### SPRAY TO KEEP DOGS FROM SHRUBS

Flowers and shrubs in the front garden and ornamental plants on front porches and the corner posts of porches may be protected from and against damage by dogs and cats by the simple use of a dilute nicotine spray. The spray is harmless, but its smell is very offensive to cats and dogs, ever when applied so thinly that persons are unaware of its presence.

The spray evaporates and should be renewed after rain. In good weather, spraying every 2 weeks is sufficient. The name of the material is nicotine sulphate and it may be bought at any seed or drug store. The spray is prepared by mixing one-half teaspoonful of the nicotine with one gallon of water, which makes the mixture strong enough for all ordinary circumstances.

The British navy is putting better baths in its ships.

### POWER OF NATURAL FORCES

Garden work gives a picture of the aid that people get from the forces of Nature. The sun shines on the garden, and is stimulating plant growth by its warmth and energy. Unless one lives in a dry climate, or suffers from exceptional drought, one can feel confident that Nature will send her rain on the thirsty plants. One may have to do some watering if Nature is slow about her rain, but the idea is suggested that the forces of Nature are on the whole helpful and friendly.

It is an encouraging thought that Nature is working with us to accomplish useful results. As Nature helps the garden to grow, so Nature seems likely to provide human life with the strength and power to meet its difficulties.

### CAMPBELLVILLE

Mrs. E. D. Mahon was hostess to the Women's Missionary Society and the Ladies Aid of St. David's Church on Wednesday afternoon at Crawfords Lake. ### DURIOUS WAY TO RAISE REVENUE

The motorist, already victimized by an excessive load of taxation, is apparently in for an exciting ride as a Financial Post editorial, Speed Traps and general police persecution are again growing rankly. Particularly poisonous is the suburban municipality which sets out to speed-trap tourists and city commuters. This is not defending excessive speed. It is a complaint against the misuse of authority to impose what amounts to extra taxation by a very dubious method, which is susceptible to many demoralizing abuses.

Properly located and timed traffic lights do a far better job of controlling speed than the speed trap system.

### HE WHO LISTENS

Recently a labor relations man stated that as a general rule he had found union leaders reasonable enough in negotiations. The communists were different, he thought. Whenever agreement was reached on a vital issue they ceased to be interested and would turn to other obstructionist tactics. This is more true for Bernard Shaw and his "Magmas for Revolutionists". For there is stated: "The man who listens to reason is not a J.L.R."

## TIME TAKES A TUMBLE

**CANADA'S FASTEST PLANE** — One-hour and 48 minutes flying time was slashed from the trans-continental flight record recently when a new pressurized North Star Skyliner of Trans-Canada Air Lines flashed across the 2,345 miles from Vancouver to Montreal in just six hours and 52 minutes to set a new mark. The new North Star, shown in upper photo, spanned the distance at an average altitude of 20,000 feet and speed of 342 miles-per-hour with no discomfort to the 20 passengers and crew of six. In the lower photo, Reconstruction Minister C.D. Howe congratulates Capt. Herbert W. Seagram, T.C.A. flight operations director, who piloted the plane. At right rear is Capt. B.A. Rawson, director of T.C.A. flight development, who acted as co-captain.

# NOTICE

## To High School Pupils of Esquesing and Nass. Townships

A survey is being made of the north townships of Halton, Esquesing and Nassagaweya, to ascertain the number of pupils who will be attending High School in the North Halton District commencing with the Fall Term in September.

## Special Courses

In addition to the regular academic courses, Agriculture, Shop Practice and Household Science will be offered at the Milton School and a Commercial Course at the Acton School.

# Transportation

It is necessary that the Board be informed as soon as possible of the number of pupils, the names, the lots and concessions of where the pupils reside, so that bus routes may be mapped out before the re-opening of school.

# Contact Secretary Now

Parents and pupils are requested to contact the Secretary at once giving names of pupils, addresses, grade subjects desired, and School which pupil will be attending. It will be to the advantage of all if this receives immediate attention.
