Obituary

JOHN ARCHIBALD BLACK
Following an illness the last six weeks of which were spent in St. Joseph's Hospital in Guelph, John Archibald Black, well-known farmer of this district passed away on Tuesday, November 18th, in his seventy-second year.

A son of the late David Black and Christina Campbell, he had spent his entire life on the farm at Lot 22, Concession 7, Nassagaweya, where his parents had settled when they came from Scotland and where he was born. He was well-known and highly respected. Bright and jovial, he made friends in a wide circle. He was a member of Knox Church, Acton. He was the last surviving member of his family.

Forty-one years ago he married Mary Jane Blacklock and she, with their son John and daughter Miss Annie, remain to mourn the loss and revere the memory of a loving husband and father. A wide circle of friends join in sympathy in their bereavement.

The funeral was held on Thursday afternoon from the farm home in Nassagaweya, where many friends gathered to pay tribute. The service was in charge of his minister, Rev. J. M. Anderson. Interment was in Fairview Cemetery, Acton. The pallbearers were Messrs. Thos. Storey, Bert Crossman, Wm. McIntyre, James Sprawl, Duncan Grant and Henry Snyders.

Flower bearers were six nephews and the floral tributes were from the following: wife and family; Mrs. W. J. Wallace and Pearl; Mrs. J. B. MacKenzie and family; Mr. and Mrs. Stewart Elliott and family; Mr. and Mrs. Duncan Grant; Mr. Geo. Dredg; Mr. and Mrs. Dalton Barber and family; Mr. and Mrs. Wallace Lasby; Mr. and Mrs. Ray Agnew; Mr. and Mrs. John Chapman, Sr.; Mr. Vernon Wheeler; the Neighbors; the Blacklock Family; Wm. Braeken and family; Miss Margaret Snelair, Mrs. Stewart Lantz; Mrs. Beatrice Chew.

TEEN TOWN TALK

The attendance at the regular Friday night "do" was grim. Whether from lack of interest or from lack of appreciation, the fact remains the attendance was poor. Teen Town is an organization that demands the wholehearted support of every teen-ager in Acton and vicinity. It will not stand on its feet and be there for the odd time you choose to attend. There was definitely a good program planned for the evening but for the small attendance the skit originators were unable to become enthused and dropped the idea. The program was supposed to begin at 8:30 and not until 11 was there a moderate crowd.

The lunch of cake and coffee with the usual generous servings was as sumptuous as ever. The cake had a moderate business but the crowd disheartened everyone. For a new council that is trying its best to provide an interesting and varied program it was disappointing.

Now with a brighter outlook, we glance at this Friday night, "Kid's Night." The idea is that everyone come dressed as a "kid", short or knee pants, white shirt and bow tie would be the style for boys and the girls will have to figure out their own since yours truly isn't an authority on the "kid" girl fashion.

There will be costume prizes, bubble gum blowing competitions and a regular "kid's" party. It sounds like fun and it will be, so get your partner or come sing, but remember the costume is the dress of a "kid" and of course to be in all the fun you will need to dress as such. Remember the party starts at 8:30 and ends at 12 so to catch the whole evening's fun be there at the beginning and stay till the end.

The name has not yet been chosen for the local teen-agers and is a definite necessity so get your brain working along that line. Suggestions will be gratefully accepted by the council along any line that will better Teen Town and if you don't like the council's ideas, don't just "beef", give adequate reasons and the governing body will definitely be glad to remedy defects.

Remember that Friday is Teen Town night. Keep 8:30 to 12 open for all the fun that Teen Town provides and be one of the necessary supporters. It's an organization that demands YOUR support.

Engagements

Mr. and Mrs. Geo. D. Hardy of Guelph, announce the engagement of their daughter, Thelma Georgina Jessie to Ronald Charles Davies, son of Mr. and Mrs. E. Davies, Acton. The marriage to take place December 6th, 1947.

Mr. and Mrs. James Stokes announce the engagement of their third daughter Margaret Mae, to Mr. Charles Harold Dennis, son of the late Mr. and Mrs. Charles Dennis, of Campbellville. The marriage to take place in November.

Heartland

Just about one in every four persons in Canada lives on a farm. That is a total of 3,152,449 persons, as the average farm home represents just about four and a third persons. So the number of farms runs to a total of 732,832.

Perhaps because a farm is a great place for kids or perhaps because they instinctively know that if you are to get anywhere in life after a farm background is a very handsome thing to have, kids tend to locate on farms. Just about one third of all the children in Canada under fifteen years of age live on farms.

Sometimes the cities tend to look down their noses at the farms, and point to their great industries with considerable pride. Just for the record then, these vast industries represent a total capital investment of six billion three hundred and seventeen million dollars. That's a lot of money but invested in farm lands, buildings, livestock and machines there are five billion, two hundred and eighty-five millions. On this basis manufacturing is somewhat more profitable than farming as the net value of manufactured products is a little over three billion, eight hundred million dollars, while the cash income from farms, even with the \$67 million allowed under various government grants, was only one billion, eight hundred million for the farm—J.L.R.

POWER OF SONG

The Canadian people dearly love to sing. Enthusiasm can be promoted at almost any sort of meeting, by starting people on favorite and popular songs. If some community singing books are brought out with many familiar melodies, people will take hold and sing with a will. Such singing is a feature at no end of club and organization meetings and special occasions.

There are many familiar songs which the majority of people can sing with enthusiasm. Such singing makes a fine preliminary, if any sort of serious subject is to be taken up. Or it is nice to start the singing just to satisfy the love for the familiar melodies and people leave such an occasion with feelings of happiness.

REAL TEST OF AGE

The right tailor and the right barber can take 20 years off a man's age. But you can't fool a steep flight of stairs.

Manure A Valuable Farm-By-Product

Manure is a valuable by-product of the farm. It is estimated that more than 150 million tons of manure, exclusive of bedding material, are produced each year by the live stock of Canada. In addition to the nutrients in farmyard manure—nitrogen, phosphoric acid and potash—it adds large quantities of valuable organic matter to the soil and improves the tilth of both light and heavy soils.

It should not be overlooked that manure is a highly perishable product, and care, both in sorting and spreading is necessary to get the full benefit from its use.

During the war, the Dominion Department of Agriculture prepared a pamphlet stressing the value of the proper use of manure in the wartime production program. With the continued shortage of food-stuffs in many countries and the need for high production of food products in Canada, the best utilization of manure by Canadian Farmers is equally as important now as it was during the war years. The pamphlet, which deals with the care and preservation of manure, methods of applying, its place in crop rotation, the relative value of fresh and rotted manure, is still available. It may be obtained free by writing to Dominion Department of Agriculture, Ottawa. Ask for War-time Production Series, Pamphlet 27.

SUBSTITUTE FOR LINSEED OIL
After four years of research a United Kingdom research team has found what is believed to be a successful commercial substitute for linseed oil, an import that now costs Britain large sums. The end of the long search came when a woody vine, growing in the Jungle in the British territories of Sierra Leone, Nigeria, and other parts of tropical West Africa, was analyzed. Scientists call it tetraacarpidium conophorum. The seeds of the vine have a hard black shell enclosing a white oil kernel. This kernel contains up to 60 per cent of a cream colored oil which has the quality and odor of linseed oil. Extensive tests have shown that various paints and varnishes can be made from this oil, which is known as Conophor Oil.

CLEAN MILK
Milk is a highly nutritious food for humans and domestic animals—but also for bacteria. Bacteria grow in milk, and cause souring, bad flavor, ropiness and other defects. Clean healthy cows; clean, sterilized utensils and prompt cooling and storage of milk at low temperature are the chief methods for keeping milk free from bacteria.
