Creative Banking

HELPS TURN Ideas INTO PRODUCTS

THE REAL creator in business today is the man with an idea—and the ability to turn it into something tangible.

Creative banking has helped many a man build an idea into a profitable business... he's helped him through all the stages until the goods are completed, neatly packaged, and moving across the dealers' counters.

But there's even more to it than that. For every package, for every useful machine, for every service that grows from an idea, men and raw materials are needed... so money starts to flow again in wages and salaries, in sales and purchases.

You may have a sound idea, and you may need money to make it work. Talk it over with your Bank of Nova Scotia branch manager. He looks at ideas from the viewpoint of creative banking, he seeks an opportunity to put money to work intelligently, for the benefit of everyone.

Let's do it together!
