77 Respond to Appeal for Blood Donations (Continued from Page One) A. Mason, Mrs. W. H. Clayton and Mrs. A. E. McLean. While no definite date is pointed out for the next clinic it is pointed out that a minimum of 100 are needed and 120 should be on hand for the second clinic to make the visit of the unit advantageous. The Y. M. C. A. with its fine gymnasium and other facilities made an ideal spot for the clinic and now that equipment has all been provided future clinics should be much easier to cope with.

The first clinic went off without trouble. Most of the donors report very little effect felt from the contribution and many of them were back at work again before the noon hour. GEORGETOWN

Principal of Georgetown High School from about 1932 to 1936, Alexander H. Gibbard, died in Vancouver, B.C. on June 24. He was well-known and liked by many townspeople, and his passing will be noted with regret. Sgt. Jack Smith, R.C.A.F., only son of Mr. and Mrs. Vernon A. Smith of Hamilton and grandson of Mrs. Collins, Sr., at Georgetown, is officially listed as killed while on active service and buried at Krefeld, Germany. Word came June 21st. The whole crew failed to return to their base, following a bombing raid over Dessau on Sept. 16, 1942 and have been listed as missing since that time, with the exception of one, John Neudor of Hunter Bay, who also was located at Krefeld.

AWZ Jean MacKenzie, home on week-end leave from Rockcliffe, was guest of honor at a presentation on Saturday afternoon, at the home of Mrs. J. McDougall, when the staff of Knox Sunday School and members of her former class, the president and treasurer of the W.M.S. of Knox Church, gathered to show their appreciation of her service in the Sunday School. Rev. C. C. Chalmers called on those assembled to order. Miss Jean Martin read the address and Miss Janet McDougall made the presentation of an electric iron.—Harold.

UNFAVORABLE COW ATE SUGAR COUPONS When Edis Hutchison, R. R. 1, Shanty Bay, went to get his mail the other day, he found "Bess" had nosed over the mail box and swallowed the family's sugarcane coupons. Nor was that the damage done to the Hutchison's mail, for the cow had chewed up their copy of The Barrie Examiner, too.

More Than The Old Gray Mare

Isn't What She Used To Be. Most rationing may be an excuse, but actually even in wartime one must break away once a year for a few days from the regular run and as I went fishing last week. Perhaps it's a bit appropriate that the fishing story of to-day should come under this heading. When some of the ex-professionals of other years into the northern wilds are recalled and the changes of fishing to-day—in what used to be and a lot of us now find that it isn't.

Actually I find it difficult to put in full days at just fishing with no intermissions. Now the intermissions are longer than the fishing parties. It was the same congenial party again, consisting of Messrs. Amos Mason, Harold Clarke of Georgetown, Wm. Duncan of Toronto and Harley Harrison acting as the host at his summer cottage on Lake Bushong, in Halton County.

There was the difference however that instead of a guide to do the cooking or the engine Mr. Harrison to arrange the food for a group of extra keen appetites it was his bachelor's job. We will say that co-operatively it worked out all right and five men have an even greater appreciation of the work that Mr. Harrison had had years.

But we went fishing. We fished from full evenings in Lake Bushong and the total catch was eleven lake trout, the largest tipping the scales at eight pounds and the smallest just right for the frying pan. We'll tell you that the honors for the biggest one went to the Georgetown member of the party, that ex-Warden A. Mason had a fine exhibit for his grandson, that the trolling theory of the Toronto expert, Mr. Duncan was most profitable; and the host was most considerate in the amount he loaned the lake stock and I didn't do too badly myself. That's it to a couple of authors.

Ontario is beautiful in June. Clover fields were in bloom last week-end, the hay crop was just starting. There are plenty of sections in which crop prospects are not bright. There are many fine fields and there is stock on thousands of hills. We passed no better sections than those from this district.

Highway traffic and tourist trade have been greatly curtailed. Where hundreds of American cars were seen a few years ago not one was met on the trip. At summerland the car is parked at the cottage only to be used on the return trip. Gasoline is for a very limited amount of pleasure. There are few of the hunters and gardeners and there is stock on thousands of hills. We passed no better sections than those from this district.

Had a visit this week along with many other friends from an old school mate. Mike O'Brien, now in Chicago with the Underwriters Laboratories. He was anxious to visit again the scenes of his boyhood, particularly the old school buildings and grounds and it never was easier to visit them as they never looked better. We who stay in Acton get a great deal of enjoyment when former friends return. Invariably we notice that they find the years have brought many changes and the improvement in all parts of the community is quite noticeable.

That's all for this week. BY G.A.D. AGRICULTURE IN AFRICA CAIRO, (CP)—Agricultural machinery, including tractors, plows, barrows and harvesters have been conveyed to East African territories to help in a food stuffs and raw materials drive now in progress.

Freddie Cunningham Lost His Life In Fairy Lake

(Continued from Page One) not until three o'clock that the boy was found missing from the crowd and the search started. Half an hour later the body was brought to the surface. Just Saturday morning the raft had been repaired at the park and the Municipal Officer Harrop had attached a new rope to the small raft to hold it close to the shore. Besides his parents, one sister, Dorothy, is left. In their sad and sudden bereavement this family have the heartfelt sympathy of many friends. Freddie was a likeable boy with a smile for everyone.

The funeral was held on Thursday afternoon with a service at the Johnstone & Ramsey Funeral Home conducted by Rev. E. A. Brooks of St. Alban's Church. Many friends gathered in sympathetic tribute. Six of his boy friends acted as pall bearers. Ronald Salt, Emerson Anderson, Lorne Arrie, Martin McCutcheon, Melvin Cunningham and Bert Cunningham. Interment was made in Evergreen Cemetery. Flowers bearing were Joyce Kough, Leo McCutcheon, Florence Colman, Ronald Colman, Jane Elliott, Betty Curtis, Philip McCutcheon, Michael Korzhovnik.

Among the floral tributes which also showed sympathy of many friends were the following: Anglican Church; Rosalie and Florence Coleman; Aunt Lizzie and Uncle Will and families; Mr. and Mrs. A. Griffin and Emerson; George, Bob and Fattie Somewhat; Curry, Roy and Henry McFadden; Dorothy; Sussey and Bill Forest; Mr. B. D. Large advertisement for Hydro-Electric power. Features a tall transmission tower and the slogan 'A Symbol of POWER IN PEACE AND WAR'. Text includes: 'They and night, throughout Ontario, electrical energy travels with the silence and speed of light. Hydro-Electric generating stations use in essence, thousands of miles of transmission lines as highways. Ontario homes, farms, schools and factories use its destination. In our Province, wherever supplies and tools of war use in the making, Hydro electricity keeps wheels turning of war-time machinery.' 'The need for Hydro power has vastly increased. Through foresight and planning from the birth of Hydro, its program has been one of progress and expansion. Today 90% of Ontario's industries are electrified. Where plants are built or enlarged, Hydro supplies low-cost electricity to light buildings and to power machines. Conservation of this vital element is non-negotiable today. It is to be used in efficient ways. Hydro to meet every war-time emergency.' 'The familiar transmission towers... symbol of Hydro power are constant reminders of the men whose organized effort makes Hydro service possible. Think in a round-the-clock... round-the-clock duty... for weather and fuel... in peace and war.' 'Electricity is the slender street of mankind. After the war, in the city, on the farm and in industry, Hydro will be needed—and available—in increased quantities to make human life lighter and more brilliant. ELECTRICITY IS A WAR WEAPON Save it!
