MRS. HENRY AWREY

Failing to recover from the injury received when she fell on the sidewalk a 16w weeks previous, Mrs. Henry Awrey passed away on Mon-Richardson (nee Annie Amol), a day of last week in the General Hospital at Guelph: The mishap occurred as Mrs. Awrey was returning at home from the Sunday morning service at Knox Church. She was her seventy-fifth year.

Mrs. Awrey was before marriage Miss Exther Hill, a daughter of the late Hugh and Eather Hill and was native of County Antrim, Ireland, As day, April 16th, 1943, Mary Ann a young woman she came to Canada Tindall, widow of the late John and for over fifty years resided in Acton and Dublin district. About thirty years ago she was joined' in holy wedlock to Henry Awrey who predeceased her about three years ago. For several years prior to her We love to think of you dear Francis marriage she kept the home for her uncles the Kinnard brothers at the farm near Acton.

Mrs. Awrey was a woman whose home and church were her chief interests and she maintained a kindly and neighborly spirit to all wherever she resided. She will be missed indeed by a wide circle of friends who knew well her loyalty and true friendship. She will be missed too at Knox Church where her regular attendance and loyal support have been an example to all. She was a member of the Ladies' Ald Society of the church also. Two brothers, Hugh and John remain in Ireland and a niece Miss Rachael Hill, at Clande-Easter bunnies are still popular at boye, Man., and a nephew George Hill at Tisdall, Sask.

The funeral was held on Thursday afternoon last with service at the Johnstone & Rumley Funeral Home in charge of her minister Rev. -Tpr. H. Robson has arrived safely Forbes Thomson. Here many friends mired. Interment was made in Fairview Cemetery. The pallbearers were Messrs. J. H. Reid, Donald Waldle, Duncan Waldie, 'W. K. Graham, Duncan McDougall and Wm. Gordon.

MRS. JOHN THOMAS MACK

Following a brief illness Mrs. John Thomas Mack passed away on Friday John Lambert, Frederick Street. She was in her eighty-seventh year.

Ain't What She Used To Be

Mare

When it comes to the subject weather I've been just as big grouser about this long winter anyone. I've hoped along with hundeds of others that each snowstorm would be the last and agreed with myself until I almost convinced myself that this was the longest winter and the slowest spring in history.

And then came recollections. Why just last year on the 10th of April we had a snowstorm that was as beavy as the one this week. I can readily recall a Victoria Day with two inches of slush on the ground and cold and miserable. And twenty-five and Mrs. Heard is accompanying them years ago this coming Dominion Day on the plane. The girls are also dowas so cold that fires in homes and heavy winter coats were welcome if not popular in attending the outdoor functions arranged for the holiday.

These were unusual of course and both you and I can recall more Victoria Days of nice pleasant spring weather and fine days of summer. But I didn't like these unusual days then and don't appreciate them now any more than you do.

That snowstorm of this week all came in one day, disrupted 'traffic and spoiled many plans. As I groused about the weather the radio news came in of more raids on Gernany. twelve locomotives disabled, whole industrial areas crippled; Hitler had a birthday but nothing-to-celebrate. The snow, the inconvenience here in Canada wasn't even a subject at a for grousing. A comparative viewpoint does make a lot of difference.

Ordinarily, you know folks who fish would be anticipating a week from Saturday as a pretty important day. A week can do a lot and perhaps the garden can get a bit spading before that time. But the other morning before the snow came I watched the robins in the back yard and the one worm that came close to the surface certainly took some pulling to leave his place in the soll. But there'll be days after May first too, in which to fish.

Monday morning men across Canada will start offering Victory Bonds to Canadians. The amount asked is the biggest sum Canadians have ever been asked to subscribe, and this after three loans have preceeded it.

Most folks understand about the need for the money and the gilt-edge investment and good interest etc., but the one point seems to have been overlooked of how negotlable these bonds really are. There seems to be an idea that because they are not due until .1954 you can't get your principal until then. True you are but the money is there for you when goes on. needed. You can hang on to your in- There never was a time when jubankers, and they'll tell you all about explains. that if you ask them.

The time to watch-well-your-Victory Bonds is when some slick kalesman comes along and offers you something better. There just isn't anything better or safer for your

-By G.A.D.

FREIGHT CAR SEAL IS RAIL 'ERRENTIAL

Thousands of details enter into the efficient operation of the Canadian National Railways varying from small, inexpensive, yet necessary, freight car seals, to powerful and costly locomotives. To seal the doors of the cars which in 1942 carried the record freight traffic of the National Railways, nearly five million of these markers were required. When a car is loaded and the doors closed, metal seals are slipped over the latches and the doors cannot be opened without breaking the seals. The seals being intact at the end of the journey shows that the contents of the car have not been tampered with between terminais. To unlawfully break a seal is a criminal offense under the Ra'lway Act and, on conviction, the individual is liable to a fine or imprisonment, or both, with or without hard labor. Car seals are made of mild steel coated with lead and it requires 62 of them to make a pound in weight.

PINEAPPLE AT \$45

LONDON, (C. P.) - A pineapple brought home by a naval lieutenant to Groverrod, Sutton, was raffled for £10 (about \$45) and the proceeds given to a fund for war prisoners.

olumn

With the "Y" display only a week off, April 28th and 29th, the gym floor is a busy place with boys and girls practicing for the big event. Our Easter bunnies are all ready to do their bit and are rather anxious to show the people just what they can do. The junior girls' tumbling are going to demonstrate some swelly dif-Skull tricks. They have mastered a great deal of advanced tumbling this year and are ready to show what a year of hard work has developed

The relays that the junior boys are competing in is a demonstration of real gymando training, and I'm sure you will agree when you are them. These relays take some fast running and hard work and really bring out

a sweat on the boys. The senior girls display grace and shythm when they do their folk dance ing a nicely timed group of pyramids and work on the vaulting box. The senior tioys are doing advanced work on the vaulting box and are acting as the horses with the junior boys in the gym called "horse and rider." Don't forget the date folks, Wedneeday and Thursday nights of next

week, April 28th and 29th, at 8 o'clock The Junior girls will be choosing aldes for the relays on Tuesday afternoon and the junior boys will choose sides on Monday afternoon. All children going in these relays are asked

to be present at these classes. MAY GRAY.

Expected Heavy **Demand for Poultry**

Poultry is one meat that will not be rationed when ment rationing gors into effect in May. This means, say officials of the Poultry Division, Dominion Department of Agriculture. that the demand for poultry meat which is already large, will be substantially increased. With only limited supplies of poultry in cold storage, the increased demand can only be met by increased production.

The Department points out that poultry meat can be quickly produced. Small chickens can be developed for market by proper feeding and management in two months. Light roosters up to a weight of 312 to 4 pounds take four months to produce. In the past the usual practice of producers has been to rear one crop of chicks annually, but last year many producers reared two crops, marketing the first early in the summer and the second for the fall and

Christmas trade. An extension of this practice is indicated in the current year if the demand for poultry meat is to be adequately met. -

In meeting the demand for meat, asked to not cash them during the the fact that there is also an unwar period, but if a case of necessity precedented demand for eggs should arises you can get your money from not be overlooked, states the Depart-Victory Bonds at your bank in just ment. LANDOWSKA

Wanda Landowska has devoted a good deal of her life to making the world understand that museums of music are as vital and merchany as museums of art. The world preserves its Titians, Veles, and Hanhaels in the service of urt, and thanks to fandownka, is now beginning to preserve its Palestrings, Eachs, Coupering and Rameaus in the service of music. 'In herself, Landowska is the contemporary of all artists, with an encyclopædic knowledge of all music. She has declared "old music" to be frequently more modern than modern music itself. This great artist was born in Warnaw, Poland, of parents who were both linguists of genius and musical amateurs. She graduated as a plantst from the Warsaw Conservatory at the age of 14, even then attracting the notice of great conductors. Her vills at Saint-Leu-la-Forest, near Paris, was one of the most famous musical meccas of the world from 1988 on. Since coming to New York-in 1941, she has given several radio recital series. She is now being heard from Toronto every Sunday night at 10.15 p.m. EDT., 11.15 p.m. ADT, in the premieres of seven Philipp Emanuel Back concerts for harpschord and string orchestra.
