Glimpses of Parliament

By Hughes Cleaver, Halton's Member

The keynote of the opening speeches of the House on Friday last was a criticism of the alleged complacency of the Canadian public toward Canada's war effort. Hon. Mr. Hanson, the newly-appointed Opposition Leader, in his opening remarks stated:

"We shall expect from the administration a full accounting of its stewardship during the past seven or eight months. The Canadian people are asking for that. I fear that they have been too complacent during the early period of the war. However, now that the shock of this tremendous conflict is being borne upon them, and through them to us, they desire to know the measure of effort Canada is putting forth at this time."

Mr. Sinclair, Member for Vancouver North, struck the same note when he said in seconding the address:

"This is no time for complacency. It is time for united effort, for ceaseless endeavor; above all for action, for fearless action. This is the time to subordinate all other efforts in order to smash away the political bickerings and the departmental red tape which in the past have impeded democratic action. This is the time to mobilize with ruthless speed every resource of this vast country."

It is of course easy to criticize, but for the life of me I do not know where these gentlemen got the idea that Canadians as a whole are complacent about the war unless it might be that they have misunderstood "complacency" for "complacency." While I share with other Canadians an abundant confidence in the final result of the war, I do not find anyone who does not appreciate the full seriousness of the struggle. In addition to a willingness to make any necessary sacrifice I find everywhere a very determined insistence that this time there shall be no excess profits and that this time there shall be equality of sacrifice insofar as it is humanly possible to attain it.

On Monday afternoon Hon. R. B. Hanson spoke for two hours in a critical vein on Canada's war effort, covering again a great deal of the criticism which was voiced during the general elections. He stated that he understood the recent mandate of the electors to be that we should use all our power and all our resources to win the war. He stated that he was opposed to any time now being taken to consider unemployment insurance or any other post-war problem. He also expressed grave doubts as to whether the consent of the provinces could be obtained in regard to the amendment of the constitution to permit the Federal Government to enact unemployment insurance.

On Monday evening Mr. King gave a complete synopsis of Canada's war effort and war plans to date. I regret that I am unable to give verbatim reports of these speeches of our two leaders, but as my copy must go to the County Press tonight, if it is to be published this week this is impossible. Mr. King stated that the most accurate means of arriving at a correct impression of the magnitude of our effort was to give comparative costs. In the first eight months of the war Canada has spent over twice the sum which was expended in the same period of the Great War. Our estimated war expenditures for the coming fiscal year are seven hundred millions, as compared with one hundred and sixty-six million spent during the corresponding period of the last war, an increase of 327 per cent. Since the return of the Defence Minister from England it has been decided to further increase this amount.

As to the Canadian Navy, we are spending thirty times more than we spent in the same period of the last war. In addition to the following ships now in active service: 7 destroyers, 15 mine sweepers, 16 anti-submarine ships, 51 auxiliary ships, we have ninety new ships now under construction. We now have an active naval personnel of 6,814 officers and ratings which will be increased by 11,450 by March 31st, 1941.

On the Air Force we are spending 100 millions as compared to 3 millions during the same period in the last war. On May 10th we had 13,315 of all types of aircraft. In addition to this we are spending 350 millions over a period of three years as our share of the British Commonwealth Air Training Scheme. We have built and building 110 separate Air Training Schools and Depots for use in the Empire Air Training Scheme. This scheme will require an instructional staff and ground force of over forty thousand officers and men.

As to the Infantry the First Division of 23,878 men is now overseas. The second division of 24,688 men is training in Canada and we have others recruited for coastal and home defences, bringing total of this branch of the service under arms of over 100,000 men. It has been decided to recruit a Third Division immediately.

A general speeding up is to take place as to all services. Two new Ministers are to be appointed, a Minister of Defence (Concluded at Page Eight)

GETS NEW POST

Ten veterans of the First World War are now surrendering either the whole or part of their pensions to Canada's war cause. A pensioner of London, Ontario, surrendered his monthly cheque of \$27.00 from March, 1940, for the duration. Another from Killam, Alberta, authorizes a deduction of \$11.25 every month. The other eight include a Major-General, now resident in Italy, and a private resident in Greece.

Acton Y.M.C.A. Closes Good Year Elects Officers

Cash Balance Shown — Membership Was Largest Since the Opening — H. H. Hinton President.

Evidence of keen interest was shown on Monday night when Acton Murray Memorial Y.M.C.A. held its annual meeting. There was a splendid attendance of senior members when President W. Geo. Mason opened the meeting and the reports were most gratifying.

Finance has always been a handicap in this enterprise and the membership was accordingly surprised when the Treasurer's report, presented by Chas. Kirkness, showed a cash balance of \$293.94, after providing \$50 for the year in a sinking fund for building maintenance. Total receipts were \$1,863.43, and total expenditures were \$1,570.00. Reports from the various committees were given as follows: Building, G. A. Dill; Special Features, E. S. Force; Program, H. H. Hinton; Ladies' Auxiliary, Mrs. C. F. Leatherland. In the Supervisor's Report, Mr. W. J. Benson gave a summary of the use to which the building was put by the various groups. In totaling up over 9,000 participations were made of the building for Y. purposes alone. For the future a Y's Men's Club was under consideration; the Y.M.C.A. War Services Campaign was being undertaken and already over \$100 had been contributed. Boys' and Girls' Camps were arranged and the camp banks had almost sufficient for the boys to meet this expense.

President W. Geo. Mason, in his remarks, paid tribute to the splendid work Mr. Benson had done this year. He also thanked the Board for the co-operation they had given him during his tenure of office and the Ladies' Auxiliary. In recognition of the work Miss Helen Ostrander had done with the Junior Girls' Group, Mr. Benson, on behalf of the Board of Directors, presented her with a Camera. Miss Ostrander replied, expressing the joy that the work had given her and her thanks for this unexpected recognition.

A vote of appreciation to the retiring Executive was endorsed by every member with hearty applause.

A motion, which caused considerable discussion, was an amendment to the constitution, reducing the number on the Board of Directors from fifteen to nine. The motion was carried, and in the election, which followed, the following were made Directors, and later drew lots for the term of years they will serve:

For One Year—G. A. Dill, H. R. Elliott, G. McKenzie.
For Two Years—W. J. Beatty, E. S. Force, H. H. Hinton.
For Three Years—W. H. Clayton, C. Kirkness, M. Roote.
Officers elected by the new Board at a subsequent meeting were:
Honorary President—W. Geo. Mason.
President—H. H. Hinton.
First Vice-President—W. H. Clayton.
Second Vice-President—E. S. Force.
Secretary—Chas. Kirkness.
Treasurer—G. McKenzie.
A delightful luncheon was served by the Ladies' Auxiliary and a splendid social as well as business meeting ended of the gathering.

Beardmore Co. Requested Seasonal Water Supply

Council Gives Matter Consideration and Will Inspect Additional Spring — \$250 Received from Liquor Control Board — Arrangements Being Made for Supervision of Bathing at Fairy Lake.

Councillors W. J. O. Oakes and J. F. Davison were present on Tuesday evening when Acton Council met in regular session, and Reeve J. B. Chalmers presided.

The Clerk reported the transfer of the trust fund of \$250 of the Soldiers' Memorial plot to Dominion of Canada bond at 3 1/2 per cent.

The Thirtieth report of the Finance Committee recommended payment of the following accounts:

A. Smith, wages, 11.00

Force Electric Co. Lile \$95.48, less contra allowance of \$50.00, 45.48
O. R. Brown, trucking etc., 70.65
\$211.71

A letter from the County Engineer gave a price of \$27.08 for Calcium Chloride F.O.B. Milton.

Another quotation was received from S. F. Lawson and Co. It was decided to order through the Halton County Council as this price was the best.

A letter from the Liquor Control Board enclosed a cheque for \$250.10, being twenty per cent of the amount of license fees collected from hotels in Acton.

A letter was read from Beardmore & Co. Ltd. regarding a supply of water from the municipal system. This water would be used from June 1st to September 15th. It was estimated that 30,000 to 40,000 gallons would be used every 24 hours. The company did not expect to pay the usual domestic rates.

Superintendent Wilson was present to give details of the system. The total cost of water was 96¢ per 1000 gallons, including debenture and all other charges. The present pump at the spring would pump 5000 gallons per hour. The pump at present was working about 8 hours per day, and with the equipment used at present the amount required could not be delivered in addition to the regular municipal requirements. The cost of an automatic pump was about \$1,000, plus installation cost. This pump would deliver 100 gallons per minute and water could be pumped direct from the spring into the mains. Operation of the present pump would require additional supervision.

The Clerk was instructed to write pointing out the difficulties in supplying this amount of water, and ask for definite requirements from the company. The Superintendent also reported regarding the spring property and an additional spring upon which the Corporation had rights. Council and Commission arranged to make a tour of inspection of the property.

A letter was read from the Burlington Council enclosing a copy of a resolution passed by that Council. It was asked that the Acton Council consider this resolution and if deemed advisable forward a copy to Hon. Norman Rogers. The motion suggested the forming in communities, where garrisons do not exist, of home guard units to combat the tactics of Nazi Germany, such as have been evident in other countries. These units would be under the supervision of the District Military authorities. The letter was filed.

A letter from the Duke of Devonshire Chapter of the I.O.D.E. extended an invitation to the Council to hear Dr. Turville, of Western University deliver addresses on Poland, in Knox Church. Council expressed appreciation of this invitation.

Another letter from the same order asked permission of Council to conduct a race at their base in the fall. Council had no objection if the event complied with the Criminal Code and the funds were used for charitable purposes.

The Duke of Devonshire Chapter also agreed to provide, as in other years, a sum of \$25.00 to provide supervision at the bathing beach in the Park.

Arrangements were to be made to secure a suitable supervisor for the Park. Likewise Chapter K.O.D.E. in a letter expressed appreciation to Council for the use of the Town Hall for their dance.

Acton Plant Only One of Its Kind in the Dominion

An article entitled "Canadian Ceramic Industry Growing," prepared by Gordon C. Keith, M.Sc., Secretary of the Canadian Ceramic Society, gives some very interesting information of how the industry has developed in Canada.

One paragraph has an especial local interest. It reads: "A new crucible plant, the only one of its kind in Canada, has been established in Ontario. This opens up a new line of manufacturing since crucibles, formerly imported, are used widely in the mining industry." The plant referred to is in Acton, and is known as Canadian Ceramic Co. The crucibles are known under the trade name of "Actolite".

A visit there only this week brought out the further interesting information that these crucibles are now being made on a type of machine never before used for such a purpose. Production is speeded up with this new machine and a splendid article produced. We spent an interesting half hour in this plant on Tuesday, watching the various machines in operation. A new storage shed was built recently at the rear of the factory.

Another interesting part of the new industry is the fact that the new power press used in forming the crucibles was made by another Acton industry. It is a specially built and equipped press, made by The Acton Machine Shops, whose plant is adjoining the ceramic plant. Acton, too, has its place in pioneering in new industries and processes.

TORONTO QUARTETTE CONTRIBUTES TO UNITED SERVICE

That fine congregation that assembled for worship at the United Church on Sunday evening will not soon forget the inspiration of the occasion. The minister's theme was "What does it mean to come to Christ?" and he was ably supported by the choir and the Evangelical Male Quartette, of Toronto. The Quartette rendered several numbers, not only in fine voice, but with outstanding power of spiritual appreciation.

The minister expressed the hope that the Quartette might make a return visit to the congregation here, in the not too distant future. When they occur, there is a large and enthusiastic hearing for this group of singers, whose talents have been so definitely dedicated to the gospel of Christ.

Debt is Repaid to give British War Credits Here

During April ninety million dollars of war credits for Great Britain were established in Canada. Funds to that amount, out of the First Canadian War Loan, were used last month to pay off a Canadian Government loan outstanding in Great Britain.

This debt would not have matured ordinarily until 1960, but as a means of contributing to the Allies' war effort the required six months' notice for earlier termination was given last October.

All British investors of these Canadian Government securities transferred their holdings with the British Treasury, which paid for them in sterling. The British Government, in turn, uses securities at Ottawa to obtain Canadian dollars or credits in the Dominion.

In this way Canada, which has a favorable balance of trade with Great Britain, facilitates British war purchases in the Dominion.

NEW APPOINTMENT

NEIGHBORLY TALKS NOTE FORMER RESIDENT NOW 99 YEARS OLD

An Actonian listening on Sunday to "Neighborly Talks," from O.B.L. was interested in hearing congratulations extended to Mrs. Weaver, of Lion's Head, on attaining her 99th birthday. He called it to our attention. Mrs. Weaver was the mother of Mrs. John Williams, who came to Acton when Mr. Williams passed away, twenty or more years ago, and kept the home together. Many will recall this fine old lady and wish, too, to extend congratulations and the wish that she will attain the century mark.

Convention Urges Prohibition Liquor During the War

Prizes Presented in Competitions at the Halton County W.C.T.U. Convention Last Week

The Woman's Christian Temperance Union of Halton County met for their forty-fourth annual convention in the United Church, Georgetown, on Friday, May 17th.

The afternoon session, under the presidency of Mrs. R. B. Galbraith, of Milton, opened with the devotional period, led by Mrs. E. G. Baxter, Georgetown, whose scripture study, chosen from the book of Esther, "Who knoweth whether thou art come to the kingdom for such a time as this?" counseled courage and self-surrender in the fulfillment of the mission entrusted to us as individuals and as an organization.

The reports presented from the different unions showed some good work done in the face of many difficulties, but the feeling of the meeting seemed to be that there is much need for more energetic action in the work to which we have set our hand in Halton County.

After much earnest discussion, those present renewed their dedication to the task "for God and home and Canada." The address of the guest speaker, Miss C. Rosamund Duff, Provincial Secretary of the W.C.T.U., furnished much of information and not a little encouragement to patient persevering endeavor. A greater sympathy toward our work of scientific temperance instruction is one of the most encouraging features in the present situation.

During the past year every community where prizes are presented to approximately fifty thousand students in different Ontario schools, both Protestant and Roman Catholic, from primary to collegiate, lessons in alcohol education to use the term—more commonly applied now to these studies.

Reid, Mrs. J. H. Reid, Mrs. Switzer and Mrs. Symon.

The scripture reading and prayer were taken by Mrs. A. T. Brown and a special hymn was sung for our walkers on the way. Mrs. Arnold gave an instrumental number. It was arranged that the sale be packed at Mrs. Agar's and the Branch will have charge of the church service on Conference Sunday.

Let us Bow in Manly Humility

Acton, Ontario, May 23rd, 1940

To the Editor, ACTON FREE PRESS.

Dear Sir: May I appeal through your columns for a hundred per cent. observance of Next Sunday, May 26th, which has been set aside by request of His Majesty, the King, as a special day of humble prayer in all the Churches throughout Great Britain and the whole Empire. It will be a rallying day for all who believe and trust in God as revealed in Christ, for all who believe that Christ's way of life is the true one—who believe in the things for which Christ stood and still stands; and also for all those who believe in the righteousness of the allied cause. Our participation in this great act of intercession will be a witness to the world of our unity. We will not think of it as a desperate remedy resorted to in a desperate situation, or as an attempt to persuade the Almighty to change his mind, but rather in the very practical sense of being a method of clarifying our minds, strengthening our purpose and steadying our nerves.

Indifference in a crisis like the present one on the part of those who are not by conviction anti-Christian amounts almost to treason. We know that Hitler rose to power on the shoulders of those who had no other religion. With many, indifference to religious observance is merely a matter of carelessness—we so easily get out of the habit and find other things to do that God is crowded out of our lives, and that gives the adversary his opportunity. Let us see to it that none of the excuses we ordinarily make stand in our way on Sunday "let us" as Lord Tweedsmuir said, "bow ourselves in manly humility before the unseen Lord of Life," and submit our wills to His, making it a witness before the world of our unity and earnestness about our cause.

DON'T TAKE A CHANCE!

We have been requested by the Reeve and Chief Harrop to draw attention to the fact that the municipal by-law prohibiting setting off fire crackers or fireworks on the streets. Already two have been summoned in court for this offence, and fined. Similar action will result for all offenders, and we give this friendly tip to save all from needless trouble and expense.

Have fun, but obey the law and go to the Park or other spot, well removed from buildings, to discharge Victoria Day fireworks. We have been told plainly the law will be enforced and summons issued for discharge of firecrackers on the street.
