1938 EDITION OF YEAR BOOK NOW READY

The publication of the 1938 edition of the Canada Year Book, published by authorization of the Hon. W. D. Ewart, Minister of Trade and Commerce, is announced by the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1938 Canada Year Book extends to almost 1,200 pages, dealing with all phases of the national life and more especially with those susceptible of statistical measurement. A statistical summary of the progress of Canada is included in the introductory matter. This gives a picture in figures of the remarkable progress which the country has made since the first census of the Dominion was taken in 1871, sixty-seven years ago.

Attention may be called to some of the more important features of the present volume.

In Chapter I, which treats of Physiography a revised article on the Geology of Canada appears at pp. 16-27. Part III—Sociology has published in the 1931 Year Book is brought up to date this year, and a special article "The Flora of Canada," prepared by John Adams, M.A. (Camb.), Division of Botany, Experimental Farm Ottawa appears at pp. 30-39 as Part IV. In Part VII, which deals with Climate and Meteorology, a new section and tables on Times of Sunrise and Sunset in Canada are given.

All the space that could be spared in Chapter XXIX Labor and Wages has been given to a summary review of Labor Legislation in Canada, which appears at pp. 787-96 and to an extended treatment of Mothers Allowances by individual provinces. There are over thirty maps and charts contained in the volume, and two photographic inserts illustrating the sections on "The Flora of Canada" and "Historic Sites and Monuments," respectively. Three lithographed maps are included. Persons requiring the Year Book may obtain it from the King's Printer Ottawa, as long as the supply lasts at the price of \$1.50, which covers merely the cost of paper, printing and binding. By a special concession, unlimited number of paper-bound copies have been set aside for ministers of religion, bona fide students and school teachers who may obtain copies at the nominal price of 50 cents each.

BETTER OUT OF THE WAY

"Is your boy Josh going back to college?" "Yes," replied Farmer Cornusell. "It will cost something to send him, but it'll be worth a good deal to keep him from interfering with practical work around the place."
