Chronicles of... Ginger Farm

Written Regularly for The Acton Free Press by GWENDOLINE P. CLARKE

Officially, this is the last day of the year. But there is a fly around here that thinks it is the first day of spring. It's a noisy little beast, flapping around under the lamp shade. "You had better look out, young fellow, or first thing you know you'll get a dose of D. D. T." I suppose I should give him a dose anyway, but it hardly seems worth while hunting the spray gun for just one fly. Or is it? Supposing I let that one fly live, will its progeny run into the hundreds or the thousands? Does anyone know? However, I am not really worried thanks to D. D. T. Come to think of it, one might almost call the release of D. D. T. one of the highlights of 1943.

1945 what a year! Do you remember the snow last winter and the rain last spring? Remember V-E Day, V-J Day, and after that the boys coming home? Do you remember how glad they were to be home, and how confident they were that a grateful people and government would give them a square deal?

Thank goodness, Partner has killed that fly. Now that's a funny thing I never even thought of swatting it.

And now let's take a look at what 1946 has in store for us or at least what some folk think is in store.

There is the weather, for instance. We are supposed to have a colder winter and more snow than last year. The summer and spring are to be wetter and cooler all that because we are at the tail end of an eleven year weather cycle.

However, prophets are like doctors they don't always agree with one another. So I guess we can leave the weather to look after itself, take what comes and make the best of it.

And then last Sunday we were listening to two religious broadcasts—one right after the other. (It wasn't nearly so all-pervasive listening to the radio as it would have been walking or driving to church.) The first speaker said he was sure this country was in for a period of prosperity such as the world had never known. The second reminded us of the fallacy of "crying pennies, when there is no peace," that in some quarters there were already rumors of a third great war, that the set-up of a world wide government was doomed to failure and that the Bretton Woods agreement would prove to be a wash-out.

Farm and industrial reports are also contradictory. We have been told there will be a steady market for farm products for the next five years; but then it is also rumored that there is bound to be revision of the present subsidy system. I expect a lot of people have forgotten that the government is paying a subsidy of two cents a quart on every quart of milk that is sold. How long will that be continued, and if it is removed, what will happen will the milk go up in price or will farmers have to take the loss? I don't know the answer, only the powers that be in Ottawa can tell us that and I doubt very much if they know either.

In trade circles various controls have been lifted but ceilings still remain in effect which means manufacturers will not bother making a cheap line of goods because there is too little profit. It pays them better to make higher priced articles and because, when people have the money and want to buy, they will buy, no matter what the cost and that old bogey "inflation"!

As for instance in the case of sugar. We have been told that sugar can be bought in countries other than Cuba that there is no need for sugar rationing in Canada. But there is just one snag. It would cost twice as much. Now do you suppose that little matter of price would bother some people? There are a fair percentage I am sure who would say "To the dickens with inflation! We have the money, so let's have the sugar!"

The pity of it! If only we, as a people, could be less selfish. If only the Golden Rule were more generally applied, there would be no need for world government or conferences regarding atomic energy. Surely we can wait for sugar, and other things, until some order has emerged from the present chaotic conditions.

MAJ. McINTYRE HOOD TO ADDRESS JUNIORS RALLY AT MILTON

Halton Junior Farmers are holding a special rally in the Milton High School auditorium on Friday, January 11th at 8:30 p.m. Major McIntyre Hood, editor of the Junior Farmer News, is scheduled as guest speaker. The program also includes musical numbers and will conclude with a short informal dance, the music for which is being supplied by the Bennett Orchestra. All rural young people of Halton are invited.

The marriage of Gretta Lois Cunningham, daughter of Mrs. and the late Mr. John Cunningham of Coksville to Harry Tilbury of Denfield, Ontario, son of Mr. and Mrs. Tilbury of Yorkshire, England, was solemnized on December 27th at the home of the bride, "Stonegyle", Coksville by Rev. G. Banks of Erimole. Miss Nancy Buchanan of Toronto played the wedding music.

Given in marriage by her brother, Mr. J. Norman Cunningham of Acton, the bride looked charming in a turquoise blue gown with headdress of matching feathers and corsage of sweetheart roses. Mrs. A. P. Ward, sister of the bride, as matron of honor, looked lovely in a gown of dusty rose with matching feather headdress and corsage of tallman roses. Master Michael Ward of Coksville acted as ring bearer and Mr. S. Ellison of Smithville assisted the groom.

A reception was held at Crofton Villa, the bride's mother receiving in a navy blue gown with corsage of carnations and fern. Later the bride and groom left for a trip to Montreat.

In the report last week of the Acton Continuation School "At Home", Helen McLellan's name was inadvertently omitted from the list of those who received certificates of membership to the Never Late, Never Absent Club.

Dr. S. A. Johnson, who practised in Acton for several years has recently been appointed Professor of Surgery and Anesthesia in the Department of Dentistry of Toronto University. Dr. Johnson is recovering from an operation and will assume his new position as soon as he is well again.
