Dear Margaret and Bill:

It is with much pleasure that we, your Ballinafad friends, have gathered here to-night to do you honor upon your recent marriage and to wish you every success and happiness together in the years that lie before you and may they be many.

Although you, Margaret, are not going far from us, we felt that we could not let you leave our community without in some measure showing the esteem in which you are held. You have always been very faithful in the interests of the church as a member of the choir and Mission Circle and have been ever ready to lend whatever assistance you could in the social activities of the community. We trust that you will come back and take part in our activities whenever convenient as a warm welcome will always be awaiting you both.

To you Bill, we wish to congratulate you in your recent adventure and we assure you that happiness will prevail forever as our loss has been your gain.

When day is ended and the world is wrapped in evening's calm—the lover's down the leafy lane go strolling arm in arm; they dream love's gay romantic dreams, exploring magic realms—until the moon comes peeping through the elms... Then homeward to the village where the lighted windows gleam—enchanted in the secret rapture of a lover's dream.

What ardent hopes are harbored in the heart of man and maid—the common earth is holy ground, when brave and unafraid, they view from earth's high peak of faith the years that are to be—and here they make their vows of all eternity... Oh, may they never lose this sense of magic and delight—that clings about them as they walk, enraptured, through the night... No matter what the years may hold of pleasure or of pain, may life for them be one long stroll along a lover's lane.

As a slight token of our esteem and good wishes we would ask you to accept these gifts. May you find much joy in their use.

Signed on behalf of your Ballinafad friends,

ANNIE SNOW,
RETA ALLEN,
RHODA FRENCH,
ERNE MCENERY,

EXCELLENT SALVAGE

LONDON, (CP)—Found in a salvage bin not far from Marble Arch in London: three juicy oranges; two unopened packages of prunes, enough unopened bacon to feed a person for a week.

GREEN WOOD POOR FUEL

Above are pictured the inconveniences which may result from the use of green wood for heating and cooking purposes. Wood which has not been allowed to dry sufficiently causes an accumulation of tar soot in the chimneys, a serious fire hazard. As a stove fuel, it produces an uneven heat which is unsuited for cooking. Going to the source wood fuel shortage, many Canadian households have been obliged to use this inferior wood. If steps are not taken locally to remedy the situation, thousands will find themselves obliged next winter to use green wood in their stoves and furnaces. This will cause countless cooking disappointments, and a waste of fuelstuffs, not to mention the conflagrations which may result from chimney fires.

The Timely Help of Convenient Service

Nothing is more irksome than to be held-up or delayed in a busy season. Seeding, haying, or harvesting are jobs that a man wants to keep at and get done as soon as possible.

The timely help of convenient service is a mighty important factor in cutting down lost time when spare parts or machine service is required. In these days when farmers are being called upon to do more with less help it means a great deal to be able to telephone or call upon a local dealer and get what is wanted quickly and surely.

Established and organized to meet this ever-present need of agriculture for quick service, the Massey-Harris organization of branches, distributing centres, and local dealers has been geared to wartime needs. For complete machine overhauls and for prompt parts service, get in touch with your local Massey-Harris dealer.
