

What is THE BEST THING I CAN DO with my WAR SAVINGS CERTIFICATES?

Make those WARTIME SAVINGS your PEACETIME BACKLOG...

this easy way
 Now that your War Savings Certificates are beginning to pay off, why not keep this backlog of security intact? Use this money to create a "Fund for the Future" — a welcome asset in time of opportunity, a ready resource in time of need.

Here's a way to ensure that this money you've already saved doesn't slip through your fingers. Endorse and mail your maturing certificates, as described on the back, to Ottawa... then, when you receive your cheque, place it in a B of M Savings Account.

Better still — let the Bank of Montreal take care of all redemption details. Just bring all your War Savings Certificates to your nearest B of M branch. As each one comes due over the next few years, we arrange to get the cash for it and credit its full face value (which includes the interest) to your account.

Under this arrangement, there's no need for you to go to the fuss and bother of endorsing each individual certificate — the Bank will attend to this for you.

You'll find this service will save you time, trouble and worry. And while your Savings Account is growing — your War Savings Certificates will be in safekeeping. You'll be surprised at the low service charges, too.

A backlog of security today is your guarantee that you will get the things you want most tomorrow. Hold on to it — add to it and do a real dollar-building job for the future.

We'd like to help you plan this. Just bring in your War Savings Certificates now... we'll do the rest. If you haven't a savings account with us, we'll gladly open a special one for you.

Recollections of Acton

BACK IN 1898

From the Issue of The Free Press, of Thursday, January 13th, 1898.

Messrs. John Mann, J. L. Warren and Wm. McDonald have been elected trustees at Bannockburn School for 1898.

Mr. R. L. McNabb has effected the sale of the house occupied by Mr. W. P. Campbell and three lots on Church Street in Cook's survey to Mr. G. C. Clark. Consideration \$600.

Mr. James McLellan and family left on Tuesday for their new home in Winnipeg. General regret is felt in the removal of this estimable family from Acton.

Local Master McKinnon sold at Guelph Saturday morning the farm of the late M. Sayers of Ballinafad, 50 acres were sold to Francis Longstreet of Bellfountain for \$1650 and 50 acres to G. B. Sayers of Ballinafad for \$1620.

MARRIED
 CUNNINGHAM-COULSON — At the Presbyterian Manse, Hornby, on Christmas Eve, Mr. Thomas Cunningham, Lizzie, eldest daughter of Councillor James Coulson, all of Esqueving.

BACK IN 1928

From the Issue of The Free Press, of Thursday, January 13th, 1928.

Winter is half gone and no sleighing to speak of yet.

Fred Moore of Rockwood, and J. Clarke of Nassagaweya, received injuries when the truck in which they were riding was struck at the level crossing west of Brampton on No. 7 Highway by an east-bound train. The cattle in the truck were killed.

At the annual meeting of the Acton Fall Fair, Mr. R. J. Ker was elected president.

Last week Mr. Wm. Evans was loading ice on his truck at Fairy Lake when the gear slipped into reverse and the truck backed into the hole and disappeared to the bottom of the lake. The next day it was successfully brought back to land.

DIED
 STALKER—At his home, Lot 23, Concession 4, Esqueving Township, on Wednesday, January 18, 1928, John Stalker, in his 83rd year.

Canada's pre-war fascist party led by Adrien Arcand, who was interned during the war, is being revived.

Short Courses Open at Milton

The four weeks' Short Course in Agriculture in the Farmer's Bldg., Milton, got under way on Monday, January 5th, with over thirty young men enrolled. Appleby, Bronte, Tansley, Hornby, Ashgrove, Lowville, DeWinton districts, in addition to the immediate vicinity around Milton, are all well represented. During the first week of the course, the hours being from 10.00 a.m. to 4.00 p.m., two afternoons were spent on Farm Machinery, two afternoons on Live Stock Judging, and other lectures were on soils, crops, and livestock. Agricultural Representative J. E. Whitelock, assisted by J. C. Rennie is in charge of the course. Special speakers during the first week included Prof. N. J. Thomas of the O.A.C., on Soils and Fertilizers; A. T. Woodley, Milton on "My Experience with Farm Accounts"; Geo. E. Elliott, on "Father and Son Agreements"; and Howard Coggins of the International Harvester Company, Hamilton, on Farm Machinery. This latter feature of the course is being held in J. W. Higgins' Implement Shop, Milton, where over forty junior and senior farmers participated in demonstrations and lecture on Thursday afternoon last.

The week of January 12 will see the opening of the three weeks' Home Economics Course in the United Church Sunday School room in Milton. This course will feature Foods and Clothing, and will be under the direction of the Misses Mary and Elsie Irvine, of the Women's Institute Branch, Toronto.

The members of both classes will participate in a trip to Guelph on Wednesday where the young ladies will visit Macdonald Institute, and the young men the O.A.C. Special speakers at the young men's class will include W. E. Breckon, on 'Farm Organization'; Arthur Diamond on 'Rope Work'; Howard Coggins on 'Farm Machinery'; John Clark, Toronto, on 'Home Beautification'; and H. R. McGrogan of the Federal Income Tax Division, on their Basic Herd Policy.

During the third week of the class in Agriculture, namely the week of January 19th, some of the highlights will be a trip to Canada Packers; lectures by Dr. Henderson of the Ontario Veterinary College on Animal Diseases; Prof. J. Francis of the O.A.C. on Poultry; Geo. E. Elliott on Deeds and Mortgages; and the Farm Machinery section will feature Milking Machines and Binder Knotters, etc.

Calfhood Vaccination Program

Since our last announcement, meetings have been held in Esqueving, Trafalgar and Nelson Townships under the auspices of the Halton Federation of Agriculture. Approximately 270 were in attendance at the three meetings and in so far as we could determine Halton livestock men are heartily in accord with the Calfhood Vaccination program. According to Agric. Representative J. E. Whitelock, the few returns made by canvassers to date reveal 100% sign-up. It is not expected that canvassing will be completed until Jan. 15th.

The following are a few facts which should be borne in mind by those considering Calfhood or Adult Vaccination. The statements are supported by literature issued by the Ontario Veterinary College and backed by experimental and practical evidence accumulated over a nine-year period in Ontario, and for a slightly longer period in the United States.

(1) Calfhood Vaccination on a community basis is a recommended procedure.

(2) There is no evidence accumulated to date which would indicate the transmission of Strain 19 B. abortions. Hence calfhood Vaccination has been practiced in blood negative Ont. Governmental herds for the past seven years.

(3) Calfhood Vaccination will protect about 80% of animals for from three to five years. It will prevent the act of abortion in about 95 to 97% of the vaccinated animals.

(4) It is neither necessary nor of value to blood test the vaccinated calf thirty days following the calfhood vaccination procedure with Strain 19 B. abortus.

(5) Note that without the practice of rigid sanitation, no control measure can be a success.

(6) The role played by the herd sire in the transmission of infection is not as important as is the case of the boar in the swine type of abortion disease. Nevertheless, a positive blood reacting sire should not service negative females.

(7) Calfhood vaccination is best performed on young calves, dairy breeds at the age of six to nine months, beef breeds six to seven months.

(8) It should be borne in mind the calf or heifer when vaccinated the more pronounced will be the resistance.

(9) The blood will remain positive for varying periods of time in different individuals. Hence an

animal vaccinated at 12 to 15 mos. of age may be blood positive till it reaches thirty months of age or older.

(10) Adult vaccination is possible means of salvaging a herd where the owner cannot bear the economic burden of a test and slaughter method.

(11) The adult vaccination of negative herds where the disease "Bangs" Contagious Abortion does not exist must be condemned. Only calfhood vaccination should be practiced in herds where the adult animals are free from Bangs Disease.

(12) Adult vaccination is not a cure for abortion but is a tool which when appropriately used will reduce the number of abortions.

(13) Undulant Fever or Abortion disease in man is a serious condition. In many instances it runs a prolonged course and is followed by an indefinite convalescent period.

(14) All citizens should use either commercial or home pasteurized milk to safeguard themselves. (Home pasteurization of milk is accomplished by heating the milk to 140 degrees F. in a double boiler for 30 minutes or by heating it to 165 degrees in an ordinary pan and then cooling.)

(15) Finally, when in doubt the adult vaccination of your herd or where an outbreak of Bangs occurs, we would recommend that you consult and follow your veterinarian's advice.

Answering Your Questions ABOUT IMPORT CONTROL

MOST of the countries which are Canada's regular customers have not recovered sufficiently from the war to pay, in the normal way, for all the goods they need, despite extensive help from this and other countries. Nor are they able to send us enough of their goods to balance accounts—or to pay us in the kind of money which we, in Canada, can use to buy goods in other countries.

At the same time, Canada has been buying more goods than ever before from the United States and other countries demanding U.S. dollars. This is because these goods were not obtainable elsewhere and because of demand pent-up during the war.

Buying from the United States or U.S. dollar areas must, therefore, be temporarily reduced until our trading again becomes normal.

To meet this emergency, purchase of goods and services or expenditures for travel, which must be paid for with U.S. dollars, are now subject to control.

IF YOU ARE AN IMPORTER OF CONSUMER GOODS and wish to find out what goods are (1) prohibited, (2) subject to quota, or (3) unaffected by controls, see or write your nearest Collector of Customs and Excise.

IF YOU WISH TO IMPORT GOODS SUBJECT TO QUOTA and wish to establish your quota authorization to import, or need special information, consult your nearest Collector of Customs and Excise. Quota application forms (E.C. 1) and instructions for completing them, are available at all Customs Offices. These applications must be filed with the Collector of Customs and Excise.

IF YOU WISH INFORMATION ON THE AMOUNT OF YOUR QUOTA. After your application has been filed with your Collector of Customs and Excise, all correspondence about the establishment of quotas or cases of exceptional hardship through import prohibitions should be directed to Emergency Import Control Division, Department of Finance, 490 Sussex Street, Ottawa. Quotas are issued on a quarterly basis and any unused portion may be carried over into the following quarter.

IF YOU ARE AN IMPORTER OF PRODUCTION PARTS, STRUCTURAL STEEL, stone, machinery or other capital goods or automobiles, and wish to know the import restrictions in these classifications, write or see Emergency Import Control Division (Capital Goods), Department of Reconstruction and Supply, 385 Wellington Street, Ottawa.

IF YOU INTEND TO TRAVEL OUTSIDE CANADA and wish to know about foreign exchange available for this purpose, consult any bank or the Foreign Exchange Control Board at Ottawa, Montreal, Toronto, Windsor, Vancouver. If you wish information about personal purchases of goods made during travel outside Canada, consult the nearest Collector of Customs and Excise before departure.

IF YOU ARE A MANUFACTURER, WHOLESALER OR RETAILER and wish information about excise taxes, or about the list of goods to which they apply, consult the nearest Collector of Customs and Excise.

IF YOU NEED OTHER SOURCES OF IMPORTS consult the Foreign Trade Service, Department of Trade and Commerce (Import Division), Ottawa, regarding your supply problems arising from import quota restrictions. Through the Trade Commissioner Service, the Import Division is endeavouring to arrange increased supplies from the United Kingdom and other "non-scheduled" countries.

IF YOU ARE A HOUSEWIFE and wish information on available alternate foods which have comparable nutritional values to those now prohibited or subject to quota, informational material which has been prepared by the Nutrition Division of the Department of National Health and Welfare may be secured from your Provincial Health Department or local health unit.

The administration of these emergency import controls is the responsibility of various departments of the Government. The above information is given to aid Canadian citizens in complying with the new import control regulations with a minimum of inconvenience in their business and personal affairs.
