NFB Makes Film on Weekly Newspaper World Distribution

The vital role of the Canadian weekly newspaper in the life of the community and the nation soon will got recognition on the motion picture screen. A film, still untitled and currently in the stage of being edited, is to be produced by the National Film Board depicting the important position held in each community by its weekly paper.

When released, the film will be available to film councils and film libraries and is being considered for release to theatres. It will also get nation-wide screening on the NFB's extensive system of rural circuits. Eventually, it will be given international distribution through the Bord's foreign offices, Canada's embassies, legations and trade commissioners' offices. In this it will probably be produced in a number of foreign languages and may go to as many as 70 countries other than Canada and the

United States. NFB's film on the weekly newspapers of Canada will not be a mere screen document of the mechanics of publishing a paper. Of necessity, it will show the operations of publication but the principal aim of the production will be to emphasize how vitally the paper and its editor and staff enter into community life and activities, how they serve the area covered by the paper and how the activities in that area affect the paper and its

contents and services. Rather than leap from one place to another and try to cover all of the hundreds of weekly newspapers in the Dominion-a process that would result in confusion and defeat the purpose of the film-the production will centre around a single publication and use it to tell the story of all weeklies. Morten Parker, NFB director and his production crew spent several weeks filming the community and neighboring countryside at Vernon, B.C., concentrating on the Vernon News. The News well-known to all weekly publishers and editors, was selected as representative of all Canad'an weeklies. Release dates for the film have

SOMETHING_DONE

People like to have interesting things going on in their home town. If there are some who would like all my kind friends and neighbors and more activities, there are plenty of to the So-Ed Club of Knox Church things they can do to make life interfor cards, letters, fruit and flowers cetting. They can make a study of card games, and they will find Garrett, Dr. Scott and nurses of pleasure in their increased skill. They can organize little groups that will Annie Thompson play some card game regularly. If they would like to try out their dramatic talent, some organization would no doubt be glad to sponsor them in some play.

If they enjoy dancing, they can organize a class, obtain instruction, and | Wa find pleasure in the modern or older steps. If they like athletic sports, they could play tennis on some existing court or lay out a new one if none is available. There is no end of inter--Good-bye, old-1947. which they could take up. It helps people to retain youth if they keep interested in the things that young people like. Elderly people about town certainly had a glorious for instance, are seen in large numbers at football games. They are likely to cheer and show enthusiasm. Many of them show that they understand the strategy of the game. Young people somtimes feel that the old folks live in a world of their own, and are little in sympathy with the activities of youth. When they show interest in a game like football, they reach common ground with youth, and a tie of sympathy is created.
