MILTON

A coroner's jury last Tuesday afternoon attached no blame to any person in connection with the death of Alfred Charles Cooper, 25, Galt, who died while on his way to Milton Hospital after falling from a moving train.

Mr. Ago and Mr. Starnie of the engineering firm of Gore and Starnie were present to discuss with Council the proposed sewage system for the town of Milton. The figures given by their report were as follows: total cost of sanitary sewers, \$200,000; pumping stations, outfall sewers and force mains, \$26,000 and \$66,000 for disposal plant. There is a total of 37,400 linear feet of sewers needed. The disposal plant plans call for complete sewage treatment. The first step in connection with the sewage system is to get the approval of the Department of Health on the proposed system. Council unanimously requested the engineers to make application to the Department of Health for this approval and then the next steps to be taken will be proceeded with. —Canadian Champion.

Halton Seed Fair and Bacon Show Well Attended

W. Leslie Georgetown Shows the Champion Side of Bacon — Other Prize Winners and Trophy Holders — Prominent Speakers Address Meeting Urging Maintenance of Quality and Quantity of Production.

Nearly 400 people from all parts of the county were attracted to the Halton County's 12th annual two day Seed Fair and Bacon Show held at Milton Town Hall last Friday and Saturday.

On Friday the 123 entries in the Seed Fair were judged, and placed, while the top 10 in the Bacon Show, which attracted 45 entries, were selected.

Dwelling on Canada's bacon industry, W. B. Watson, director of the Ontario Livestock Branch, Ontario Department of Agriculture, warned swine raisers that Denmark would certainly be an opposition to regard in supplying bacon to Britain in a few years time. He said there could not be a serious decline in the export of farm products during the next two or three years, explaining that during the German occupation of Denmark, they had stripped the country but had not seriously damaged it as far as agricultural products were concerned.

Declaring that Great Britain had increased her production from a point of one third to that of two thirds of what is required to feed her people, Mr. Watson said Canada had supplied the bulk of the balance of agricultural products. "If we wish to retain the position of supplying the balance required, we will have to continue our volume and keep it," he declared.

W. S. McMullen, Federal Livestock Branch, explained it was certainly a difficult task to judge the ten sides of bacon on exhibit. He said that Halton maintained an excellent position in raising grade hogs, adding that of the 45 entered in the show, 29 were of grade A and 16 of B1 grade.

Harold Scotchmer explained grading of hogs and outlined the faults in an exhibit of several faulty carcasses.

In thanking the speakers for their interesting talks, Percy Morry, vice-president of the Halton Hog Producers' Association, warned hog raisers not to sell to black markets but to sell to recognized agencies if they wished to maintain our export markets.

Paying tribute to the work of J. E. Whitelock, Stanley Hall, M.P.P. for Halton said no other man in the county had promoted the agricultural industry to the successful extent as Mr. Whitelock. Mr. Hall also made the presentation of the T. Eaton Co.'s special prizes to W. Leslie, Georgetown for having the Grand Champion side of bacon and Fred Nurse, also of Georgetown for having the Champion exhibit in the Grain Show.

C. L. S. Palmer, chairman of the meeting, explained that Halton was the only county which sponsored a commercial seed show, and the seed which was exhibited must be of the same quality as that for sale. "The prize money is withheld for 60 days in case some seed may not be of the quality shown," he congratulated the exhibitors in the junior grain show for their success in the first year they were included in the show.

Mr. McNaught, crop and seeds branch, explained the purpose of a seed survey which was being carried on by his department. He told of a survey which was conducted in eastern Ontario indicated that the average farmer was not sowing as high quality as he intended.

Winners in the various classes included: Fraser McNabb, Georgetown, who was awarded highest honors for having the highest number of points in the Junior Judging contest. He was also awarded the Halton Seed Grower's trophy. The Stratheona Orchard trophy went to George Wilson, Georgetown; and the Halton Cream and Butter Co. trophy went to Ward Brownridge, Georgetown. Normal Junior Farmers club placed first for having the largest number of entries with Milton and Palermo in second and third place.

Creative Banking
A VITAL FORCE FOR COMMUNITY PROGRESS
A branch bank, wherever you find it, is likely to be an important hub in the business life of the community.
The manager of your nearby branch of The Bank of Nova Scotia has reason to believe that his bank is more than that. Over and above its routine function as a clearing house for the daily transactions of householders, farmers and business men, creative banking has an intimate knowledge of and a personal interest in the welfare of its neighbours.
The Bank of Nova Scotia manager would appreciate an opportunity to tell you more about creative banking and what it does.
