GENERAL DRIVE TO GATHER CROP

CANBERRA (CP)—It is when the crops are ready to harvest that the manpower shortage in Australia is felt most, and in many districts shopkeepers, garagemen, solicitors, teachers and pupils hurry home from work, don ancient garments and sally forth from the towns to help the farmers until dark.

This is also their week-end occupation. They stook hay, pick fruit, hoe thistles and gather flax, pick peas, dig onions and potatoes, cut firewood, and even build sheds.

More FOOD NEEDED As Victory Draws Nearer

As the United Nations invade the Axis-dominated countries, famished populations as well as our fighting forces must be fed. The need for food increases as victory draws nearer.

Canadian farmers are confronted with a heavy task, which may be made easier through the use of bank credit. The Bank of Montreal stands ready to make every reasonable loan which will promote an increase in food production in the world emergency.

If you need to borrow to improve your production of food, do not hesitate to talk with our nearest branch manager.
