Mrs. A. B. McLean

Acton Fair is just five weeks away, October 4th and 5th.

Mr. R. W. Lowrie is one of the judges on horses at Georgetown Fair this year.

Yes the children are back at school again, with the usual five day week and the same hours of work.

Fair Books will be distributed next week. For hours and details see the announcement on page six of this issue.

Light frosts have been reported on two nights this week and on Tuesday there was a brilliant display of northern lights.

Preparations are being made for a great day in Acton September 1st when the community will give its welcome to those who served in the war.

Children found a live prong deer horn on the farm of Mr. A. McLean on the Second Line this week. Must be some large deer in this district. The horn is on view in the Free Press window.

LIFEROY DERONAIRES COMING TO ACTON PARK PAVILION

Attention! Here comes the Liferoys Deronaires, the dance band exclusively for the younger sets, coming to Acton. Lever Brothers, the makers of Lever's Soap offered to send the Deronaires to play for the Acton Y.M.C.A. Club dance to be held in the Park Pavilion on September 23rd.

In the midst of a swing around the country, this amateur outfit of experts in swing and swing rhythm is soon setting the scene on fast for two groups. Whether it's swing or fox music, it's all the same to the Liferoys. Deronaires and the Horizons are promised to be a great night of some very special sessions.

Any questions from the dancers will be answered by the club for your own comfort. All fees is the first bus. Deronaires are invited at no expense whatsoever to the Y.M.C.A. Club.

INVITATION FOR FATHER

Obituary

SUB-STATION CEREALS

Sixteen Illustration and District Experimental Sub-station farms in Manitoba, supervised from the Dominion Experimental Farm at Brandon, grew 1,000 acres of wheat in 1945. This averaged a yield of 24 bushels per acre, produced at a cost of 53 cents per bushel. The barley crop totalling 650 acres gave an average yield of 30 bushels per acre at a production cost of 41 cents per bushel. Oats on 500 acres averaged 47 bushels per acre, grown at a cost of 30 cents per acre. Costs included all cash and non-cash expenses that should be included in crop production—use of land, buildings, taxes, interest, labor, man, machine and horse, custom work, seed, twine, fertilizer, heat, insurance and general farm expenses.

Cloudy weather failed to dampen the enthusiasm of Acton softball fans on Tuesday night when Force Electric met the Canadian Wool in the first tilt of the best of three for the distict championship. Behind the hurling of "Dude" Lindsay, the Canadian Wool emerged on the top side of a 10-9 count. The game was called in the 8th inning on the entry of darkness and we understand the Force team have lodged a protest, explaining they played the tilt under the impression nine innings must be completed.

Graham was moundman for the Force team and allowed few hits in all four frames. Home runs were belted by O. Macsley with 2 and Bruce with one.

While we glanced the crowd over we saw quite a few baseball fans who now follow the softball seems Percy Woods's name is synonymous with all kinds of ball, field or soft.

While we're on the subject of baseball were you down at the hard ball diamond Saturday afternoon yet? A team of boys from Weston played the local boys with the visitors taking the laurels by a 12-9 score. All the boys are under 14 years of age so suppose to be here and some of the old timers predict Acton will have anything to worry about as far as baseball players are concerned. A series has been formed between Acton, Georgetown and Weston and the locals are to play Weston in their home park on Saturday. Good luck, boys!

New rules for hockey, introduced by Canada, have been adopted by the rules commission of the "Ligue Internationale sur Glace."

The international body at a meeting attended by Hanson Dowell, president of the Canadian Hockey Association, decided that future games shall be 20 minutes periods with two instead of three lines of attack and with each team limited to a total of 12 players.

Now the barbers invariably comes up with a morsel of interesting information. The other day, in his usual "conversational" manner, he enlightened us as to how it came about that three places and perhaps became the custom in sports events.

It seems it originated in 1669 when Robert Ambres, sheriff of Chester, England, was to donate a silver ball to the winner of a horse race. The silversmith blundered in making the first ball and one herald found and cast a second. That too, was faulty, but a third was perfect.

Came the race day and Ambres had one perfect silver ball and two that were not. He solved the problem by presenting the good one to the winning horse's owner, the second best to the second owner and the other to the third horsemanship.

Barbers know so much!

DO YOU KNOW THAT

Whole wheat bread is richer in vitamins and minerals than any other bread.

Every child should have one quart of pasteurized milk every day, every night.

Meat or fish should be included in the daily dietary.

Liver, preferably pork liver, once a week is essential in any normal diet.

Vitamin D in cod liver oil prevents the occurrence of rickets in infants.

Vitamin C is essential to the diet and is found in tomatoes, oranges and grapefruit.
