QUICK BREADS

A more liberal use of wheat from Canada's abundant supply would not only be a patriotic gesture on the part of the homemaker, but would add nutritive value and interest to

the daily menu: The term quick brends is used designate the type of product : which baking powder or soda is used as a leavening agent and to differ entiate between it and the longer vising yeast bread. These breads are largely used in emergency on account of the short time required in preparation, for such foods as muffins, biscuits, pop-overs, scones and other cereal mixtures.

Don't Attribute Potato, Clouding, To One's Cooking.

It's Lack of Minerals In The Tuber Itself and The Soils Should Be In Proper Condition

BY GLADYS ARNOLD Canadian Press Staff Writer

OTTAWA. (CP) Lack of proper diet affects potatoes as it does human beings. This is the finding of experimental research by Dr. E. Tottingham, associate professor of agri cultural chemistry of the University of Wisconsin whose experiments are being studied and déveloped at the Kemptville, Oht., Aggiculture school, was before. Potato blackening is the bane not only thousands of housewives, but of growers and marketers too. "Lack of minerals in the tubers causes the
