Calm and peaceful they are sleeping, Sweetest rest that follows pain. We who loved them sadly miss them, But trust in God to meet again. Sadly missed by Mother, Dad & Ken

SPELVOGEL—In loving memory of our mother, Mrs. Mary Spelvogel, who died April 18th, 1945.

Her thoughts were all so full of us, She never could forget. And so we think that where she is, She must be watching yet. BETTER EDUCATION

A farmer and a professor were sharing a seat on a train. It was getting lonesome so the farmer started a conversation and they soon became a friendly pair.

"Let's have a game of riddles to pass the time," said the professor. "If I have a riddle you can't guess, you give me a dollar, or vice versa."

"All right," replied the farmer. "But as you are better educated than I am, do you mind if I only give 50 cents?"

"O. K.," said the professor. "You go first."

"Well, what animal has three legs walking and two legs flying?" "I don't know. Here's a dollar. What is the answer?"

"I don't know either. Here's your 50 cents," replied the farmer.

BIRDS ARE GLOBE-TROTTERS

The aeroplane is rapidly converting man into a cosmopolitan traveller—a status long enjoyed by the inveterate travellers, the birds.

L. L. Snyder of the Royal Ontario Museum states that some of our common shorebirds nest within the Arctic circle in the summer, and yet, in our winter, are to be found at the opposite end of the earth. The Least Sandpiper, for instance, a sparrow-sized bird, may nest in northwestern Alaska in summer and spend the rest of the year in the tip of South America. Very great distances are travelled also by certain plovers and sandpipers.

Distance is not the only remarkable feature of the annual flights of shorebirds. As a rule, adult birds migrate separately, departing before the young birds.

Our shorebirds may visit Eurasia, an occasional strays turn up in England. Some which nest in the Aleutian Islands of Alaska may regularly go south via the Asiatic coast.

YORKTON HOPES FOR TEEN-TOWN

YORKTON, Sask. (CP)—The Yorkton physical fitness organization has formed a club known as the "King of Clubs." More than 175 teen-aged boys and girls are members.

Director Lindsay Holt said that it is hoped to form a teen-town next fall. Teen-towns elect their own mayor, aldermen, police chief, city engineer and city clerk. Mr. Holt said that in cities which now have teen-towns, juvenile delinquency has dropped by 50 per cent.

Teen-agers also have a weekly swing session with their own orchestra and program over the local radio station. Dances and socials are held, chaperoned by adults and close at 11:30 p.m. A well-equipped canteen at the centre provides refreshments.

SPENDING ON THE GIRL FRIEND

Some girls are said to complain of the boys who will not spend anything on them except their time. It is also suggested to the girls that they do well not to make too heavy demands on the boy friend's pocket. He may have only a limited amount of money at his disposal.

There is a golden mean between spending and saving when a fellow takes the girl friend around. If he throws his money away too freely, that is in some cases a sign of a wasteful disposition. If he holds on to his money too tight, that also is not so good a sign. Many girls make themselves popular by suggesting that they do not want the most expensive entertainment when they step out together.

YORKTON EXTENDS BUSINESS SECTION

YORKTON, Sask. (CP)—This eastern Saskatchewan town is on the edge of a post-war boom. With 13 business firms definitely building new premises or enlarging existing buildings, with 35 new homes put up in the last year and with rumors taking in at least one and perhaps two new hotels, Yorkton's city council appears justified in preparing plans for enlargement of the business district.

In addition a large Canadian industry has made enquiries about the possibility of establishing a pickle plant to bottle fruits, garden produce at some prairie community and Yorkton has put in a bid for the plant.

EDUCATIONAL FILMS SHOWN TO SCHOOL SECTIONS OF NASSAGAWEYA

Members of school sections No. 5 and No. 9, Nassagaweya, enjoyed the very pleasant and instructive films shown last Wednesday afternoon and evening in Bloombury School by Mr. L. Heathearting of the Federation of Agriculture. These films are produced by the National Film Board and are especially appealing to rural people.

Mr. Maxwell Nellis was chairman for the evening session when the following pictures were shown:

"Spring on the Farm" showed farming in England during the past war. By combining science and common sense, and groups of farmers helping one another, farmers in England were able to greatly increase production regardless of shortage of man power.

Much constructive discussion followed the showing of "Power on the Land." In this film, electricity, the efficient and capable servant of man and woman, took the drudgery out of one farm family's work and brought comforts into their home, inducing their young people to engage in the oldest known occupation, farming instead of leaving the farm for the city, the only place those conveniences were enjoyed a short time ago.

In "John Bull's Own Island" many beautiful and historical scenes of England were shown, including their coal mines, some of their great industrial centres, banks and offices, Buckingham Palace, London Bridge, Thames River and many bombed areas. One of our returned boys was in the audience and followed the picture keenly, recognizing a great many places shown on the screen.

Physical fitness was the theme of "Physical Exercises in Sweden" when hundreds of boys and girls were shown doing gymnastics in perfect unison. One set of bars had boys from seven to seventy-five years of age performing on them and while the above cannot be said of the ladies, the younger women certainly performed wonderful athletic feats.

Two Cases Heard In Milton Court Yesterday Afternoon

Mrs. G. Restivo appeared before Magistrate K. M. Langdon charged with offering goods for sale above the ceiling price and not having prices properly shown. She pleaded not guilty but was convicted on both charges, and fined \$75.00 and costs.

Lillian Dorton, of Burlington, was convicted of causing a disturbance by swearing and impeding pedestrians and of being drunk. She was sentenced to three months in the Mercer Reformatory.
