CHEAPER THAN PENCILLIN

Of Interest to Women

THE MIXING BOWL

By AHHR ALLAH للجعمان وتليثا

Hello Homemakers! Almost every woman is a collector at heart, be it teaspoons, china, glass or antiques; but there is one collector's item which te altogether too popular left-over

Left-overs must be stored properly If they are to be used effectively at a later date. "Covered and cold" is the rule for keeping foods attractive and neurishing. If tidbits are congenial, store them together potatoes, peas and carrots can all go in the same covered dish. Keep a jar in your electric refrigerator in which to store the liquid that vegetables have been cooked in so that you may use this liquid to add flavour and vitamina to soups ot cream sauces

USING LEFT-OVERS 1 Try combining a few appoinfuls of left-over vegetables with a white sauce or a tomato sauce or a tin of for active duty. Instead of that they the fellowship is named, is President condensed soup to make a delicious

thing we forget. Put diced vegetables almost three months. Opening it tion throughout Canada. Compara- Scales, 2000 lbs; Extension Straw in a square of pastry and fold over, looked like an impossible task but tively little research has been carried Pipe, 16 ft; M D 121 Walking Plow;

THADE WITH MICHOD

Help The Red Cross

The Continuing Job of the CANADIAN RED CROSS

THE EUROPEAN WAR is nearing its end. That is obvious, Many people, including members of the Canadian Red Cross, have asked us what our job will be if the war should suddenly end.

We reply that we can only see ahead greater responsibilities than ever. Both in Europe and at home the work of the Red Cross must go on. The war will not bring an end to suffering and want, to the care of our Prisoners of War, to our Wounded, and to the millions whose homes and way of life have been dislocated by strife.

We therefore feel that every Canadian has a right to some knowledge of what our responsibilities will be in the event of peace, and just how we propose to discharge those responsibilities. We treat each of our main activities under its respective heading.

PRISONERS OF WAR-With the end of bostilities our Prisoners of War will automatically cease to be Prisoners. Chaos and breakdown in Germany will probably ensue. The German state will cease to care for them. They will become wards of the Allied General in command of the Occupation Forces, I camportation will be difficult, and it will probably take a minimum of hix months to repatriate the 2,100,000 Canadian, British and Athed Personers in German Campt The need of Prisoners', Parcels and Medical Supplies will be doubled. They will be distributed by the Allied Command, and will play a vital part in teeding our men pending repatriation. After the magnificent job we have done during the last five years we cannot let our boys in German prison camps down. Our Prisoners in the bar l'ast will also be a continuing responsibility. We must carry on until every man is back home. --

EUROPE'S STARVING MILLIONS - The job of feeding Lurope's hungry millions is staggering in its immensity Over 17,000,000 humans have been torn from their homes. Many have nowhere to rest their weary heads. They are starving. Malnutrition is the rule rather than the exception. There will be an urgent need for food, clothing and medical supplies. The Red Cross in these atricken countries are utterly dependent on their sixter societies for supplies to meet these dire needs. Can we let them down? The Canadian Red Cross must go on!

RED CROSS WORK WITH OUR ARMED FORCES- L'nui the last Canadian soldier has left Europe and has been discharged from hospital, there will be important work for the Red Cross to do. How long this will be we do not know, but one thing we are certain of and that is that every Canadian at home will want to make sure that our hoys will be as well looked after with the coming - of peace as they were in war. The care of the wounded both in Europe and Canada is a permanent responsihility which we cannot evade. No Canadian wants to evade it. Here again the Red Cross must go on!

SLOOD SERUM SERVICE - Red Cross Blood Serum has saved countless lives in battle. The end of the war will see-the end of painful war wounds. The demand for serum on the fighting fronts, except the Far Fast, will cease. But the Red Cross Blood Serum Service should be continued for civilian use. If the Red Cross makes it freely available it can ease thousands of the lives of our own civilian citizens when war has ended.

OUTPOST HOSPITALS, CHILDREN'S CLINICS AND DISTRICT MURSING SERVICE-This is part of the Red Come service to civilians in Canada. It is carried out in the sparsely settled parts of the Definition, and it must go on.

PIRST AID AND HOME NURSING SERVICE - One of the buest peacetime activities of the Canadian Red Cross. It is truly a worth-while work and must go on.

TEACHING CANADIANS HOW TO BE BETTER NOURISHED -There is important work yet to be done in the matter of Nutrition. Thousands of Canadians are not eating the proper food. Their health could be improved immeasurably. The Canadian Red Cross has undertaken to educate where education is necessary. This work must

PREPARATION TO MEET EPIDEMIC OR DISASTER - In case of these twin evils the Red Cross is always first on the job. For this reason alone the Red Cross must go on.

JUNIOR RED CROSS-A' great crusade of 900,000 Cana-· dian, whool children for health and good citizenship. A work that must go on.
