Fair.

Mr. Percy Brown, who has just moved from Manitoba, left The Park Press a sample head of the 1938 western wheat. It is of the new "Renown" rust resistant variety, and is on view in The Park Press window.

The largest open air dance pavilion in the world is being rapidly pushed to completion at the Canadian National Exhibition, where three outstanding dance bands—all favorites of radio and screen—will be heard. These bands are Guy Lombardo and his Royal Canadians, and the Benny Goodman and Tommy Dorsey units.

Three in a row for Lucky Teter! Seldom has the Canadian National Exhibition found an attraction as enthralling that it is booked for a third consecutive year. This, however, is the case with Lucky Teter and His Devil Drivers, who will again thrill thousands of visitors to the "Ex" with his dare-devil motor stunts and breath-taking jumps, spills and crashes before the grandstand.

This is an era of big bands at the Canadian National Exhibition. This year the feature band is that of the Royal Artillery of England. This band, composed of 70 musicians, is unique among musical organizations because each member can play at least two instruments and in five minutes the band can change over from one of the world's outstanding military organizations to a symphony orchestra of equal merit.

## WANTS CANADIAN TERRITORY

I brush aside joys that yearns to kiss us. Unthinkingly we wound hearts whose joy or sorrow hangs upon our slightest act or word. Pride or carelessness checks the spontaneous expression of our love. We crush and eat aside the flavor of life's mystery, and then bemoan the monotony of existence. Or to be awake every morning to the wonder and mystery of it all. Edward Howard Orton.

24c  
**LETTER BOX**

Dear Pass Press:

In last week's letter I told of the monster phone put up by Lake Shore Mine, but the number of exchanges necessary to carry the crowd was somewhat exaggerated. It was fifty, rather than five hundred, as printed.

A big celebration was planned for Civic Holiday, to be held at Newaledon Beach, horse races, ball games and other sports, both water and land. A tremendous crowd gathered and one boat sank, with a terrible thunder storm coming on, and torrents of water fell, and put a stop to the whole afternoon's sport. The management announced a postponement to Wednesday evening, at 6 p.m., when everything possible would be done to entertain everyone who cared to come, all free.

The weather the past two weeks has been very warm, with a thunder shower nearly every day. Men those who were a little late haying, are having trouble in having it. But the heat and moisture has made grain and garden crops jump ahead. And, such blue berries! They are growing and ripening so fast.

The market had a wonderful display of all sorts but Saturday, but, on account of the terrible heat, buyers were rather careful not to have too much on hand, so, in a number of cases, farmers had a lot of leftovers, which was somewhat disappointing.

Our produce has matured very fast, so that we have abundance of new potatoes, beets, carrots, onions, peas, beans and such a display of flowers, hundreds of kinds, and so many I can't name. Flowers sell sometimes better than things to eat, or it appears that way. But they have to be put up in small bouquets to sell at a moderate price.

In spite of there being lots of employment and plenty of money spent, there's lots of unemployment and plenty of folk here. But even these will buy cheap food and flowers if they are available.

The north country is full of tourists, and folk on holidays, and no place is better adapted for it. In spite of the tremendous heat in the day time, it cools off at night so one has a wonderful rest and sleep, and covers are necessary for comfort.

My time is over, so one is not troubled with the pests of black flies and mosquitoes.

Summer time is a busy time. Outside in hoeing, cultivating, haying, harvesting, summer follow work, then fall plowing. Our boys are busy between all these jobs, getting some new hand ready for plowing. Then inside, its meals first, cleaning, cleaning and, these days, preserving is the big job. Trucks are coming in with fruit of all kinds so we're getting what we can on the days go by and filling the jars for winter. It's chores today enough to fill about 20 quarts. I helped fill them too so know something about it. Plums, pears, peaches, grapes and apples will come along in season, so I guess there will be plenty.

We were somewhat anxious for a while

about the armyworm pest, but their season seems spent, and no further damage seems being done.

We're living in such modern times, it's a bit difficult to keep abreast of it. Highway travel is becoming more difficult, with such an increase in numbers of all kinds on the roads, and requires the drivers' whole attention, with no break and interference. But with some driving, there's a lot of pleasure to be had.

Goodby yours,  
W. JOHNSON

## REMARKED

Friend: Your son is making good progress with his violin. He is beginning to play quite well.

How do you really think so? We were so afraid that we merely had good to it.

## WELL, RATHER!

I expect your father was much upset over your sister's departure.

Father: We thought it was never going to come off.

## JUNE TRY

For those planning a motor tour, it is best to get a large road map. This will tell you everything except how to fold it up again.

## CHANGE

The old saying is that all things come to those who wait. Change this so as to make it declare that nearly all the good things of both worlds as possible to those who will persevere long enough in seeking them, and you will have an important statement which does not at all exceed the limits of truth. If, too, you should turn it around, the converse of it would be equally true, for without perseverance we need have no expectation of either acquiring much or being of much service to our fellow creatures.

Summer time is a busy time. Outside in hoeing, cultivating, haying, harvesting, summer follow work, then fall plowing. Our boys are busy between all these jobs, getting some new hand ready for plowing. Then inside, its meals first, cleaning, cleaning and, these days, preserving is the big job. Trucks are coming in with fruit of all kinds so we're getting what we can on the days go by and filling the jars for winter. It's chores today enough to fill about 20 quarts. I helped fill them too so know something about it. Plums, pears, peaches, grapes and apples will come along in season, so I guess there will be plenty.

## "Away to The Canadian Rockies"

A new and harmonious note in travel literature is the latest Brinley "Away" book—"Away to The Canadian Rockies and British Columbia"—by Gordon Brinley, and the Trail Riders of the Canadian Rockies, visiting Moraine Lake, Larch Valley, and Mackenzie Valley. They have thoroughly enjoyed the novelty of living in Indian tepees, fishing for trout in lakes in the clouds, and thrill to the changing panoply of their surroundings.

Further adventures carried them to such famous lakes as Louise, Emerald and O'Hara, in the Great Divide, in British Columbia, and on to Vancouver where they discovered another vivid countryside and excellent fishing in the Vancouver Island salmon runs.

The two adventure-loving Americans who will see the Canadian West through their eyes, assisted by the charming drawings by Mr. Brinley, the blithe and readable text by Mrs. Brinley, and the definite practical information they incorporate in their book for those who would follow in their footsteps.

The pictures above show Mr.

and Mrs. Brinley (photo by Peter Vandy) and some of the Canadian Rockies scenery they like best.
