The blow was great, the shock severe. We little thought the end was near. And only those who have lost can tell The pain of parting without farewell. More each day we miss you, Friends may think the wound is healed.

But they little know the sorrow That lies within our hearts concealed. Ever remembered by Edward (Blair).

ALLEN In sad and loving memory of my dear husband, Rollie Allen, who passed away so suddenly September 15, 1943 and my dear son, Lloyd Allen, who passed away July 8, 1946.

Lacrosse is a game that few Actonians, especially the younger fry, have had a chance to enjoy. This is strange as this sport is Canada's national game (despite hockey claims) under an act of parliament and stranger because we border the very places where Lacrosse is king in summer months such as Brampton, Ferris, Orangeville and Nepean. But we understand that just such a chance to see this exciting in action will be forthcoming in the arena when an exhibition tilt will be played between Ferris and Orangeville as a Fall Fair feature. If you want to see plenty of action, be sure to be in the front row when this comes off.

The fall season brings one thought of field day when all the school students are out to outrun, outjump and outwit less fleet companions and carry off those much coveted ribbons so they might be crowned athletic king or queen, whatever the sex may be. Evidence is noticeably already of strained muscles and in need of help in the crowded and the students from the public school get into shape for the big day. Have even heard they might be a tri-school competition between county schools.

This week saw the softball (Indo-completed and Canadian Wood carry off the trophy donated by the Acton Athletic Association after eliminating the Force Electric team in three straight games. Softball was a feature attraction at the park this summer and many fans were here every Tuesday and Friday sitting on the rails on the ground, as fansy as usual, rooting for their favorite entry.

Everything seemed to turn table in the league. In the opening game of the season, Baxter's and Bowditch's seemed to be the teams to beat but after a little ball banging the Force Electric outfit were boys. Then in the games that count the boys from where they handle wood certainly pulled it over the currents from the Force plant. So we take our hats off to the Canadian Wood softball champions of 1946.

Am I getting a little ahead of myself when I mention hockey or do I seem optimistic as to our future in this game when I question what status our senior entry will enjoy. Items have been running around the local grape vine that we will enter an Intermediate A entry. That seems only a reasonable conjecture in view of the fact that Acton Tanners have had Class B honors back before the war and it would be nice to try for a different trophy. There's another advantage to a hockey fan, you go in with your eyes wide open, expecting to meet semi-pros who are not trying to pass off as amateurs on their off nights in the "B" groups.

A baseball fan decided to spend his afternoon at the race track because his favorite ball team was on the road. Not much of a horse expert, he went in a big way for the attractive long shots and placed \$10 on a 100-to-1 nag.

Amazingly enough, his steed started off fast and the baseball fan almost went completely berserk when the nag was still leading in the stretch. He waved his arms and madly shouted encouragement to his horse but then the favorite began to bear down. Closer, closer came the favorite and, as the horse approached the line, the short shot began passing the long shot.

His face red, his veins about to burst, the ball fan waved his fist and screamed hysterically at his panting nag: "Slide, you bum, slide!" Baseball Magazine.

Canadians, who have been coaxed of the N.H.L. walks since those heated days of war when it was an art to know how to refrain players and keep them out of drafts which blew hither and thither seem to be less concerned with material or replacement problems than any rival outfit. Leafs are undertaking a complete overhaul job. Wings and Hawks are limping off withered limbs. Bruins will go with considerable seasoned wood. Rangers are likely to come up with another Coyev's army because it has been proved they do not require talent to sell out in New York.
