Hello Homenukers! Which came! first, the chicken or the egg? It's an old, old question and no one has ever found a satisfactory answer. Propies of ancient times believed the and regarded it as a symbol of crea-The Christians borrowed the secret of life to be within the ext idea and made it part of their Easter festivities, but they made it emblemutic of the Resurrection.

The custom of colouring eggs appears to be exceedingly ancient. Eggs were dyed in the days of the Persian and Gauls with the purpose of imitating the colour of growing original custom was adopted by the Christians, eggs were coloured red to denote the blood of Christ. Since those early times the custom has for its serious meianing and is now practice merely for decorative purposes or to amuse children. Children's hursery rhymes and timely incidents are associated with the markings which are transferred to the cooked eggs for Easter festivities. Yes, there is plenty to do-even if one had no more to do than fill out forms. If the war goes on much longer some of us may need a secretary. There are forms for this and forms for that until one finds oneself swearing about something or other nearly every day. Of course ! menn "swearing" in a legal sense Lust week I spent the most of one afternoon tilling out forms of one kind and another. Then I had to chuse around town to find someone to swear to what I had sworn. It must have been an officials holdiday, or something, for none of those I wanted to see were around town. Now I think we are through with forms for a little while. We have signed for new tires, filled out cards for food ration books; gas ration category, special gas ration category; furnace guarantee; car 'ticence; driver's permit and radio licence. If Ottawa hasn't got us earmarked and docketted by now, it certainly should have. The only thing lacking is tinger-printsand, who knows, the day may come where they may be required of us too. We have no secrets from the government, but has it secrets from us! However, if forms and suchlike help win the war, we'll go on filling them. What say you, neighbors?

We can't thing of Italy and the invasion yet to be and grumble about our own little inconveniences, car we? Whenever you see the sign of Martin-Senour, there will be found the paint of endurance and longer lasting beauty. It is the sign which in and breath welcomes Spring and the chance to beautify as well as to do the patriotic job of protecting property!

We Can Do Better

TN the past, wars have brought

In one way or another most increased costs have been ab surbed and very few passed on to the consumer.

Holding the ceiling has been a struggle. But the results have been worth white. From 1914 to 1919 prices rose 60%. From 1939 to 1944 the rise has been only 18%.

This effort of the Canadian people has been successful enough to be noted in other countries.

But we must continue to hold the line. We need not let history repeat itself. We can do better.

We can all help-

By cutting down unsecessary pending, and buying Victory

By not hourding or buying block markets

By not taking adjustage o the war situation to press claims for higher prices, higher weges, higher rests or higher profits.
