# WOOD'S MILK COOLER Cools milk below 50° in one hour

DOWN SHE GOES!

With a Wood's Electric Milk Cooler you get Fast, Dependable Service at all times, the type of cooling that up-to-date dairy farms have to have. Thousands of Canadian Dairy Farmers use the Wood's Cooler for this reason.

\_ FAST Rapid circulation of the water is the reason for the high efficlency and fast work of the Wood's Milk Cooler. This rapid circulation of the water carries the heat away from the milk as fast as if comes through the can-and carries it to the coils quickly, preventing

ice formation which would slow up the cooling process. This principle makes Woods the fastest and most economical cooler. Standard sizes in Woods' Automatic Coolers-4 cans, 6 cans. 8 cans, 12 cans, 18 cans, 24 cans. They are factory assembled, tested hefore shipping and are delivered complete in every way, including

6 Can Automatic Cooler with positive circulation \$284 racks, baffles and necessary switches. Wiring installation on all models extra
