Street Grades are Retained in the Wartime Housing

a lease of the land for ten years. The delegation expressed appreciation.

Members of the Legion delegation pressed for an immediate decision on their request although Council asked that they be allowed to continue with Court of Revision called for 7:30 and already an hour late. The following motion was passed by Council: "That the Reeve publish a proclamation proclaiming Tuesday, November 11th, 1947 a Remembrance Day and that a letter from Council over the Reeve's signature be sent to each industry in Acton requesting their co-operation in permitting all veterans and others to have the hours of 10 a.m. to 1 p.m. off from work for those who wish to attend the Remembrance Day service."

Council then convened as a Court of Revision and Reeve and Councillors took the usual declaration of office.

Harry Kamstra appealed his assessment on his property on Victoria Ave. Land and buildings were assessed at \$900. Land was assessed at \$500 and buildings at \$400. Mr. Kamstra was not present.

E. E. Barr asked that the store property be assessed to Mrs. Barr and the house and business tax be assessed to himself. The change was approved.

Norman Cunningham appealed an assessment on property on the Crescent. Land assessment was \$100 and building assessment was \$1200. He felt the assessment on the house was too high.

Mr. Beavers on Crescent Street felt his assessment on house at \$1300 was too high. Frontage on both these

buildings was in question. Mr. and Mrs. Fred Kentner felt their property on Victoria Avenue was assessed too high at \$1350 for buildings and \$100 on land.

Mr. S. Sinclair appealed assessment on property on Main Street. Building was assessed at \$2100. There were three rentable properties in one building.

The assessment roll as submitted by the assessor was confirmed by resolution. None of the appeals on assessments were allowed. Total assessment \$938,154.99 for 1948 an increase of \$38,000. The Court of Revision adjourned and Council resumed.

The assessment roll shows a population this year of 2367. Subdivision No. 1 has 1059 and Subdivision No. 2 1308. The number of property owners was given as 1039.

Reverting to Wartime Housing, the Treasurer was instructed to have Engineer Anderson come to Acton and adjust the difficulty on grades which had been encountered.

The Reeve reported that E. Braida had asked a price of \$2000 for a section of low land to be used for dumping purposes. Council gave no consideration to purchase at this price.

It was decided not to annex the land adjoining Wartime Housing subdivision as had been requested by Mr. Stewart and Mr. Graff.

Council agreed to allow a Poppy Day to be held in Acton on November 7th and 8th.

A letter from the Railway Board asked that the Corporation share in the cost of purchase of a lot belonging to Frank Romphf so that a better approach could be made to the Main Street railway crossing. The highway department was to be consulted first.

Council agreed to have the fence on Frank Toth's property rebuilt as originally arranged and to see that bulldozers were removed from his property.

Council adjourned at 11:15 and arranged to hold a special meeting when Engineer Anderson could be present.

TEEN TOWN TALK

With the elections over and our mayor Roy Kirkness elected, we are almost ready to get down to work.

There is still a major problem, how to choose the council. Various ways have been suggested and at present the way which seems the most likely is to elect a representative from each form of the High School and then some representative of those who do not attend school. If you don't like this idea or have a better one, why not talk to Johnny Gray.

There are a multitude of things that can be planned for the coming season and this is the time it should be done. In any case the council should be chosen immediately so they can get organized.

One of the first jobs of the council should be to draw up a constitution which will prevent all this delay another year.

It would be nice to have Teen Town every week but again difficulties arise. Should the meeting night be Friday or Saturday is another main point of discussion when you stop to talk to Johnny Gray on the street corner. This will be up to the council however, and we hope they are elected soon.

The crowd at the last gathering on election night wasn't too encouraging so let's make the next one a real turn out.

Hornby Brothers Among Winners At Halton Plow Match

Much Needed Rain Did Not Prevent a Successful Match last Thursday

Although threatening skies greeted the many contestants of all parts of the province taking part in the Halton Plowmen's Association match, held on the farm of Charles Jarvis last Friday afternoon, two Hornby brothers were among those to win major prizes.

"Recent rains made the soil ideally suited for the event and many fine ridges were turned during the day," said J. A. Elliott, president. "It had been a huge success with farmers coming from near and far to compete. It indicates that more farmers and their sons are taking an interest and pride in both the walking and tractor classes for plowing."

Farmer equipment for every purpose dotted the field in a special display staged by farmers as well as implement dealers. Demonstrations of mechanical wood-sawing, roto-tilling the soil and threshing machine operations were in progress throughout the day.

"It was a good match considering the weather conditions," said J. E. Whitelock, secretary. "The early morning rain of the day of the event no doubt cut down the entry," he added stating he knew a number of farmers arriving later in the day said they intended coming to take part in the program but rain prevented them.

A banquet was at 8 p.m. when winners were announced and prizes awarded concluded the day. R. S. Duncan, Deputy Minister of Agriculture, was the guest speaker. He chose as his talk the place and part agriculture takes in the welfare of the country. He said it was the country's basic industry and should it cease to exist, all others would soon terminate. J. E. Whitelock announced the many winners and presented prizes. President J. A. Elliott was in the chair and entertainment was supplied by the Campbellville Quartette and Jack Bennett.

A complete list of prize winners will be found in the Farm News feature on another page.

THE FINES-BESSEY WEDDING LAST WEEK AT ORTON PARSONAGE

The Rev. Dr. J. Duncan officiated at a pretty wedding in the United Church parsonage at Orton when Erma Viola, daughter of Mr. and Mrs. Alex. Bessey, Hillsburg, became the bride of Archie Gordon Fines, son of Mrs. Fines, Orton, and the late Mr. Archie Fines.

The bride was charming in a street length dress of turquoise crepe with round neckline, gold beaded leaves trimming the bodice, cap sleeves and all around peplum. She wore brown accessories and a corsage of pink carnations. Miss Olive Adsett as bridesmaid wore a street length dress of mauve crepe, round neckline trimmed with gold buttons down the front, push-up sleeves and full skirt. Her accessories were black and her corsage of pink carnations. Mr. Elgin Bessey, Hillsburg, cousin of the bride, was the groom's best man.

Following the ceremony the reception was held at the home of the bride's parents. The bride's table was attractively decorated with a bouquet of roses, tall pink and white candles and a three tiered wedding cake, the layers separated by stands and trimmed with pink and white roses. For receiving the bride's mother wore a gown of medium blue crepe. The mother of the groom also was attired in blue crepe.

The young couple left for a trip to Toronto, Niagara Falls and Buffalo.

Does Lack of Money Block Your Progress?

Sometimes the very fact we lack ready cash seems to prevent us from fulfilling plans that would bring in more money a gift of vicious circle. And, so, many a farmer postpones plans for making his farm more productive, and more comfortable.

Nearly every farmer realized the benefits that can come from money spent in livestock for improving the herd, better drainage systems, modern electric aids, and new agricultural equipment and machinery. Wise farmers also know that a shortage of ready money need not prevent them from sharing in these advantages.

A visit to Mr. Clayton, local manager of the Bank of Montreal, will show you why. A low-cost farm improvement loan from the B of M has helped many farmers to purchase the modern farm equipment designed to increase production and profits. In many cases the increase in profits has been used to repay the loan.

Mr. Clayton will be glad to discuss your plans and financial requirements at any time. You will like his attitude that, "When you ask for a loan at the B of M, you do not ask a favor."

Armistice DAY

The People Want Peace

They have shown fortitude and a capacity for sacrifice in time of war but the people want a life free of uniforms and drums and destruction. If every Canadian will fight as steadfastly for peace as he can for war, there will be no more of our son's blood shed in battle.
