Obituary

JOSEPH JOCQUE

Joseph Jocque formerly of Bracebridge, died in St. Mary's Hospital, Kitchener on Thursday, March 5th, after a short illness.

Funeral services for Joseph Jocque will be held from Johnston & Rumley Funeral Home on Saturday, March 7th, to Fairview Cemetery.

MRS. HUBERT SMITH

Following an illness of several months' duration, Mrs. Hubert Smith passed away at her home, 170 Fulton Avenue, Toronto, on Saturday.

Mrs. Smith was before marriage, Pearl Boyd Stewart, a daughter of Mr. and Mrs. Adam Stewart.

Besides her husband she leaves one daughter, Beatrice, at home; Mrs. Adam Stewart, her mother and Mrs. C. W. Mison, a sister in Acton and Mr. J. H. Boyd in Kitchener.

Mrs. Smith was a member of Danforth United Church and the Episcopate on Tuesday afternoon at the home.

Funeral services will be held at the home on Saturday, March 14th.

JAMES CARLISLE

The community of Silvercreek, Seventh Line, requesting township was saddened by the sudden death of Mr. James Carlisle at his home.

Mr. Carlisle was a kindly, quiet citizen and a lovable neighbor. He was a member of the Presbyterian church. He farmed most of his life in the vicinity of Hillsburg, in Erin township.

MISS MIRIAM WOODHALL

Another former resident of Georgetown passed away suddenly on February 28th at her residence, 496 Montrose St., Toronto in the person of Miss Miriam Woodhall.

Miss Woodhall was the youngest daughter of Ambrose Woodhall, of English descent, and Catharine McLean, of Scottish origin.

The "Y" Column

The "Y" men's trip to Toronto last Tuesday was an occasion long to be remembered by all who were there.

The Toronto group were not quite sure at first just what to expect from a small town group, but before many minutes had passed, and under the leadership of George Mason, they were soon made to realize that the general saying about small towns being slow, held no water in this particular case.

On the top right hand corner of page five in this issue of the Free Press, is an advertisement announcing the beginning of a Sewing Class for girls between the ages of twelve and sixteen.

There will be two games played in the senior group, the team of Ken Hensard will play against the team of Lloyd Robinson.

In the Junior group, the team of McCristall will play against the team of Adamson. These teams are pretty evenly matched and there will be good hockey for all spectators to watch.

To-night is the night for the "Spool Y" Hockey League championships. There will be two games played.

Implements, Repairs Limited This Year

Check Up and Order Now! Urges Ontario Department of Agriculture

The Administrator of Farm and Rural Machinery has announced that on the basis of 1941 sales manufacturers of farm equipment are limited in production ranging from a decrease of 50% on certain types of less essential implements to an increase of 200% in the case of milking machines and cream separators.

Although supplies are limited, implement manufacturers and dealers are hopeful that all orders for spare parts can be filled.

The Department of Agriculture is also urging that farmers saving in behind the voluntary Agricultural War Committees being formed in every county.

These committees are making inquiries in their neighborhood through planning and organizing to secure the maximum use of available labor and equipment in the community.

Great Britain needs more food from Canada. Supplies for domestic consumption in Canada are short.

The maximum in production can only be reached by making the best possible use of what we have in every county, township, community and upon every farm.

LONDON, (CP) Lt. Cmdr. Robin Buckley, blinded while engaged on secret work for the Royal Navy, has been awarded the George Medal.

Benefits Under the Unemployment Insurance Act

With benefits now payable under the Unemployment Insurance Act, all workers within the scope of the Act should understand the procedure necessary to apply for benefit.

Mr. H. C. Suffield, Manager of the local Employment and Claims Office, has furnished The Free Press with a statement of the necessary details.

When a worker becomes unemployed he must get his Unemployment Insurance Book from his employer, take it to the nearest Employment and Claims Office if he lives within easy travelling distance of the nearest office, and deposit it there.

The above procedure applies to all workers who might reasonably be expected to call personally at a full-time or part-time local office.

Persons living in districts where no office has been established and to which an itinerant representative is not sent will file claim for benefit by mail.

Anyone who is not registered with the Employment and Claims Office, state that he is unemployed and that he wishes to register for benefit.

If the claimant is qualified to receive benefit, he must continue to prove his unemployment by mail each week. After the nine waiting days have been completed, if he has not work and the other conditions are satisfied, his benefit will be paid weekly by a cheque mailed to him.

Cannel Coal

People often wonder why cannel coal, a favorite grate fuel, splatters and crackles as it burns with a bright flame. It is formed almost entirely from the little spores of plants which lived millions of years ago.

Red-tailed Hawks are Plentiful in Many of Canada's National Parks

J. Cadesky OPTOMETRIST WILL BE IN ACTON ON Monday, April 6th. Anyone suffering from Eye-strain, Defective Vision or Head-ache should not miss the opportunity of consulting this eye-sight specialist. Appointments can be made with Mr. J. Cadesky, Doctor. CONSULTATION FREE. Office Hours: 10:30 a.m. till 4:15 p.m. (D.S.T.)

The Red-tailed Hawk in summer time on the open prairie is an efficient and indefatigable gopher killer. In the autumn, after the gopher has hibernated for the winter, and the young, inexperienced hawks are seeking easily captured prey, game and poultry may suffer from their attack. In the east the Red-tailed Hawk is practically constant in coloration—brown above and largely white or cream below, with a solidly red tail. The Western bird appears in two distinct colorations, one of which is near-black, but with many intermediates between it and a much whiter opposite extreme, thus making an almost infinite number of colorations. The red-tail plumage that is most common in western Canada is, however, hardly distinguishable from the eastern bird.

This and that

Another Friday, the thirteenth to-morrow.

Maple syrup ought to soon be on the market.

St. Patrick's Day in the morning next Tuesday.

Good Friday, just three weeks from to-morrow.

The little shamrock will be in evidence next Tuesday—St. Patrick's Day.

Have you secured your gasoline ration book yet? Just sixteen shopping days until April 1st.

The Seed Fair in Acton on Friday and Saturday drew quite a crowd from various parts of the county.

Some 65,000,000 cigarettes are now being shipped monthly to the fighting forces overseas by the Canadian Postal Corps.

First one to report seeing a robin this year was Miss Jessie Russell. This harbinger of spring was seen after the big storm on Tuesday.

A chimney fire at the residence of Cecil Cripps on Monday gave the Fire Brigade a run. The fire was soon under control with only slight damage.

In case you forgot, may we remind you again to check on your Free Press label. To those who remembered our thanks for your promptness.

A westbound steamer expected to reach Canada with 906 bags of mail on board has been lost due to enemy action. If the overseas mail you expected doesn't arrive it may have been on this boat.

Black Fever

Cured Five Times as Quickly by British Scientists' Discovery. Thousands of children will be saved from a lingering death by black fever as the result of the discovery of a new drug, dimindino stilbene, or M. & B. 744, by British research chemists.

Black fever is prevalent on the southern and eastern coasts of the Mediterranean, in Morocco, Turkey, Yugoslavia, Palestine, the Sudan and even as far afield as India, Malaya and South America. Most of its victims are children between the ages of one and three, and in some areas as many as 8 in 10 of them die.

The new drug which is injected into the veins, gives better results with a fifth of the dose of other remedies, at one tenth of the cost and in a fifth of the time. One of the first cures, a Hindu seaman from Calcutta, aged 26, was able to leave hospital six weeks after he had been given 400 mgs in 8 daily doses.

NEW AUSSIE WAR PLANTS. SYDNEY, N.S.W. (CP) The state of New South Wales is embarked on its greatest program of industrial expansion since the war began at a cost of £6,500,000 (about \$23,300,000). The new war plants will provide work for 21,000 persons.
