## County Council Discusses Two-Year Office Term

(Continued from Page One)

ment of Municipal Affairs read in part as follows: Re extension of term of office of members of Municipal Councils and local Boards: The passing of this measure will change the law as follows:

1. No election will be required for 1941, except when members have already held office for two years.
2. A vacancy during 1940-41 to be filled by vote of remaining members.

Under the recommendation of national interest that elections be not held, the Lieutenant-Governor will be empowered to extend terms of office in any year to a further year.

4. No voters' lists will be prepared for 1940, except those begun in 1939.

This measure to be uniform throughout the Province. Any local plebiscite is therefore an unnecessary expense.

The letter was filed, but only after considerable discussion. With regard to a two-year term for municipal elections, various opinions were expressed by members of the Council.

Mr. Byers—I don't know that I am very much in favor of a two-year term. It might possibly bawl things up pretty badly.

Mr. Robinson—I, for one, don't think this law should be enforced—it is too much like dictatorship. People should at least have the privilege of removing any member they don't want.

Mr. Allan—There are always two sides to every question. In Great Britain this plan has been tried out and found satisfactory. Personally, I think it would be a good thing for the county and the country as a whole.

Mr. Gilbert—There must be some reason why the Government wants to do this. It may sound dictatorial, but I think we are pretty safe, because I don't think Canadian people would stand for anything like that.

Mr. Robinson—A two year term may be all right as an economy measure, but why shouldn't the decision be made by the people and not the Government.

Mr. Kerns—if a man is the choice of the people at the time he is elected, then he should be good for two terms.

Mr. McEwen—I think a two-year term is a good idea. In fact I am sure it is the best policy.

Mr. McCutcheon—I think the Council should be run the same as the School Boards. That is, two new members elected each year, so that there is never an entirely new Council in any one year.

Mr. Hewson—I think myself that it would be all right to give this idea a trial. We can't go very far wrong, because there are always enough on the Council to counteract any undesirable influence.

Warden—Under this plan, the cost of municipal elections would naturally be cut in half. Had the Government brought this up after the coming elections it wouldn't be so good, but as it is, they are giving us every chance. If this scheme has proven to be successful in England, I don't think we can do much better than follow the Mother Country.

Mr. Irving, giving his report of reformation, stated that two or three members of the Council visited the property in question and thought it would be a good investment and if purchased work could be started next spring.

It was explained that this property was free from assessment once it became County property. This led to the Warden telling Council that Trafalgar Township would probably soon lose considerable assessment from the likely purchase of some 1,200 acres of land near Hornby; also Mr. Hall pointed out it was likely a Trafalgar road would be blocked out as a result of the proposed airport, although definite word from the Federal authorities has not been received.

A report from the Grand Jury of an inspection of the Halton and Peel House of Refuge, read, in part, as follows: We found the House of Refuge in good condition and well kept. We recommend (1) Attention be paid to ventilation; (2) Attic, if used for sleeping quarters, then walls and ceilings should be finished; (3) Halls and stairways be kept properly lighted; (4) Persons mentally deficient should not be kept at this institution; (5) Seats should be provided on lawn for use of inmates; (6) That the County Councils appoint an independent commission to investigate the conditions at the institution.

The Grand Jury also reported having inspected the Court House at Milton and found the buildings in good condition, clean and comfortable. The report recommended (1) Judge's Chambers be redecorated and new carpet laid; (2) Barristers' room and lobby be redecorated; (3) Fire escapes be provided for the second and third floors of goal; (4) Attention be given to basement stairs. The report was filed.

The following resolutions were passed: Moved by A. A. Allan, seconded by R. Byers, that we, the members of this County Council, are fully in accord with the action taken by the Halton members of the Old People's Homes and further, that the report of the Secretary be accepted and that a vote of thanks be extended to all members of the Board for the efficient manner in which all business has been transacted, and that a copy of this resolution be sent to Peel County Council.

The following accounts were passed for payment:

County Buildings	\$225.27
Finance	\$17.19
Hospitals	\$15.25
Printing	\$5.95

Moved by Mr. Gordon, seconded by

Mr. Kerns that the Treasurer be authorized to issue a cheque for \$741.22, in part payment for Lot 12, Concession 7, in the Township of Nassagaweya, as soon as the necessary documents are produced.—Carried.

Three by-laws were passed: (1) To authorize execution of agreement between Halton and Peel; (2) To amend By-law 346 of the Municipal Council; (3) To authorize the borrowing of money to meet current expenses for the year.

Council adjourned.

**SURE ENOUGH**

I seldom notice book-ends much. Although, of course, I've seen them: They're like ears—what really counts is what one has between them.

"Daddy won't be home to dinner this evening, Willie, so you will have to take his place."

"Do you mean I'll have to read the paper at the table?"
