WELCOME ON RETURN

It is a pleasant experience when one has been away from home on a vacation, to be greeted by friends and neighbors as he walks down the streets of his home town. His absence has probably been noted by many, and they express warm pleas-

ure at his return. This is specially noticeable if people have been shut in by illness or accident. People express great pleasure at seeing them again, and sympathy for whatever discomfort or suffering they had to endure. Such meetings warm a person's heart, and they les are valued, and that people miss is threatened, to send out an alarm game misdemeaner.
