Mrs. R. H. Reid and Miss Laura Reid, Mr. and Mrs. Jos. N. Reid and Nancy of Hamilton spent the week-end and holiday with relatives in the Acton district and attended the McKinnon-Thompson reunion at Mansfield Heights, Caledon, on Saturday.

THERE IS MY SON'S ANSWER TO ME

"Having received your booklet some time ago, I just now took time off to read all of it. It is very good reading and it is sure true of our young people leaving farms; also about wheat prices. It is a steal from us as our machinery, lumber, fuel, etc., have advanced beyond our income. Produce is too low, also livestock. We get thirty cents a dozen for eggs here.

"Our young son was home a week ago for a visit from Alberta oil fields, works out of Edmonton, eight hour day, five day week; been at it four years.

"I said, 'Son, my health is failing, how about farming here?' He said, 'Gosh, Dad, I am sitting pretty. You only get one pay cheque a year and you don't know how big or small it's going to be, and I do know. So there is my son's answer to me.'—A Saskatchewan Farmer in The Scene.

NEW TYPE LIFE BOAT

A new ship's lifeboat of unorthodox design is nearing completion in an East England boatyard. Instead of the standard hull construction, the keel of the boat is hollow and almost identical, in reverse.

WHY ACCIDENTS HAPPEN

The leading item in this month's Memorandum to Industry of the Industrial Accident Prevention Association gives in two words the causes of many accidents, namely,—"Impatience." This is in effect, an unwillingness to admit the rights of others. It is a form of selfishness strikingly in evidence in traffic accidents. Impatience, or lack of patience, is the cause of a great many industrial accidents too. Men do not want to be bothered using a guard. They can't take time to get goggles to protect their eyesight. They are in too much of a hurry to get the right tools from the tool crib. They want to get on with the job and are impatient with anything which they think holds them back. They fail to realize that accidents are holding up jobs every day all across the country, that accidents are losing more time than all the caution in the world and that after all, the right way is the safe way to do

CONSUMPTION MILK, CHEESE INCREASED IN AUSTRALIA, N.Z.

Consumption of fluid milk has increased noticeably over pre-war years both in Australia and in New Zealand. In Australia, at 237 pints per person in 1946-47, consumption has increased by 22 per cent, and in New Zealand at 305 pints per person in 1946, it was nearly 39 per cent above the pre-war years 1934-35. Cheese consumption has also increased in both countries. Australia by nearly 39 per cent and New Zealand by 31 per cent.

On the other hand, butter consumption has declined by 23 per cent in Australia and by nearly 27 per cent in New Zealand. However, to provide butter for export to Great Britain this dairy product is still rationed in both countries, —six ounces per person weekly being the ration in Australia and eight ounces in New Zealand. Fluid cream too, is only supplied on doctors' orders.

These restrictions on butter and cream may be in part the cause for the increased consumption of fluid milk and cheese, but full employment and increased family purchasing power are naturally a pre-requisite for a swing from one product to another.

Oakville Wins County Honors in 1948 Baseball

Won Three Games From Milton To Clinch Title—Milton and Acton in Group Play-Off

Oakville Intermediate B aggregation nosed out Milton for Halton County Championship in the best of a three game series during the holiday season, by taking the third and deciding game by a score of 7 to 0 down at the part-town last Saturday.

From here on in, the Milton lads will be playing in the Intermediate 'C' grouping with Acton for county honors and advancement into O.B.A. playdowns. The first game is scheduled to be played at Milton Wednesday evening.

In the Oakville series, the locals dropped the first contest by the narrow margin of one run when Turner up and swatted a homer putting his team in front during the dying moments of the contest. From the third inning in the second contest, it was all "even steven" up to the eighth when Stover crossed the plate with the tie-breaker. Grenke hurling knocked the three opposing players off to clinch the second game.

Pollock was the choice against Milton for the third game Saturday. Marshall was given the hurling duties by manager Fay, but was retired in the fifth when Gervais was given the nod.

Oakville grabbed three counters in the initial inning. One more was batted in in the fourth, with three in the fifth including a homer by Wallens. Pollock hurling the best game in his career allowed 1 hit to Milton, by Babe Clement, who just recently donned a uniform.

Oakville gleaned seven runs from as many hits while the locals were content with the single hit. Both teams displayed excellent ball throughout the series and will make a decided bid for O.B.A. championship in their respective classes.

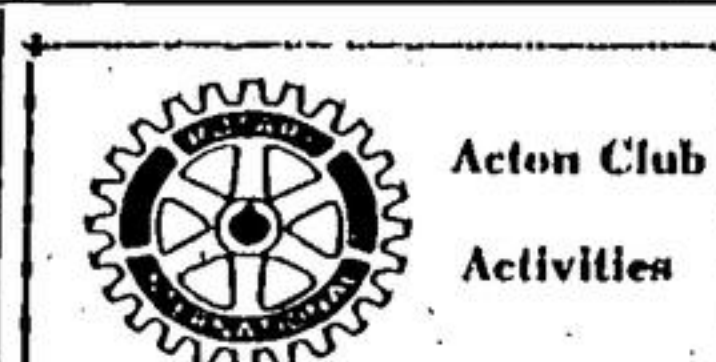

The Teams: Oakville — Gilling ss; Post 2b; Tojatzka lf; Carter 1b; Wallens c; Laquay cf; Pollock p; Galbreath 3b; Wilson rf.

Milton — W. Clement rf; Evans, 2b; S. Fay 1b; Stover cf; A. Clement ss; Melanson 3b; Brush lf; McPhail c; Brush p in the fifth; Marshall p; Gervais p in the fifth. Officials—Whiteman and Fisher.

Oakville 300 130 00x-7 7 3 Milton 000 000 000-0 1 3

PRESERVING ENGLAND'S MOST BEAUTIFUL GARDENS

England's finest private gardens are to be preserved for all time. Under a scheme launched the end of June, the recently formed joint committee of the National Trust and Royal Horticultural Society will take over responsibility for the upkeep of gardens of special beauty and historical interest in order that they may become permanent monuments of English gardening. The new committee, under the chairmanship of Lord Aberconway, President of the Royal Horticultural Society, has been formed to provide the specialized care necessary to maintain these gardens and to raise money by public subscription. Gardens accepted by the committee as gifts on behalf of the nation will be opened to the public.

Robtlan A. Padbury, was speaker on Tuesday at the weekly luncheon of the Rotary Club. Mr. Padbury told of the history of Jersey cattle and the work done over the many years in improving the breed.

Mr. Norman Baird was welcomed as a new member of the club and last week Mr. John Chapman was the new member welcomed.

CAN WE CURB ELECTION HISS?

There is too much "ple in the sky" in present-day political platforms, in the opinion of a majority of Canadians answering a Financial Post questionnaire. Two principal suggestions were advanced, as to means of discouraging elaborate pre-election promises. One was to convince the electors that they were simply being bribed with their own money—that all such expenditures must be met out of the taxes which they would pay. The other was to hold candidates and parties to a policy of strict accountability, and to penalize those which did not implement their pledges.

Choice Dwellings For Sale

CHOICE SIX ROOMED BRICK VENEER DWELLING—in best residential district, just a block off highway street, consisting of Living Room, Dining Room and Kitchen, with glassed-in porch, Three bedrooms and sunroom upstairs.
