ACTON BRIDE IS HONORED BY SHOWER AT KIRKLAND LAKE

The following item of local interest appeared on Saturday in the Daily News of Kirkland Lake:

Mrs. Clarence Prosser, nee Miss Frances Dills of Acton, was the guest of honor at a kitchen shower Thursday (July 8) evening given by eight Kirkland Lake hostesses.

Hostesses were Mesdames G. Tuck, in whose home the shower was given; E. Corbould, M. O'Brien, T. Davis, M. Wright, E. Butt, W. Roberts and E. Whitlam.

As Mrs. Prosser entered the living-room, she was greeted with a wedding march played by Mrs. W. Kenry. Mrs. Prosser was escorted to a "throne" made from a large wicker chair decorated with pink and white ribbons and flowers. The honored guest was presented with a corsage of Spring flowers by little Carol Tuck, daughter of the home hostess.

The service table was decorated with pink and white tapers, pink lupins and peonies. Similar color schemes were observed in the room decorations. Mrs. Prosser, Sr. poured tea.

Gifts also presented to young Mrs. Prosser by Carol Tuck were brought into the room in an old-fashioned type covered wagon, decorated in pink and white crepe paper and carrying a "Just Married" sign on the back. A pair of old shoes also was part of the wagon's decorations.

WORLD PRODUCTION WOOL UP IN 1948

Although wool production is down again this year in Canada and in the United States, reports from most other sheep-raising countries indicate that pasture and feed have been favourable, and wool production may show an upswing.

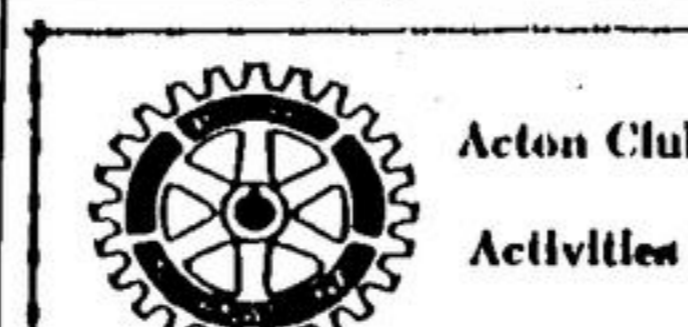

In Australia, after four years of declining production, the total wool crop may reach a billion pounds. New Zealand farmers are likely to clip more wool in the season beginning July 1, than they did in the previous season.

A little more wool is expected in most South American countries. Uruguay is recovering from the 1947 drought. Better world prices for wool has brought the Argentine—the chief wool producing country in South America—crop back to about half-a-billion pounds.

South Africa, Turkey and India expect increases in 1948, and other Asiatic countries about the same as in 1947.

Most European countries report some increase for the fourth year in succession, with the exception of Belgium, Elve, Greece, Holland and Czechoslovakia.

World production for 1948 is estimated at 3,850 million pounds, about 100 million pounds or nearly 3 per cent more than in 1947.

Acton Club Activities

Dr. Wm. Somerville of Halleybury was a visitor at the weekly luncheon of the Rotary Club of Acton on Tuesday noon. Again many of the details in connection with the Rotary Fair were dealt with and President Anna Mason announced plans for speakers at the next luncheon meetings.

Members of the club agreed to sell tickets for the Baseball game on Monday between Acton and Forquas as a token of appreciation of the services of the Acton Intermediates which made their fair a splendid success. Some of the club canvassers reported on their work on the swimming pool project.

Engagements

Mrs. UMa Markley of Milton wishes to announce the engagement of her daughter Thelma Pearl to Robert John Jenkinson, son of Mrs. J. Jenkinson, of Georgetown. The marriage to take place on Saturday, July 24th in Carmen United Church, Toronto.

LEISURE TIME INTERESTS OF BRITAIN'S SCHOOL CHILDREN

The majority of boys in Britain like playing football best in their leisure time, with cycling next. This is revealed in a report made to the Minister of Education by the Central Advisory Council which has just been published by the Stationery Office. A questionnaire was sent to representative schools to discover the trend of children's interests in Britain. The girls' interests ranged over a somewhat wider field than those of the boys. Most children liked reading. Although the majority go to movies once a week very few gave this as their favourite occupation. About half of those questioned kept pets and 50% of those claimed to care for them themselves.

Esqueuing Rate Struck at 37 and School Rates

Other Items At Special And Regular Meetings Held Recently.

A special meeting of Esqueuing Council was held Monday evening June 28th with all members present. Reeve G. E. Cleave presided over the meeting.

A by-law was read and passed to add School Sections 12 and 13 to the existing Township School Area.

Council also sanctioned the purchase from Walter Lawson of Lot No. 43 at a price of \$250 and accepted the offer of Lloyd Davay for \$250 for the buildings on this lot.

The regular meeting of Council was held on Monday night July 14th. Deputy Reeve George Currie, Councillors, George Leslie, H. Craig Reid and Wilfred Bird were present. Reeve, George E. Cleave presided.

A letter from Toronto General Hospital was read in reply to a letter from the Township, refusing liability for a patient.

A deputation of ratepayers addressed the Council, bringing a petition, asking that a 30 mile speed limit be enforced passing their properties. Council agreed to look into the possibility of same and enquire regarding having street lights installed by the Hydro Commission.

Accounts passed included the following: Wm Luth, tile, \$21.00; H.E.P.C. Brampton, \$10.23; Acton Public Utilities, \$15.00; Bell Telephone Co. \$5.98; Hydro Georgetown, \$72.50; Province of Saskatchewan, charity \$20.00; Canadian General Insurance, premium \$5.00; Hawes and Nelson on account of Hall, \$406.77; on account of garage \$433.17; Ted Hudd balance of account \$2,121.02 were passed.

Moved by Bird seconded by Currie, that this Council accept Mr. A. W. Benton's cheque of \$175.00 rebate of one month's salary, owing to illness in the family. Carried.

Moved by Currie seconded by Bird that this Council petition Acton Public Utilities Commission to install 3 street lights on Beardmore Crescent. To be installed under the supervision of the Road Superintendent. Carried.

The by-law to amend the township for 1948 was read and passed. The tax rate for 1948 was set at 37 mills and School Section rates will be extra when struck.

Another by-law was passed providing for the distribution of interest accruing from the Railway Bonus Fund to the various school sections.

YOUTH ORGANIZATIONS

Organizations whose purpose is to provide training and development and recreation for girls and boys, perform a service of very high value. It is a very fine thing for the young folks when they become interested in such groups, and join and work with them.

They gain the opportunity to develop their powers and accomplish important results. They form friendships with the young people whom they meet in these activities and they have no end of fun and enjoyment in the pleasant life of these organizations. They become interested in ideals of patriotism and citizenship and religion and education. Their ambition is stimulated to make the best use of their powers and opportunities and doors of opportunity are opened to larger achievements.

SUMMER TIME'S TEA TIME...

MAKE IT RIGHT...

Now that summer's here, hot or cool, is the drink most people are turning to. But although the formula for good tea is as old as the hills and as simple as A.B.C., many people still do not know how to make a tasty brew. If you follow these instructions carefully you should have no further difficulty: preheat the teapot, measure one teaspoonful of tea to each teaspoonful of water (which must be fresh and really boiling), add one teaspoonful of tea for the pot, steep five minutes, and presto, you're ready for the refreshing sip. To keep the teapot warm, grandma used a tea cozy. It's still a good idea.

SERVE IT ICED...

With the thermometer in the 80's and 90's, there's nothing quite like a long tinkling glass of iced tea. To offset dilution caused by melting ice, you should make the brew double strength, being sure of course to use boiling water and steep for five minutes. Fill tall glasses with cubed or crushed ice and pour in freshly steeped tea. Use a strainer when pouring. Add fine granulated sugar to taste before pouring the tea, or sugar syrup afterwards. Garnish with thin slice of lemon, add a sprig of mint if you like, and there it is, an iced drink to delight the palate.

Skunk Feasts On Turtles Eggs

Driving along the causeway at Long Point, Lake Erie, at dusk a Toronto amateur naturalist stopped his car to watch a turtle 20 feet away in a sand pocket, solemnly attending to her egg-laying function. Directly behind her a handsome skunk awaited the dinner gong with philosophic patience. The gong did not sound during the intrusion by human eyes, but noting the pine-enclosed sand pocket carefully, the naturalist returned an hour later. Turtle and skunk alike had departed, and broken egg shells were the only relics to tell of the skunk's feast on strictly fresh eggs. On the same Long Point trip the observer found turtles especially numerous. Snapping turtles and spotted turtles were seen; painted map and Blanding's turtles, and only the soft shell species failed to join the parade on the sandy benches. There is a fascinating display of turtles of Ontario within the Royal Ontario Museum, and it was from a study of that exhibit that the observer mentioned found the identification of the species he saw much simplified. It is not unusual to find as many as 30 or 40 eggs in the rudimentary "nest" of a turtle.

A septic tank in normal use, should be cleaned once a year.
